JUST A WORD OR TWO.

We want to talk with you a few minutes—You know us but do you know there are hundreds of people in Butler, Co. who do not know we are in Butler, it they did we would have to enlarge our store to let the crowd in. Why what do you think. Nearly one half the people who come into our store didn't know we made harness. We have been running that part of our business for two years with a capacity of 10 sets per day, but we are glad to know they are pleased to find out as it saves them money and will save you money if you mind it. However we did not intend talking about harness more than to say that we make all kinds of harness and parts of harness at less than factory price. It was surries and buggies we wanted to tell you about. We have a larger stock than we have had at any time for fifteen years. We haven't a last year surry in the house. Don't buy old stock, they are old style, and every year grow more so. Buy the latest design and be in fashion especially when you can buy them for less money than others charge for old style work, as for the price, whoever heard of anyone paying too much for anything bought here. We haven't in our employ a salesman with whom we would be afraid to send \$10,000 to Europe, when you deal here you know you are dealing with a reliable firm and you know just what you are getting, and also know the price is lower than you could get any where. Come and see us and have the satisfaction of knowing you have been in the largest store of the kind in the state.

A Fine Combination

The cut in price is represented by the shows. The method of our business is represented by the square and the ability to please is represented by the tape line. It makes a fine combination, for we are offering spring suits.

Don't Hang Up Your Old Clothes for the summer until you have made arrangements for a spring suit. We are offering such a fine line of goods and giving our people such an opportunity to get bargains that it is foolish to delay. There never was a time when such a fine assortment of first class goods could be seen at our store this season. We are offering suits at prices unheard of before.

Hanging out for the benefit of those who are after bargains. There is no doubt that we are offering better inducements to-day than ever before and we hope all our patrons will take the advantage of the opportunity we are giving them of buying first class clothing at a figure which will please them doubly—first with the clothes, and second with the prices and it.

CALLING THE STATIONS.

Little Mistakes That Sometimes Occur in the Present Recession.

"Occasionally," said a man, "one hears a guard on the elevated road call the next station back instead of the one ahead. Coming down on the Sixty-second road, for instance, he might, on leaving Grand street, look in and say, 'The next station is Bloeker street,' when he meant Franklin. Still, the chances are not nearly so often as one might think it would be, by men calling the stations over and over again all day long. To be sure it might seem that the names would be by frequent repetition so deeply graven on their memory that there would be the less danger of calling them wrong, but what I suppose is this—that sometimes the mind unconsciously switches over, and the guard calls from the up list instead of the down, or vice versa.

"Sometimes when a guard miscalls a station he lets it go—perhaps he doesn't think of it himself. Sometimes he corrects in a mild tone of voice, as though the least said is soonest mended, and sometimes he straightens clearly and unmistakably. I rode up today on the day on a Sixth Avenue Harlem train with a guard who, as the train left Grand street and looked in and said, 'Fiftieth next, Fifty-eighth street next, change there for Harlem.' But the next minute he looked in again and said, with equal if not greater satisfaction and deliberation, 'Fiftieth next, Harlem train, change there for Fifty-eighth street.'

"Here was a case that was a little different: A newsman who got off at Sixth Avenue train with a bundle of papers at Fifty-third street handed a paper to a 'Handed and taken in and said, 'Fiftieth next, Fifty-eighth street next, but this was so far off that it really needed no correction, and very reasonably the guard let it go at that, but a moment later he closed the door."—New York Sun.

THE OLD MAN.

Its Significance as Applied to the Head of the Business House.

Were I the head of a large concern or the responsible executive officer of a great corporation, whether my age were 27 or 72, I should want all of my employees or subordinates to call me "The Old Man." Not, of course, to my face or when they were addressing me, but among themselves or when they spoke of me to their friends.

"His Majesty," "His Royal Highness," "His Excellency" and the like all indicate that the persons to whom they are applied possess power, but in this commercially democratic age and in the country the one appellation of undisputed authority is "The Old Man."

Applied to the head of a concern it frequently indicates long, generous and successful experience, and a position of authority. It is as free from any suggestion of age as it is "reverend." It is never given when there is a question of authority or a smoldering rebellion against it.

When "The Old Man" says a thing, that settles it; there are no questions to be asked; there is no comment to be made. When "The Old Man" does something, or fails to do something, there is no criticism to be indulged in.

"The Old Man" is the one person about the establishment who is absolutely his own master, whose coming in and going out are unhampered, whose encouraging words carry real weight, and whose reprimand indicates real danger, and whose "sit" is a right and not a courtesy.

Long live "The Old Man!" And when, through his last closed private office door, he hears the boys term him thus kindly, let him congratulate himself that he really is the "Old Man" that he has attained the name of dignity.—Truth.

THE SHIP'S TREASURES.

Of all the treasures of the world the largest treasure in jewels and gold ornaments, is being valued at \$60,000,000. The chief object of value is the old crown of Persia, which is valued at \$10,000,000. It is the crown of a king who died a poor man, but whose treasure was hidden in a pot of flowers, which is surmounted by an uncured bird's nest.

The diamonds in another symbol of his rank are said to weigh about 100 carats. There is also a jeweled sash, valued at \$1,000,000. Another thing that the shah prizes is a silver vase ornamented with precious stones, which is valued at \$500,000. It is not to be found in the world. In the collection there is a cube of amber which tradition says fell from heaven in the days of Mohammed and insures the possessor against bad luck.

The wasp's nest is constructed of a first class article of paper made arranged from the pulp of wood, with an annual glue specially prepared by the wasps for the purpose.

What you keep by you may change and mead, but words once spoken can never be recalled.—Rossmore.

Climax Brandy of Grape.

The superior vintage of 1876 Brandy, introduced by Speer & J. Wine Co., is highly spoken of by physicians. The following testimony from the Baltimore Medical College is one among many: "I am prepared to bear testimony to the value of your Climax Brandy predicated upon the ascertained value of your products, and not from general reputation merely."

Quick in action, heals and leaves no scars. It is the best remedy for skin eruptions, such as the Dr. Witt's Witch Hazel Salve. Applied to burns, scalds, old sores, it is magical in effect. Always cures piles. J. C. Redick.

THE SHIP'S TREASURES.

Of all the treasures of the world the largest treasure in jewels and gold ornaments, is being valued at \$60,000,000. The chief object of value is the old crown of Persia, which is valued at \$10,000,000. It is the crown of a king who died a poor man, but whose treasure was hidden in a pot of flowers, which is surmounted by an uncured bird's nest.

The diamonds in another symbol of his rank are said to weigh about 100 carats. There is also a jeweled sash, valued at \$1,000,000. Another thing that the shah prizes is a silver vase ornamented with precious stones, which is valued at \$500,000. It is not to be found in the world. In the collection there is a cube of amber which tradition says fell from heaven in the days of Mohammed and insures the possessor against bad luck.

The wasp's nest is constructed of a first class article of paper made arranged from the pulp of wood, with an annual glue specially prepared by the wasps for the purpose.
