—The commencement exercises at Thiel College, Greenville, Pa., come off on tomorrow, 21st inst. —People go to a watering place, take a bath and feel better. At home it never occurs to them to benefit themselves in that way.

—A silk parasol was left in D. A. Heck's clothing and carpet store, Duffy Block, and the owner can have it by calling for and describing it. —Mr. C. Rossing has just received a large lot of white in latest styles, also a new variety of handsome dusters.

—But half an average crop of wheat is predicted for this county. Our farmers, however, will likely make up the deficiency by increased crops of the other varieties of grain. —The sale of the Etzel property to Mr. Frank Huelson, by the B. & L. Association fell through and the property was purchased by Mr. O. K. Waldron the dentist.

—There will be communion services in the English Lutheran Church, of this place, on next Sunday. Preparatory services on Saturday previous at 2:30 o'clock in the afternoon. —The Brooklyn bridge disaster was outside at Sunderland, England, last Saturday, where 178 children were crushed to death during a panic in a theatre.

—Mr. W. H. Snowden, a son-in-law of Mr. W. M. Hutchinson, of Greece City, this county, who died in Waterloo, Iowa, on the 12th inst., was brought to and buried in Allegheny city to-day. —Trunks and Valises, also the Marshall Folding Valise, at D. A. Heck's.

—This is commencement week at the Pine Grove Normal Academy. Mr. Willis S. McNeas, of West Liberty, this county, and Samuel T. Shields and J. Madison Shields, of Jacksonville, are down on the program for oration. —The model juryman of all this broad Commonwealth lives in Forest county. He was in Tomesta at the recent term of court, and when called on a case could not tell the name of the township in which he lived. Twelve such "good men and true" would constitute a palladium of any people's liberties.

—A cyclone passed over the pan-handle part of West Virginia, and the northern part of Washington county, this State, last Monday evening. Over 500 head of cattle and sheep are reported killed, but no person fatally injured. Orchards, houses, barns and everything were upset, and hailstones weighing six ounces are said to have fallen.

—When a young man goes to pray, meeting he expects to be called up to pray, but when a young man never goes to pray, meeting but does so for his girl, is called upon for a prayer by the head of the family, he is, for the time being, struck dumb with astonishment. This happened to one of our young attorneys a few evenings since.

—Jubilee services, commemorative of the 400 anniversary of the birth of Martin Luther, will be had in the English Lutheran Church, of Butler, on next Monday, 20th inst., and in the English Lutheran, Chapel Hill, of Centre, on the following Sunday, July 1st. A number of the ministers of the church are expected present at each place.

—A Pittsburgh jury gave a verdict against a railroad company for the amount of money stolen from a passenger in a sleeping car. "Since the defendant," said the Judge, "sold a ticket for two dollars in addition to the regular rates of passage, and offered the facilities for sleeping as an inducement to pay the extra money, it bound itself to protect its patrons while they were asleep and for the time being helpless."

—At the Democratic Convention in the school house, last Monday, Joseph C. Vanderlin, Esq., was nominated for District Attorney on first ballot; W. E. Taylor, of Worth township, was nominated for County Surveyor on first ballot, and Messrs. McBride, Brown, Book and Bard were elected as delegates to the Democratic State Convention, to be held at Camp Hill, of Centre, on the 27th inst. D. M. Ward and Frank Kohler, Esq., were the secretaries, J. D. Marshall, Esq., was elected Chairman of the Democratic County Committee.

—We are in receipt of the Summer Excursion Route book, for 1883, issued by the Pennsylvania Railroad Company, and find it to be the most handsome and complete of any excursion book issued by this company. It contains about 1,500 different routes, has illustrations of all the famous resorts of the country besides a large colored map which will be of great service to anyone contemplating taking a pleasure trip. Copies can be secured of the P. R. R. agents, or by enclosing twelve cents for postage, to Thomas E. Watt, No. 110 Fifth avenue, Pittsburgh.

—According to the accounts telegraphed from Chillicothe, Missouri, of a storm that visited that place last Tuesday, one family's house was torn to pieces, was carried 500 feet through the air. The frightful power of the wind was shown when it demolished a brick church and tore up thousands of trees by the roots, destroying three-fourths of the apple crop in the regions which it visited. It is becoming more and more evident that some general cause is at work in the production of such storms, and that its manifestations vary in different years. Its activity seemed to have reached a maximum last year, but the record of the tornadoes so far this year indicates that the maximum may not yet have been attained, and the tornado that visited part of Long Island last Wednesday shows that these storms are liable to occur in any part of the country.

—A SMALL AND ANNOYING RED BUG. PINE GROVE, June 12.—A small red bug, which has within the last few days appeared in this vicinity, is doing considerable injury to the plum and cherry trees. The bug stings the plums and cherries, and in a short time the fruit rots and drops off. The leaves and branches, covered with the deposits of the bugs, also wither and die. It is claimed by some farmers that this bug consumes the small potato bugs, which are playing sad havoc in their individual line.

—CHIPS IN THE SOUTH AND WEST. CHICAGO, June 12.—The Farmers' Review to-morrow will publish a condensed report summary, based on reports from California, Tennessee, Kentucky and Northwestern states. It says there is little or no change in Winter wheat; if any, for the worse. Spring wheat looks well and grows finely. Oats are improving and promise a fine crop. The first planting of corn is poor, but the second is coming on better. No stand has been made.

—All the Same in Dutch. It is announced that Don Cameron has retired from politics. Just the other way; politics have retired from Don Cameron.

Notes on Current Events. The New York Herald sharply says in reference to the trial for murder that must follow the killing of Dukes by young Nat the Pennsylvania jury "can neither convict nor acquit him without subjecting the State to new disgrace."

The Greenbackers of Ohio put up their candidate for Governor on Wednesday, and next day the Prohibitionists put up theirs. Judging by the number of delegates at the two Conventions, we should say that the Prohibitionists are five times as strong as the Greenbackers.

Captain Webb, the English swimmer who first swam across the British Channel, is now preparing to swim across the Niagara River below the Falls, so that he will pass by the famous whirlpool. These are strange investments that men make of their lives in the hope that they will receive back their lives and money besides. In this case the sum promised to Captain Webb will be paid to his wife if he is killed.

A remarkable murder case has just been tried at Moritz Sterling in the State of Kentucky. Vaughn Helton was shot dead in bed beside his wife and child. John Barnett and seven other men were indicted for the murder. On his trial Barnett withdrew his plea of not guilty and pleaded guilty. Five of the other seven prisoners followed Barnett's example, and with him were indicted on imprisonment for life. Now three other men, who were called as witnesses for Barnett, have been indicted for complicity in the murder. It is very rare that the law has to deal with so many criminals all concerned in a single crime.

The notion that was lately put into practice by a Philadelphia newspaper of calling to this country every Sunday night the sermons of the London pulpit, Spurgeon, has been abandoned. The price was too heavy for sermons which were too cheap. They proved to be unprofitable to the paper which footed the cable bills for them. In fact, it was at once evident to those who read them during the few weeks of their publication here, that we have in this country hundreds of preachers who are in every way superior to Spurgeon of London—who are better reasoners and theologians, more persuasive, more learned, more imaginative, and not less pious or enthusiastic than Spurgeon. The Philadelphia paper which called Spurgeon's sermons from London rendered some service by bringing this truth home to the American mind.

France has got her war in Madagascar as nicely started as her war in Tonquin, she has not advanced much further toward victory. The official report of the bombardment of Majunga, a seaport of Hovas, shows that after taking possession of the town the French forces came to a halt. The worst is to follow there as well as in Annam. The Hovas could not, of course, resist the gunboats; but they have now instituted a land blockade around the seaport and have cut off supplies. The majority of the Sakalava are reported to have adjusted their quarrel with the Hovas and are now acting with them against the invader; so that the French thus disappointed in an ally, will have to increase their army in Madagascar by troops from home before they can contend successfully with the Hovas. The latter have an army of Regulars numbering 30,000 men with firearms, and a horde of 50,000 spearmen who would do effective work in the forest which lies between the coast and the Hovas capital. The drain upon the troops of the Republic intended for foreign service, to reinforce the armies in Madagascar, Tonkin and Tonquin, is a serious one, and the French are likely to be locked up in Majunga for a long time before they are ready to move. It may be so long indeed that possibly they will prefer a compromise with the Hovas to an attempt to conquer them.

THE CROP OUTLOOK. ANNOUNCED BY THE COLORADO POTATO BEETLE. HAMBURG, Pa, June 12.—The Colorado potato beetle, an insatiable pest to the tuber, which had promised comparative immunity this season up to within a few days, has again appeared in large numbers in this county, and is doing a fearful ravage on the potato patches. The common remedies, Paris green and London purple, will again be in active demand. The beetle has appeared considerably later than in any former season since its first appearance hereabouts, which is a fortunate thing for the present crop.

Where It Struck. A threatening looking storm was seen pass North of this place on last Tuesday evening. Many thought it would strike in the shape of another cyclone in the Northern part of this county. But by the following it appears to have reached Warren county this State before its force was spent.

A special from Clarendon, Pa., states that a tornado swept over that town on Tuesday night, demolishing 85 large oil rigs, five buildings and deluged the entire town, causing great loss of property.

The tornado struck Clarendon at 6:30 and swept over the neighboring towns of Warren and Garfield, working damage in every direction. At Warren chimney pots and house roofs were whirled off, telegraph wires and poles were torn up and carried off like feathers. Nearly a score of oil rigs at Warren were wrecked and the telegraph building was blown down.

At Sheffield the foot bridge across the Philadelphia & Erie was blown down, falling upon a passenger train and crushing a car. Fortunately it contained nothing but baggage. A large tannery owned by McNair & Co. was blown down and one of the employees seriously injured. The fine Catholic church was almost entirely demolished.

Cancellation of Check Stamps. WASHINGTON, D. C., June 1.—The Comptroller of Internal Revenue has issued a circular supplementary to circular 259 in regard to the redemption and cancellation of stamps imprinted on checks, drafts, etc. It provides that imprinted checks and drafts may be sent to the Internal Revenue Bureau at once, instead of from July 1 next as originally intended. Such as are received will be cancelled and returned if possible by July 1. They may be presented in sheets or bound in books, and will be returned in the same condition. Blanks which have been compressed into blocks or pads must be separated before presentation.

M., for the purpose of more thoroughly organizing the party in the county and to place in nomination one person for District Attorney, and one person for County Surveyor, and to transact such other important business as will come before the Convention.

THE CROP OUTLOOK. ANNOUNCED BY THE COLORADO POTATO BEETLE. HAMBURG, Pa, June 12.—The Colorado potato beetle, an insatiable pest to the tuber, which had promised comparative immunity this season up to within a few days, has again appeared in large numbers in this county, and is doing a fearful ravage on the potato patches. The common remedies, Paris green and London purple, will again be in active demand. The beetle has appeared considerably later than in any former season since its first appearance hereabouts, which is a fortunate thing for the present crop.
