DIXMONT ASYLUM.

UNDER INVESTIGATION BY A LEGISLATIVE COMMITTEE.

Testimony of Mr. A. P. Hopkins, of Washington, Pa. The committee appointed by the Legislature to investigate the charges made against Dixmont Insane Asylum, consisting of Senators McCrum, Crawford, McNeill, of Allegheny, and Hart, of Lycoming, and Representatives Walker, of Erie, and Graham, of Allegheny, met at the Monongahela House, Pittsburgh, at 11 o'clock, on the 24th ult. In addition to the Committee there were present Charles T. McKenna and James H. Reed, attorneys for Dr. Reed; Mr. T. F. Zimmerman, of Johnstown, counsel for Mrs. Constance Neinstell, and who was summoned to testify in reference to the charges of Dr. Reed, of Erie, that she was being grossly abused, etc.

notice was taken of it, but witness said he had not been maltreated afterward. Witness said he was released from Dixmont by the efforts of his friends.

Senator Hart—Did you ever see any other persons maltreated while you were at Dixmont? Witness—Yes, sir. Two men had a dispute about a testament one day and one knocked the other down. Three attendants and an inmate rushed at the first man. Liggett took a calico strap put around the man's neck and pulled it so tight that the man was choked insensible. Liggett then jumped on the man's body, after which the man was taken to the bathroom.

only one I know of. There no female physicians in the asylum. Drs. Hutchinson and Wyle were the only physicians. I don't know whether Dr. Reed was considered one of the physicians or not.

Major Walker—Do you know of a patient named Katy Dailey? Witness—Yes, sir. One day about noon Katy Dailey sprang at Miss McCaslin and scratched her face. I pushed her back and must say I struck her. She was put in the straight jacket and taken to her room. Major Walker—Did you ever know of patients' arms being injured by having this jacket put on? Witness—Yes, sir. Mrs. Watt had a large sore on her arm from this cause.

THE ACADIANS.

From the American. If the poet's dream of an earthly paradise was ever realized, it was in the home of Evangeline, the lovely heroine of Longfellow's most pathetic poem. This beautiful land of flowers was truly the "home of the happy."

the object for which they were to assemble was not distinctly stated, but it was so pre-emptory as to require implicit obedience. In response to this summons, four hundred and eighty men assembled at the Church of Grand Pre. The doors were closed and barricaded, and Colonel Winslow, surrounded by his officers and guarded by his men, informed the unfortunate Acadians that the King of England had ordered that their land and tenements, cattle of all kinds, and live stock, and all their fruits and grain, were forfeited to the Crown, and they were to be removed from the province.

SHORT HAND,

and the wonderful facility with which it can be acquired? Do you know that experienced Shorthanders can write you large checks having an income to-day which is absolutely indispensable? Do not fail to write us! We have successfully established a school of...

LESSONS BY MAIL,

whereby the Art can be learned in its entirety, in a very short time. The system is acknowledged to possess advantages which have since placed it in the foremost ranks and it stands to-day with those who have solved the wonderful mystery of the Art.

WITHOUT COMPETITION,

If you are smart and energetic and possessed of a reasonable degree of mental activity, you are just the man to make your money. You are just the man to explain WHY the system is the most profitable and shortest. Write at once to the Stenographic world. Address: American Phonetic Institute, Waverly Place, New York City 7-1116.

THE FEMALE SIDE OF IT.

The first witness sworn was Mrs. Mary Jane Coulter, a former attendant at Dixmont. The witness testified as follows: "I reside in Baltimore, have lived there three months. I was at Dixmont as an attendant. Went there November 2, 1881. When an attendant first goes there he or she is what is called a 'surplus' or assistant attendant. When there is a vacancy, the surplus takes the place. I was in the sewing room first. I was at Dixmont four months, the last month I was an attendant. There are two attendants, and in the worst wards a surplus also. The duties of the attendants are to see that the wards are taken care of and that the patients are well attended to. Major Walker—Did you ever see any instances of abuse while you were at Dixmont? Witness—I did, frequently. There was a Mrs. Mitchell, who always wished to take her life; I saw Miss Jo. McCaslin push her violently against the arm of a settee to make her get out of the ward. One time I saw Mrs. Mitchell with her hands on the hands with a bunch of keys while putting her hands in the mufflers; frequently when she put the jacket on Mrs. Mitchell she would put her knee on Mrs. Mitchell's breast, and press so hard, and pull the sleeves of the jacket so tight, that Mrs. Mitchell would lean forward and groan and say, 'Oh, don't!' Mrs. Mitchell was very sick, and the treatment she received was not right at all. There was Mrs. Barnhart, who it was said, had been bedridden, crazy by ill-treatment from her husband. Miss McCaslin would taunt her with having murdered her husband with bed bug poison. Mrs. Barnhart would become enraged and swear frequently, and then she would be locked up. This was done about four times a week for amusement. Major Walker—Did you ever know of any one being tied to the bed while in the straight jacket? Witness—I did. There was Mrs. Watt, who was tied so. The patients' arms were folded across the breast and the long sleeves of the jacket would be around the arms and pulled tight by the attendants and tied in a hard knot in the back. The feet were tied, the patient put to bed, and laid on this knot all night. Miss Hope was the super-viser, and was a very grim looking person. She has been there about sixteen years. Dr. Reed very seldom came into the ward. One time I saw Miss McCaslin cut Mrs. Watt's mouth with a cup, and once with a knife in forcing food into her mouth. There was a Mrs. Schilling whose mind was almost gone. I have seen Miss McCaslin strike her in the face because she would not eat. I complained to Miss Hope, but she said she did not know which one I lied for. Miss McCaslin also said my sister-in-law and I were too tender hearted. The patients were summoned to their meals by the ringing of a bell. If patients would not go they were forced. I consider the food very unfit for any one to eat. It was poor in quantity and quality, and the meat was nearly always tainted. The sugar was this coarse brown article and would make persons sick that used it. The tea was very poor. We considered some of the things so poor that we would not use them, and purchased for ourselves in Allegheny. There were fourteen rooms in the ward I was in and twenty-five patients. Part of these slept in the beds and the remainder on mattresses on the floor. Major Walker—Do you know of any of the patients attempting to take their lives while you were here? Witness—Mrs. Mitchell tried to choke herself by putting her head between the slats of the bed. This the

When there is a vacancy, the surplus takes the place. I was in the sewing room first. I was at Dixmont four months, the last month I was an attendant. There are two attendants, and in the worst wards a surplus also. The duties of the attendants are to see that the wards are taken care of and that the patients are well attended to. Major Walker—Did you ever see any instances of abuse while you were at Dixmont? Witness—I did, frequently. There was a Mrs. Mitchell, who always wished to take her life; I saw Miss Jo. McCaslin push her violently against the arm of a settee to make her get out of the ward. One time I saw Mrs. Mitchell with her hands on the hands with a bunch of keys while putting her hands in the mufflers; frequently when she put the jacket on Mrs. Mitchell she would put her knee on Mrs. Mitchell's breast, and press so hard, and pull the sleeves of the jacket so tight, that Mrs. Mitchell would lean forward and groan and say, 'Oh, don't!' Mrs. Mitchell was very sick, and the treatment she received was not right at all. There was Mrs. Barnhart, who it was said, had been bedridden, crazy by ill-treatment from her husband. Miss McCaslin would taunt her with having murdered her husband with bed bug poison. Mrs. Barnhart would become enraged and swear frequently, and then she would be locked up. This was done about four times a week for amusement. Major Walker—Did you ever know of any one being tied to the bed while in the straight jacket? Witness—I did. There was Mrs. Watt, who was tied so. The patients' arms were folded across the breast and the long sleeves of the jacket would be around the arms and pulled tight by the attendants and tied in a hard knot in the back. The feet were tied, the patient put to bed, and laid on this knot all night. Miss Hope was the super-viser, and was a very grim looking person. She has been there about sixteen years. Dr. Reed very seldom came into the ward. One time I saw Miss McCaslin cut Mrs. Watt's mouth with a cup, and once with a knife in forcing food into her mouth. There was a Mrs. Schilling whose mind was almost gone. I have seen Miss McCaslin strike her in the face because she would not eat. I complained to Miss Hope, but she said she did not know which one I lied for. Miss McCaslin also said my sister-in-law and I were too tender hearted. The patients were summoned to their meals by the ringing of a bell. If patients would not go they were forced. I consider the food very unfit for any one to eat. It was poor in quantity and quality, and the meat was nearly always tainted. The sugar was this coarse brown article and would make persons sick that used it. The tea was very poor. We considered some of the things so poor that we would not use them, and purchased for ourselves in Allegheny. There were fourteen rooms in the ward I was in and twenty-five patients. Part of these slept in the beds and the remainder on mattresses on the floor. Major Walker—Do you know of any of the patients attempting to take their lives while you were here? Witness—Mrs. Mitchell tried to choke herself by putting her head between the slats of the bed. This the

THE FEMALE SIDE OF IT.

The first witness sworn was Mrs. Mary Jane Coulter, a former attendant at Dixmont. The witness testified
