LEGAL NEWS.

Attended Burglary at Buttercup.  
Late Wednesday night three men attempted to gain an entrance into the store of Robert Henry at Buttercup. Henry was awakened by the noise they made, and he fired at one of them as he was coming through the window feet first. The men ran off, but when they reached Ed Brackney's house, a few rods down the road, one of them fell, and called for help. Brackney helped him into the house and sent for Henry who recognized the wounded man as one of three who were in his store the previous Saturday. Physicians were called and the ball was probed for, but could not be found. It entered the man's back and seemed to have run around the skin and into his bowels. He was brought to town Thursday morning and is now in jail. Henry gave his name as James Cunningham, but he resembles a man who was in town Saturday and gave his name as Wiles.

A solicitor recently walked into a certain business house on his rounds, to whom he desired anything in the way of advertisements and noticed a drummer stood by the counter with his sample valise ready to open. "Anything you want to say in the paper this week?" said the solicitor to the business man behind the counter. "No," said the business man, "I don't believe in advertising." "I am not here to sell you anything," said the solicitor, "I am here to see if you will be half way to the door, then slowly taking up his sample valise remarked: "Well, that lets me out. I do not care to sell on time to any man who, at this age, does not believe in advertising. I prefer to deal with live men. When I'll go to the gray yard and swap business. Good day."

It may be as old as hills, but it is going the rounds of the newspapers again and may be new to many readers. It is a paragraph showing how to tell whether a person was born in the day or whether a person was born in the night. The instructions are to clap the hands, interlacing the fingers. In doing this some people will bring the right thumb over the left, and others will reverse the operation, but the same person always does it the same way and cannot understand how anybody else could do it any other way. It will be found that the person who puts the left thumb on the top was born in the day and the left foot may depend upon it. This is the night. It is a curious experiment and worth trying. Probably some exceptions may be found to the rule, but it is believed it will hold good in the majority of cases. No explanation has ever been given.

Half Rates and Fast Trains to Chicago Fair via Pennsylvania Railroad.  
The popular excursions to Chicago which are being run by the Pennsylvania Railroad seem to furnish the greatest pleasure to the people. The first two trains were well patronized, and as the vacation season is well advanced, the remaining excursions will undoubtedly attract a much larger number of passengers.

A decided improvement has been made in the passenger in Chicago at an early hour the following afternoon, and the special train arrived on an equality in the matter of speed with the best express trains.  
The special train also carries the special coaches for which the Pennsylvania Railroad is famous, and only one night is passed on the road, and the arrival in Chicago is so timed as to give abundant opportunity for engaging quarters before nightfall.

The dates of the next excursions are August 23d, 24th, 25th, 26th, 27th, 28th, 29th, 30th, and 31st. The special train will leave Washington 10:15 a. m., Baltimore 11:30 a. m., stopping at New York, Jersey City, Trenton, Philadelphia, and Harrisburg, and arriving in Chicago after 7 in the evening. The excursion rate good only one month, and is valid for return within ten days, is \$17 from Washington and Baltimore, and proportionately less for other stations.  
This arrangement also applies to all principal stations on the Baltimore and Potomac Railroad, and the Pennsylvania Railroad between Baltimore and Elmira, Philadelphia and Erie Railroad between Williamsport and Elmira, and principal stations on the main line and branches between Harrisburg and Pittsburgh.

No one should fail to visit the Fair with such facilities at hand.

The winners will be published in all the papers, and will have reason to feel proud of their success, as the contest will be fair and spirited.  
Though we do say that Snow Drift is the best BREAD FLOUR IN BUTLER TO DAY, we are aware that some people do not get good bread the first time they take it. There is a reason for this. If you have been using some of the Flour shipped into Butler, the greater part of which is spring wheat, you will find a difference when you handle Snow Drift which is winter wheat. Snow Drift will require a stiffer dough, and perhaps a longer kneading when you knead it for the oven. A lady in the office today said that she had never before "kneaded" her dough so stiff, and I just have to say to you, "I would not hesitate to get my bread before anybody." This is a matter of hundreds, so don't be afraid to try your first failure. Snow Drift makes the sweetest bread, the most wholesome, the most nutritious, and keeps its moisture for a week. Remember, Snow Drift is made of winter wheat.  
NEW TIMOTHY SEED ARRIVED.  
We also carry other seeds. The price to "cash" customers for cleaned, prime, new timothy is \$1.85 per bushel of 45 bushels net cwt. All other seed in this market is old seed. You run no risk in buying our goods. We carry nothing in stock but what we can recommend.
