weekly review of trade tomorrow will say: Whether the new year will surpass or keer gives especial interest to every week's re turns. Comparing now with business by far the largest and most prosperous ever known a year age, more than 40 per cent larger then in January, 1895, which in its turn had shown heavier business than in any year preceding, it can not be expected that such a gain will be repeated. But the decrease BEANS-California stock: Navy 34,5346: a gain will be repeated. But the decreases

level than at any time since the early autumn. Supplies of funds available for the purpose of Wall street are increased and inders show a disposition to put out their money on time at about 5 to 35 per cent, but are also much less critical as to the character and quality of collareral offered. The general casing off of rates for money in the London and continental markets has also relieved the situation here by remeving the matter of simulation here by remeving the matter of infinity which are mainly responsible for the discremination of the speculative markets in December have undergone a decided change for the better. Nevertheless the ability to carry stocks once more on comparatively casy terms has not had its expected effect in reciving speculative interests. It seems that it is street and the public have come to the conclusion that should the Boers inflict any further serious defeat on the British army it will be followed by a severe disturbance in values, at London and on the continent, while developments calculated to sneourage a belief in the early termination of the South African troubles might came an advance, or at any rate afford a hadis on which large interests would feel it was safe to work as tively for higher prices.
