Two Baltimore men went to jail for bringing home the bacon. They stole a truckload.

A man seldom stops to ask himself whether he is on the right side if it is paying dividends.

If people were as bad as some people think there would be a big shortage of angels in heaven.

Among delinquent taxpayers are many who have not the money and know not where to get it.

Just a Word to Mothers

I would like to tell the mother just what the Church School Service is. First, it is interdenominational. Some children have been deprived of the opportunity and training because of the lack of information as to what it is, and what it does.

The Church School Service League is a national organization, which teaches the children to do missionary work. They are instructed how to make various objects, such as mats and paper chains, for the little tots—the larger girls make rag dolls, bunny rabbits, etc., while the boys make wooden toys.

Since we lack this training in our public schools, I consider it a rare privilege that our children have such an opportunity as this.

These toys, dolls, etc., made by the children, are given to the poor, in and around Union at Christmas time.

The ages are from three years to 18—the dues are five cents per year.

Mothers, let's show our appreciation by sending our children to the Parish House each Wednesday afternoon at four o'clock. Then, mothers, let's some of us volunteer our services to assist as instructors, as it is our children who are deriving the benefits.

Will you help us carry on this work? A Mother.

Mortality from Cancer, 1921

Washington, Nov. 16.—The Department of Commerce announces that the returns compiled by the Bureau of the Census show that over 76,000 deaths were due to cancer in the death registration area of the United States in 1921, and assuming that the rest of the United States had as many deaths from this cause in proportion to the population, the total number of deaths from cancer in the entire United States for 1921 was 93,000, while for 1920 the number is estimated as 89,000 or 4,000 less than for 1921.

The trend of the cancer death rate is upward, the rate for 1921 being higher than that for any earlier year in 23 of the 34 states for which rates are shown. The cancer death rate in the registration area in 1921 was 87 per 100,000 population, against 83.4 for 1920. In comparing the death rate from cancer in one state with that in another, the bureau uses "adjusted" rates in order to make allowance for differences in the age and the sex-distribution of the population because generally speaking, only persons in middle life and old age have cancer so that a state with many old persons may be expected to have more deaths from cancer than a state with comparatively few old persons.

The highest "adjusted" cancer rate for 1921 is 99.6 per 100,000 population for the state of Massachusetts, and the lowest is 47.6 for the state of South Carolina.

For a few states adjusted rates have been calculated separately for the white and colored population. In this group of states the highest adjusted cancer rate for the white population is 95.9 per 100,000 population for New York and the highest rate for the colored population is 90.6 also for New York. The lowest adjusted cancer rate for the white population is 51.5 for Tennessee and the lowest for the colored population is 36.4 for Florida.

"Fit Where Others Fail"

Queen Quality SHOES

Famous for Style and Comfort

Every pair of QUEEN QUALITY shoes is the work of skilled craftsmen, blended with the experience of specialists in fitting and authorities in style. And the trade mark on the sole is the evidence worth seeking when you want un-failing fit and and faultless style in footwear.

Notice of Final Discharge
State of South Carolina,
County of Union.

Court of Probate.
Notice is hereby given that on the 20th day of December, 1922, at 11 o'clock, a. m., in the Court of Probate for said county, the undersigned will make his final settlement as guardian of the Estate of Davis C. McDaniel, and that thereupon he will apply to the Judge of said Court, for his final discharge as such guardian.
D. J. Gregory.

This 18th day of November, 1922.
Published in The Union Times for 80 days.
11-21-28; 12-5-12

Important Notice

Two weeks ago report blanks were mailed to the ladies who are members of the home demonstration clubs of Union county with self-addressed envelopes enclosed for the return of said reports. So far, about two-thirds have reported. On December 1 every county in this state and practically in the United States is expected to send a report to Washington, D. C. Unless every lady does her part, how could she expect her county to compare favorably with other counties having 100 per cent reporting. Each of you have done the work, so please take time to record it, and let Union county be at the top of the list, in her accustomed place.

Next week a list of the clubs, with the number of members enrolled and number of members reporting will be published in both county papers, so please make it your business to see that your club heads the list with 100 per cent reporting.

Mahala J. Smith,

Love of Forests Preserves

German Woodlands
Suhl, Thuringia, Nov. 20.—One of the anomalies of German economics appears in a recent action of the Suhl authorities pledging the community forest as security for a loan which is to be used in providing the poor with firewood.

Admiration for the beauty of the home woodland is believed to have influenced the community's decision to seek its necessary fuel elsewhere.
