For City Commissioners.

WILLIAM R. PATTERSON.

The Mercer County Committee.

The doings of the Republican Committee of Mercer county are of interest to the citizens of the county.

The Committee met in the Court House at Mercer on Saturday, June 16th, 1901.

On Thursday last, Gov. Pattison vetoed four bills—the State Weather Service bill; the additional Bird-book bill; and the fireman's relief association bill.

On Friday last the Governor signed the following bills: amending the horse-racing act of 1900 so as to apply to horses used in races and to incorporate trotting associations; enabling any township which desires a borough or city to hold its elections within the corporate limits of said township; amending the act relating to construction and condemnation of turnpikes; providing for taking appeals in case of divorce; relating to competency of assignees in civil cases; and there the Governor's action in action is dead or has been adjudged a lunatic; amending the act relative to a free bridge over the Delaware river; making an appropriation for the deficiency in the salary of the President Judge of the Tenth Judicial district; authorizing the Equine Bridge Company to construct a bridge over the Delaware river; and vetoed ten bills as follows—relating to the sale of real estate of corporations, for the purpose of amending the act relating to the reason that a similar statute is already on the books; providing for the cancellation of insurance policies; three private relief bills, authorizing the sale of real estate by persons named in a will other than the executor; supplement to a church bill; increasing the number of agents in the State; creating a board of public health; regarding brevet commissions to graduates of military academies.

With the exception of a few items, the Gov. last week, approved of the general appropriation bill. The vetoed items were those providing for the expenses of Legislative investigating committees, for the salary of old documents, and for additional factory inspectors.

Under the new revenue law the tax on personal property in Pennsylvania will give \$1,646,807.52. There are nearly two thousand corporations in Pennsylvania which will be affected by the new tax bill.

These corporations pay in the aggregate over \$1,500,000 in capital stock tax to the State. The Boyer act adds two mills to this tax, which Auditor General McCann estimates will increase the revenues from this source alone about \$1,500,000.

The Supreme Court sustained Governor Pattison's appointment of W. R. Wright, as treasurer of Philadelphia, and that city now has a treasurer who is at least right by name.

On Tuesday Gov. Pattison approved fifty-eight bills, as follows:

Authorizing the appointment of assistant assessors in certain townships; granting an annuity to David Costley, of Company G, Thirtieth Regiment, Pennsylvania Militia; granting an annuity to Archibald D. Knox, of Thirtieth Regiment, Pennsylvania Militia; granting an annuity to certain private soldiers and privates for conspiracy under certain laws; authorizing the extension of the corporation of any railroad corporation organized under either a special or a general law; relating to the illuminating of bridges with electric light; defining the duties of police magistrates in cities of the second class; and to rebuild bridges owned by corporations and which have been destroyed and abandoned.

Also, relating to the employment in the office of the Secretary of the Commonwealth of a number of school controllers; abolishing the office of director of the poor in cities of the first class; relating to the purchase of real estate by persons owning property in any retail drug store; each District to the next Republican Convention.

Resolved, That the Committee advise the adoption of the popular vote system in making nominations for Congress and Senate in this Congressional and Senatorial District.

And Chairman Perry read them out of order for the reason that the motion creating the committee required their report to be made to the next county convention. This ruling was appealed from by Mr. Miller, who defended the action; of his committee and their resolutions and an acrimonious debate followed but the chair was sustained by a vote of 27 to 10, and "reform" in Mercer county, so far as their local affairs are concerned, will be for next year. This action of the Committee is unanimously condemned by the Republican press of the county, and we have seen, and though it shows that the set of fellows who have been controlling the Republican nominations in Mercer county are not inclined to let go their hold, it need not interfere with the popular vote system in the Congressional District.

The Republican State Convention of this met at Columbia, Pa., on Tuesday, and the next day nominated William McKelvey, Jr., of Stark Co., for Governor; Andrew L. Harris, of Preble, for Lieutenant Governor; W. E. Poe, of Wood, for Auditor; W. T. Ope, of Cambria, for Treasurer; J. C. Richards, of Lawrence, for Attorney General; M. J. Williams, of Fayette, for Supreme Judge; G. E. Groce, of Pickaway, for Board of Public Works; C. T. Carson, of Guernsey, for Commissioner of Public Safety; and H. B. McNeil, of Miami, for Chair of the State.

The four leading nominations were made by acclamation, and the utmost harmony and good nature prevailed.

GOVERNOR PATTERSON'S veto of the expense bills of several Legislative committees will naturally excite the criticism of members who are directly affected, but Governor Pattison is right in his action. It is quite time that something was done to put a stop to the useless and extravagant expenditure of the public money in this way. It is an imposition upon the people which has no warrant.

It has become the custom not only for regular committees of the Legislature to go about here and there on pretended inquiries for which the law otherwise provides, but almost immediately upon the assembling of the Legislature special committees are created for jangling purposes. One of these was the Joint Committee to Inquire into Bank Failures. It had a number of sessions here and some others in Pittsburgh, and about all that it accomplished was to put in a bill of \$7500 for expenses. Another charge of like useless character was that of the Senate Finance Committee, which wanted \$2000 for investigating the Philadelphia City Treasury. What did it give the State in return for this amount—Philadelphia Press.

A New York girl named Carter, a daughter of the millionaire cotton manufacturer who was drowned in his yacht some years ago, has married the English Lord Gordon-Lumsings, who was disgraced by the late boisterous trial. The trial has developed a feeling against the gambling throughout England, and the Princess Wales' was jeered and hooded at the Ascot races. The Prince is being freely criticized by the press of the country, and the affair may yet end his hopes of succeeding his mother on the throne.

One of the most ridiculous arrangements ever entered into was continuing the term of the Chairman of the State Committee to the first of January. However, obvious as the arrangement was to the State candidates under the present arrangement they were compelled to submit to it management even if his utter madness is apparent to every one. The next State Convention should put an end to that kind of nonsense. Indiana Pa. Engr.

REPUBLICAN NOTES.

On Thursday last, Gov. Pattison vetoed four bills—the State Weather Service bill; the additional Bird-book bill; and the fireman's relief association bill.

On Friday last the Governor signed the following bills: amending the horse-racing act of 1900 so as to apply to horses used in races and to incorporate trotting associations; enabling any township which desires a borough or city to hold its elections within the corporate limits of said township; amending the act relating to construction and condemnation of turnpikes; providing for taking appeals in case of divorce; relating to competency of assignees in civil cases; and there the Governor's action in action is dead or has been adjudged a lunatic; amending the act relative to a free bridge over the Delaware river; making an appropriation for the deficiency in the salary of the President Judge of the Tenth Judicial district; authorizing the Equine Bridge Company to construct a bridge over the Delaware river; and vetoed ten bills as follows—relating to the sale of real estate of corporations, for the purpose of amending the act relating to the reason that a similar statute is already on the books; providing for the cancellation of insurance policies; three private relief bills, authorizing the sale of real estate by persons named in a will other than the executor; supplement to a church bill; increasing the number of agents in the State; creating a board of public health; regarding brevet commissions to graduates of military academies.

With the exception of a few items, the Gov. last week, approved of the general appropriation bill. The vetoed items were those providing for the expenses of Legislative investigating committees, for the salary of old documents, and for additional factory inspectors.

Under the new revenue law the tax on personal property in Pennsylvania will give \$1,646,807.52. There are nearly two thousand corporations in Pennsylvania which will be affected by the new tax bill.

These corporations pay in the aggregate over \$1,500,000 in capital stock tax to the State. The Boyer act adds two mills to this tax, which Auditor General McCann estimates will increase the revenues from this source alone about \$1,500,000.

The Supreme Court sustained Governor Pattison's appointment of W. R. Wright, as treasurer of Philadelphia, and that city now has a treasurer who is at least right by name.

On Tuesday Gov. Pattison approved fifty-eight bills, as follows:

Authorizing the appointment of assistant assessors in certain townships; granting an annuity to David Costley, of Company G, Thirtieth Regiment, Pennsylvania Militia; granting an annuity to Archibald D. However, obvious as the arrangement was to the State candidates under the present arrangement they were compelled to submit to it management even if his utter madness is apparent to every one. The next State Convention should put an end to that kind of nonsense. Indiana Pa. Engr.

NEIGHBORHOOD NOTES.

The remarkable cure effected by Father Mollinger of Troy Hill, Allegheny, continues to be reported, and patients are flocking to him from all over the country. One day last week two thousand persons were waiting to see him, and his assistants are accused of making money by taking bribes from anxious patients for the privilege of seeing him.

The home of Samuel Meyers of Somerset was burned one night last week. He and his wife were in bed, but his two girls were huddled in their room by the flames and perished.

At Huntington, Pa., the other day a large swarm of bees settled on the cab of the engine of a freight train, standing at the station. The engineer and fireman were driven out and nothing could be done till the bees were removed.

A Michigan fur dealer purchased \$14,000 worth of furs in Mercer county, during the past year.

John Sargent of New Castle accidentally shot his wife, Tuesday.

Lancaster county has a judicial squabble on hands this year, similar to the one in this district eighteen years ago.

The county treasurer of Indiana county, Geo. H. Oplen fell dead on the street on Monday of last week, and the Co. Commissioners appointed another to take his place. Hon. A. H. Fulton of that county also died suddenly last week.

The citizens of Kittanning are killing copperhead snakes on their streets. Its no wonder the lawyers of the town have taken a month's vacation.

At Beaver Falls Monday, Judge Wickham granted a rule nisi, which will show cause why he should not be dishabed.

Two people were killed by a stroke in Pittsburg Monday.

John McQuiston, a Lawrence county farmer, has a young colt whose head became fastened in a fence a few days ago in such a peculiar way that his ears prevented its release. The colt's dam, a very sagacious animal, coolly bit the ears off and hence, the colt is now a headless wonder.

A Meadville resident is the only man who has yet come forward with an original suggestion worthy of note for the world's fair in Chicago. His device, if practicable, will be both pleasure giving and money making. He wants a mammoth building, 500 feet high, erected to be operated by electricity. It will support a hand-some car which will carry 50 persons. According to the designer's calculation, the car will swing a distance of 1,250 feet. At the extremity of each swing, it will lift the passenger a height of 400 feet, affording them a flash view of the exposition, the city, surrounding country and lake. Midway in its flight the car will travel swifter than a bird and faster than a mile a minute. It will be so stupendous in its construction that it will be dubbed the eighth wonder of the world.

Black mildew has attacked Berks county wheat fields.

Two jurors in the Garrison murder case at Wheeling, O., have been arrested for perjury, and a new trial for Garrison will be held.

While a small circus was showing in Linesville, Crawford county, a thimble game expert worked the assembled wisdom of the town for upwards of \$400.

In the case of Com. vs. Geo. M. Wing, Chester, of Titusville, indicted for the killing of a young boy with a spring gun, which defendant had set in his store to catch a burglar, the jury brought a verdict of not guilty, and county to pay the costs. The jury were out six hours. Two other men, Thompson and Gilbert, were indicted with Winchester on the same charge.

A wall dressed, long-tongued stranger, has duped 75 Bucks county farmers to the extent of \$5,000. He could talk Pennsylvania Dutch like a native, and persuaded the farmers that every one who purchased a ticket of the lottery corporation he represented would draw a wagon, watch, a piano, or a money prize. He charged his victims out of sums from \$10 to \$100.

The verdict in a case tried in court at Mercer Pa., a couple of weeks ago is a warning to careless supervisors and township authorities. It was the case of Wm. M. Sargent vs. Fairview township, brought to recover damages for loss of a horse, caught by a washout in a township road. The plaintiff proved that the road had been left by the authorities in an unsafe condition for 40 days or more, and that he had used age diligence in handling his horse. The jury took 24 hours to weigh the evidence, and several times wanted to give it up without a decision but the court told them it was a plain case and that under their oaths he didn't think it reasonable they should sit in town. A verdict was finally rendered for the entire claim, \$117.50, and interest, in all amounting to \$121.88. As the costs in the case are considerable more, it is probable Fairview township would have found it considerably cheaper to have repaired the washout more promptly.—Connellsville Courier.

EVERY Church, says Harper's Weekly, may prescribe its own creed and observance. But when its most pious and scholarly members challenge certain interpretations of belief and forms, the challenge is not susceptible of summary settlement. From the nature of the human mind, the constant progress in the interpretation of spiritual truth, and one of the most interesting distinctions of this century is the great change in the spirit of Biblical criticism. In dealing with the subjects of the Bible, the modern scholar is not content to accept the traditional and fixed definitions and dogmas. The literal and materialistic Christianity of the eighteenth century has given place to the more spiritual faith of the nineteenth.

West Sunbury Items.

Brides and grooms are all the style in Sunbury. The contagion of matrimony has struck this locality in its most malignant form. We are afraid ere it is all over there will not be left a single man or woman in the town who is not married.

The new gas company has its pipe laid up to town and through the principal streets. In a few days they will be able to supply the people with convenient and cheap fuel.

The prospects for the Normal Term are good. At an early hour the hall was crowded, and dozens were turned away, there being no room to admit them. The large lecture room was crowded Sunday night, to hear Rev. McConkey preach the baculae laetare sermon.

Monday evening was Class Night. The hall was crowded, and dozens were turned away, there being no room to admit them. The large lecture room was crowded Sunday night, to hear Rev. McConkey preach the baculae laetare sermon.
