A new tree-destroying insect, known as the gypsy moth, has made its appearance in this section, and hundreds of them can be found on maple trees of which they seem to be particularly fond. Upon an examination of the full fledged ones through a microscope they present the appearance of tiny dots. They cluster around the limbs of the tree and work their way through the bark, not stopping there but going deep into the solid wood, which kills the tree.—McKean County Miner.

A city mother sent her small boy into the country, and after a week of anxiety received the following reassuring letter: "I got here all right and forgot to write before. It is a very nice place to have fun. A fellow and I went in a boat and the boat tipped over and a man got me out and I was so full of water that I didn't know nothing for a good long while. The other boy has to be buried when they find him. His mother came from Lincoln and she cried all the time. A hose kicked me over and I have got to have some money to pay the doctor for his'n my head. We are going to set an old man on fire to-night and we'll have a party. I have had a lot of fun. I lost my watch and I am very sorry, and I shall bring home some mud turtles, and I can get 'em in my trunk."

County Superintendent McCollough has fixed the County Institute for the week beginning Dec. 5th. This is two weeks earlier than usual, and he is of opinion that the Institute should be held at the beginning of instead of the middle of the term, for the reason that teachers would then have an opportunity to use any new ideas obtained and methods learned at the institute for the entire term instead of a part of it. Deputy Superintendent Honk, one of the most interesting instructors in the State will be here the entire week, and will lecture Tuesday evening on "The New things in Education." The other instructors will be Dr. Winship of Boston, Prof. Murphy of Slipperyrock, and Prof. Russell of New York. A new feature of the institute this year will be that one half of the teachers themselves.
