A 4 to 5-point decide was expending miles of the accumulation of scattered long contracts with some renewed pressure of liquidation and small support from new buyers, caused periods of weakness that were not easily recovered.

It can not be said that any change appeared upon the surface of the technical facts. The figures of the moremulation point without recovery until the closing moments, when bottom prices were almost reached the remote, period to the control of the summer facts. The figures of the moremulation was small as they have been in days not cannot be some lively scene for the summer mouths. These condiderations did not therefore, and it was only by a strain of the realitying forces that a large dent was not left upon the value scale. It is also to be noted that options on the new crop farel more like those on the eld than has beered for the trade for the recovery may be counted entirely satisface for the same time of large were any doubt in the mind of the trade for the real points as the point of the reality of the point of the more like those on the old than has heretafore been the case. Developments about
the crop may be counted entirely satisfactory thus far in the season, and if there
were any doubt in the mind of the trade
that a big yield would find ample consumption if normal conditions prevail, these options might show the fendency of a snowball in August. But such is not the case,

Reading, Which Is the Index of the Anthracite Situation, Was Lifted a Shade Higher.

New York, May 7 .- Today's stock market made an unavailing effort to contest the downward tendency. After yesterday's revulsion from the semi-demoralization on Monday came reactionary tendencles, which were not cal, to restore the normal balance of things, but this tendency was reinforced by the decidedly skeptical sentiment over the prophecies concerning the authracite labor scttlement. These prophecies continued very confident from sources with every means of authentic information, The overthrow of both bulls and bears list stood unchanged to 2 points down. | but the flat contradiction of the rumors re-New Orleans started 2 to 3 lower on near ceived from Scranton, where the miners

considered discouraging. United States Steel stocks did not escape the depression, notwithstanding the extraordinary exhibition of lust year's transactions by the company. The money market was easier today, the maximum loaning rate resching 15 per cent, but the decline in the foreign exchange rate ceased in response to casier money and discussion was renewed of gold exports. Cryent receipts of Louisville and Nashville stock from fereign holders are very large and report requirements for foreign payments.

There are reports of large loans during the week made in the stock market for account of outside institutions. But it is worthy of notice that \$500,000 in currency has gone to New Crickum this week, and New York exchange at Chicago ruled today at 20c discount.

discount.

Notwithstanding the relief afforded by the purring of unhealthy spets in the market, there is still some tendency to a vagut feeling that there may be some inflation still beyond the curbstone hubbles which cellapsed last wick. A symptom of this feeling is found in a revival of discussion of some restriction on the leading powers of trust companies and additional requirements by them for maintenance of cash reserve. The tone of the bond market weakened in sympathy with stocks.

### TRADES WERE MADE ON THE WEATHER MAP.

Cessation of Rains Obscured All Other

There was a fair show of strength in wheat at the outset on the influence of yesterday's cash business and more rains last night in the overwet Northwest. Traders seem changed their stand, however, on late reports of seasonable weather. The weather southwest, and, what was still more important, an end to the wet weather resouthwest and, what was still more important, an end to the wet weather in the Northwesters were weaker. The weak not very heavy and the market carely was not very heavy and the market showed a dragging disposition most of the time. July 1431's to a shade up at 1532 to 30 to 100 to 10 Corn started with a good show of strength on firm enhies and a favorable cash situation. The leading bull crewd also was baying some July and selling September. The strength, however, was short-lived, for when when the holds began to consider the favorable crop reports and reduced their support. Bears jumped into the market and sold short and broke prices over a cent. Trade was not large and the greater part of the session the market dragged. July bull manipulation was still talked of, but inasmuch as the supposed manipulators did not hold prices up, many lost faith in the bull situation. July sold from 62½ down to 60% and closed weak, 1½ lower at 60%. Receipts were sevent five cars.

## QUARANTINE CATTLE RECEIPTS

LARGEST NUMBER OF CARS RECEIVED FROM TEXAS.

Movement Thus Far in the Year to St. Louis Division Shows Increase Over Last Year.

The Live Stock Reporter says:

From January 1 up to and including the week ending May 3, the total receipts of cattle in the quarantine division at St. Louis amounted to 6291 cars, as against 4071 cars received during the corresponding period of 1991, a good balance in favor of the present year. The comparison shows that the greatest number of cars came from Texas, with Arkapsas next and the following sales of Texas and Territory cattle were made today: D. R. Fant, San Antenio, Texas, 1088 pound bulls 3 10, J. M. Chittim, Houston, Texas, 967 pound steers 4.00, J. M. Chittim, Houston, Texas, 967 pound steers 4.00, J. M. Chittim, Houston, Texas, 1080 pound steers 4.00, J. M. Chittim, Houston, Texas, 1080 pound steers 4.00, J. M. Chittim, Houston, Texas, 1080 pound steers 5.25, 847 pound steers 5.40, 999 pound steers 5.25, 847 pound steers 5.00. Four hundred rexans sold; market strong and 10c higher.
