THE GAZETTE has for eight years been a willing and liberal worker in behalf of Texas, and now when the people of the state seem to have turned to the necessity of effort and to the benefit to accrue from a truthful and comprehensive representation of its resources and progress in agriculture, stock raising, mining, manufacturing, education, religion, etc., to the people of other states,

The Gazette Makes This Proposition:

From and after this date every subscription made to the WEEKLY GAZETTE for one year, another subscription to the WEEKLY GAZETTE for one year, and two subscriptions to the WEEKLY GAZETTE for six months, will be donated by THE GAZETTE and entered on our ledger provided such donated subscriptions are sent to parties outside the state of Texas, and provided the subscriber sends us the name, for one year, or two names for six months, to whom he wishes the WEEKLY GAZETTE sent or to the state. SPECIAL NOTICE

Many subscribers ignore the stipulation that the above offer dates from January 11 only, and does not apply to subscriptions received prior to that date. THE GAZETTE could not ante-date its offer for one subscriber without doing so for all of those who subscribed prior to the 11th day of January, 1901; and to apply this offer to all who were subscribers to THE GAZETTE on the 11th day of January would cost THE GAZETTE more than it could afford to do, even for Texas.

NO MAN NEEDED. What Two Missouri Girls Do in the Way of Fainting—No Men About at Any Season. Special to the Gazette. ADRIAN, MO., Oct. 13.—Kansas is not the only state which can show woman's ability to care for herself, for there is a farm near this place where two unmarried women carry on the whole business of the place and have no men about at any season of the year. Miss Sallie and Miss Polly Brundage have a forty-acre farm about ten miles west of this place, and they have been carrying it for the past nine years, and during that time they have never had the assistance of a man. All the work has been done by the two women, with the exception of having another woman to help them during the time they were gathering their corn. They raise no wheat or other small grain, but have an orchard and corn field, which they devote most of their attention to raising chickens and bees. They plant thirty acres of corn every year and attend to it entirely, doing the plowing and gathering.

Miss Sallie is the business man of the place and while attending to the work in the field always wears the clothing of a man. She drives to town as often as man's clothing is in that of a woman and has no hesitancy in saying that some day she will entirely discard dresses. This year the two ladies have a crop of corn which will amount to about twenty tons. In addition to this they have over a thousand chickens and a large number of turkeys and ducks, which they think will clear them for the year in the work, with five thousand dollars. The ladies keep up with the times and take several agricultural papers as well as one daily, and are probably better informed on current events than most of their neighbors, by whom they are held in high esteem. The ladies are both past forty years of age and are looked upon as being wealthy, for they have the best improved farm in the country, with fine stock and good improvements. They broke the prairie and fenced the place, the only help they had being the carpenters who built the house in their nine years ago. Miss Polly has been elected school director and

Special to the Gazette. WORTHAM, FREESTONE COUNTY, TEX., Oct. 12.—This morning at an early hour a messenger came in town for Justice Saylor to repair to the farm of Mr. Carleton, located about six miles southeast of here, for the purpose of holding an inquest over the body of one Henry Carleton, colored, who was a tenant on Mr. Carleton's farm. The lamentable feature involved is that it developed upon Mr. Carleton, one of our most prominent citizens, that he had been thrown down to mother earth with a load of buckshot from his gun while the brute was in the act of striking Mr. Carleton with the blade of an axe.

Only Temporarily Insane. CORNICANA, NAVARRO COUNTY, TEX., Oct. 12.—This morning at an early hour a messenger came in town for Justice Saylor to repair to the farm of Mr. Carleton, located about six miles southeast of here, for the purpose of holding an inquest over the body of one Henry Carleton, colored, who was a tenant on Mr. Carleton's farm. The recent rains have made the grass spring up on the prairies, for which the stockman are thankful.—[Belleville Standard.]

Since the late rains, grass is springing up and everything has the appearance of spring.—[Shiner Courier.]

Pecans are ripening fast, and as the crop is a bountiful one, a great many of the cotton pickers will leave the free staple to run and gather pecans.—[Richmond Journal.]

The recent heavy rains in this section have done an immense amount of good to cotton. Farmers who have heretofore complained of only a half crop can now smile with great satisfaction.—[Youkuam Graphic.]

The first greens of the season were sold on our streets Wednesday. They were fair samples. The crop this year will hardly be as large as that of last year, but will be a very good average crop.—[Wharton Spectator.]

Cotton is producing more to the acre than it was thought it would at the opening of the season.

A heavy frost visited us Wednesday night, and Thursday morning early risers saw the first frost of the season.—[Sulphur Springs Gazette.]

ROCKDALE, MILAM COUNTY, Oct. 12.—Cotton receipts to date, 9000 bales; in stock, 3000.

LEWISTON, DENTON COUNTY, Oct. 12.—The cotton yield in this section will far surpass the expectations of August. The rains are going on full time, and at this place probably turned out more bales than the entire crop of last year. Wheat planting is now commencing, and there will be a good average of grain. The weather is fine, and the owners seem for good.

CORNICANA, NAVARRO COUNTY, Oct. 12.—The complex of this season pressed 18,000 bales of cotton. Eleven thousand bales of cotton have been received here to date this season.

QUANAH, HARDEMAN COUNTY, Oct. 12.—The cotton yield in this section for the next season will be increased 25 per cent over that of last year. Farmers are busy plowing and seeding, and recent rains give prospect of a better season. East of Chillicothe the rains of any account have fallen. West to Texline copious rains have allowed farmers to plow and seed in safety.

TEXAS SCHOOLS AND CHURCHES.

The excavation for the underground basement of the new Black Front store is about completed, and the work of building will shortly begin.—[Dallas Chronicle.]

Clifford & Harmon are drawing the plans and specifications for the Methodist church, the dimensions of which will be thirty-six feet front and fifty-five feet long, with a height of twenty feet. The church will have a seating capacity of about 300. These gentlemen are pushing the work on the Presbyterian church so as to complete it as soon as possible. The bell for this church will weigh about eight hundred pounds.—[Quinta Times.]

COTulla, LASALLE COUNTY, Oct. 12.—Evangelist W. A. Jarrel, D. D. of Dallas last night at the Baptist church, closed an eight-day meeting of wonderful power, the greatest Cotulla has experienced for many years, in which there were about thirty professions, greatly strengthening the different churches, and of great value to the town. He is to return to visit his family a few days, and Sunday next is to begin another meeting at Sweetwater.

LINDSEY, CASS COUNTY, Oct. 12.—The board of examiners for this county, Professors Wycliffe Owens and Queen C. G. W. Florence of Marietta and W. G. Horsley of this place, convened here Thursday, Friday and Saturday. There were fifty-five applicants for admission to the law, whites and negroes. After two and one-half days' tedious work the result showed the following: Eleven received their law degrees, twenty-five received second-grade certificates and five received third-grade certificates. Sixteen failed by the wayside. Among the immortal sixteen were two white men and fourteen negroes, male and female, some of whom had heretofore held first-grade certificates, drawing \$10 per month.

BRVILLE, BEE COUNTY, Oct. 12.—Elders Granville Jones and E. M. Douthett, Christian evangelists, recently held a meeting in Brville, continuing seventeen days. They occupied the courthouse until district court opened, then used the Methodist church. Notwithstanding heavy rains and muddy streets the meetings to the well attended and resulted in thirty-four additions to the church, eighteen by baptism. Elder Jones speaks in the highest terms of his recent here, and is assisted by the ministers of the other churches and kindly treated by the people.

The long ward to the south is being surrounded by a gallery with roof and other changes are to be made in the new wing. The new district is also being dug.—[Temple Saturday Sun.]

The Memphis Journal says John R. and Byron Jones have let the contract for a large business house, which will be occupied as a wholesale grocery house. J. A. Knight is the architect. The building is on the east side of the square. L. A. and C. R. Brice have commenced a beautiful residence.

BRVILLE, BEE COUNTY, Oct. 12.—Our commissioners' court erected a fine iron bridge 300 feet in length across the Medina creek, on the Refugio road, in Bee county. This road led over rich prairies which were inclosed in large pastures, and but few farmers could be induced to improve the completion of the bridge, said it was built to assist in developing the country and to change the large pastures into farms and ranches, and besides, the bridge built but a short time when David Switch-himer, a successful Colorado miner, came along prospecting, and purchased a pasture containing 30,000 acres from T. D. Wood of Victoria, which crosses the road near the bridge, and has it surveyed into eighty-acre farm lots and has sold numbers of them to actual settlers, who are now improving and will improve them this winter.

Delight Following by Termot. What man or woman will deny that a good dinner is a present delight? Equally undeniable is it that a well cooked meal is preceded by a good digestion, and is converted into mere food. Don't change your dyspepsia to your dinner. No matter how your gastric department was out of order to begin with. Had you regulated with Hostetter's Stomach Bitters, the very fact that you took on board would have been comfortably stowed away without the slightest inconvenience.

This incomparable stomachic entirely restores faulty digestion, and besides, it acts harmoniously with the digestive organs, and in all cases of indigestion, flatulency, biliousness, and rheumatic complaints, and in all cases of malaria. As a tonic, appetizer and promoter of convalescence it is unequalled.
