STATE BRAND FOR DAIRY PRODUCTS

Address by State Commissioner of Agriculture E. S. Brigham Before Vermont Dairymen.

(Special to The Reformer.) BURLINGTON, Jan. 13. Commissioner of Agriculture E. S. Brigham of St. Albans delivered the following address before the Vermont Dairymen's association here today: "The dairy cows of Vermont earn each year from \$15,000,000 to \$20,000,000 and the money is distributed so that all classes of people are benefited thereby. "While we may wish to develop other lines of agricultural activity it is highly important that the dairy industry be encouraged because it enables us to keep up the fertility of our farms, to obtain profit from our rough pasture lands, and to provide productive employment during the winter months. "The four milk hearings recently held in co-operation with the Boston chamber of commerce show that our farmers feel that prices are too low to afford a reasonable profit above cost of production. We should not think of going out of the dairy business for this reason, but we should take such wise and concerted action as will make conditions better. "We may better conditions by decreasing the cost of production and should look to the state agricultural college and experiment station to show us how to do this. "We may also make dairymen more profitable by improving marketing conditions. "The shipment of milk to large cities and its distribution is a complicated problem, and while the Boston chamber of commerce and the New England Milk Producers' association may be able to assist us in getting a better price for milk, yet the price will probably be governed by supply and demand and contractors will buy milk as cheaply as farmers are willing to sell it. "For the purpose of giving the milk contractors more competition and putting the farmers in position where they can have a voice in the price they will take for milk, our creameries should be developed and strengthened, more butter made and the skim milk be used for groves and pigs. "Our creameries may be developed by improving the quality of butter made and finding a market for that butter which will pay the highest price. It is said that the quality of Vermont butter has deteriorated under the present system of using farm separators. There is no doubt but that carelessness in handling cream results in a loss to Vermont farmers annually of a sum which would make the increase in state expense seem insignificant in comparison. At very little expense of time and money this could be obviated, but farmers say that it does not pay them because under the present system of creamery manufacturing, good cream and poor cream are mixed together and bring the same price. "We can only improve conditions by devising a system whereby those who participate in the production and manufacture of butter, both farmers and manufacturers, may receive a reward for careful work. As a solution of this problem we should adopt a brand, safeguarded by legislation and bearing the seal of the state of Vermont, which creameries complying with regulations prescribed by the commissioner of agriculture will be allowed to use. "Denmark and Holland have given their dairy products a world-wide reputation by the adoption of a government brand. In this country the state of Minnesota has adopted a brand and the states of Iowa, South Dakota are about to do so. The requirements for the use of the brand are briefly as follows: 1. Score of butter to be 94 nine times out of 12 of a scoring conducted by the state agricultural college. 2. Score of butter never to be below 93. 3. Factory to score 90 or better. 4. Farm dairies to score 90 points according to score cards provided by the commissioner of agriculture. 5. Cream pasteurized in accordance with directions. 6. Cream received must be sweet and shall not test over 2 per cent acid. 7. Neutralizers not allowed. 8. When license is granted list of patrons must be furnished with address. 9. Factory must report numbers of pounds manufactured each month. 10. Brand to be used only at factory. 11. A representative of the commissioner of agriculture to be allowed access to the creamery at any time for purposes of inspection, supervision of testing of cream or milk samples, or examination of accounts. "The compliance with these requirements by a number of our creameries would raise the quality of Vermont butter to the highest standard, would add to its price in the market and would lead to the development of a healthy competition which milk contractors would have to meet and would, therefore, increase the prosperity of all the dairymen of Vermont."

CONTRACT FOR SUBMARINES.

Seven Ships to Be Built for the United States.

WASHINGTON, Jan. 13. - Contracts have been awarded by the navy department to the Electric Boat company for one sea-going submarine to be built at Quincy, Mass., at \$1,550,000, and for three coast defense submarines, to be built at Seattle, Wash., at \$1,500,000 each, and to the Lake Torpedo Boat company for four submarines to be built at Bridgeport, Conn., at \$1,270,000 each. The award to the Electric Boat company of the contract for three vessels to be constructed by the Seattle Construction and Dock company was in conformity with the law requiring at least three of the submarines to be built on the Pacific coast, provided the extra cost would not exceed that of the transportation of the vessels from the Atlantic to the Pacific. Transportation in this case would have cost \$11,000 for each boat, whereas the cost of construction will be \$20,000 additional each. The big sea-going submarine of 1,000 tons displacement will be twice as fast as any submarine in a foreign navy, though some are now building in Europe of more than 800 tons. This craft will have a radius of action of about 3,000 miles, a surface speed of 20 knots, and submerged speed of 11 knots. By using her storage batteries alone she will travel completely under water for more than a whole day. On her deck will be carried rapid-fire guns designed to be completely enclosed when the vessel dives beneath the surface. A valuable feature will be dirigible torpedo tubes, making it unnecessary to manoeuvre the ship in aim at an enemy and firing continuously to the craft's offensive power. The coast defense submarines are only one-third the size of the big sea-going type, although they themselves are seaworthy for short voyages. These boats will have a steaming radius on the surface of about 1,000 miles.

POPE DEMANDS REPARATION.

Otherwise Arrest of Cardinal Will Be Subject to Public Protest. ROME, Jan. 13. - It is now being asserted that the Vatican is officially asking for an explanation and reparation from Germany for the arrest of Cardinal Mercier and the seizure of a letter from the Pope to the Cardinal. If Germany refuses to accede to these demands the Pope will make a public protest. The action of the German government is now awaited with considerable curiosity.

KILLED AT CROSSING.

Henry Wilcox of Rutland Struck by Boston Flyer Yesterday. RUTLAND, Jan. 13. - Henry W. Wilcox, 72, was struck and killed by the Rutland railroad east bound flyer while he was driving in a wagon across the railroad tracks at the crossing at the intersection of Main and Park streets about 2 o'clock yesterday afternoon. He drove on the crossing without noticing the approaching train and when the whistle shrieked a warning his horse seemed to be paralyzed and stood perfectly still. The engine struck the horse, killing the animal instantly. The force of the blow threw Mr. Wilcox from his seat and he struck on his head on the frozen ground. He was dead when witnesses of the accident picked him up. The ambulance carried the body to the Stearns undertaking rooms. Mr. Wilcox was a native of Stockbridge and was a farmer. A large part of his life. He conducted a livery stable at one time. He leaves his wife and three daughters. Mr. and Mrs. Wilcox celebrated their 50th wedding anniversary in November.

East African Natives Buy Their Wives.

Love plays but a small part in Kikuyu (British East Africa) courtships; if you like the girl, and can pay the price demanded by her parents, you can have her; the lady's feelings are not consulted in the matter. The desire to secure the wherewithal to buy a wife is one of the few things that will induce the East African native to work. - Wide World Magazine.

SUFFRAGISTS LOSE FIGHT IN THE HOUSE

Constitutional Amendment Resolution Debated Ten Hours and Rejected, 174 to 204.

WASHINGTON, Jan. 13. - Women suffrage was discussed from every point of view for more than ten hours in the House yesterday. At the close of the debate the proposed constitutional amendment giving nationwide suffrage to women was rejected by the overwhelming vote of 174 to 204. The suffragists fell 78 men short of the necessary two-thirds vote, with 57 members not voting. This vote, coming so soon after President Wilson's firm statement that the women should carry their fight to the states instead of to Congress, marks the second defeat for the suffrage cause in the national legislature within a year. On March 19 last an equal suffrage constitutional amendment proposed by Senator Chamberlin of Oregon received a vote of 35 to 34 in the Senate securing a bare majority, but failing of the necessary two-thirds. However, the suffrage workers are not disheartened. Dr. Anna Howard Shaw, president of the National Suffrage association, said after the adjournment: "I am not gratified, but the vote was better than I had expected. We now have an alignment from which we can move onward. It is now a political and national question, for Congress would not take up a local or sectional matter this way. It never can be said again that it is a local or partisan question. The national House of Representatives has discussed suffrage and has voted upon it. It would not have done that if it were not a question of national importance. "The vote for our position would have been much larger but for the fact that many Representatives preferred to vote for state rights. Many of them went for suffrage. There were just two arguments against suffrage this afternoon; one constitutional, the other sentimental. It will be one of the leading problems in the next national campaign."

WEST BRATTLEBORO

Mrs. John Wood is ill in bed with an attack of indigestion. Mrs. Guy Tudor, professional nurse, is caring for A. C. Walker, who fell and fractured his hip. Frank Pontonaine, who is ill in the Wesson Memorial hospital in Springfield, Mass., is gaining each day. Mr. and Mrs. Eugene Bloodlet are visiting at the home of their daughter, Mrs. Francis Avery, in Charlestown, Mass. Oscar G. Covey is training a colt for J. D. Herrick of West Chesterfield, N. H., also one for Wilbur Stowe of Wilmington. Walter H. Cheney is working for J. L. Stockwell in the store during the absence of George C. Harris, who is ill at his home with grip. Mr. and Mrs. John L. Barney entertained a few friends at their home Monday at supper. The guests enjoyed cards in the evening. There will be a rehearsal this evening of the play which the young people in town are to give this month, at the home of Mrs. Bert S. Miller. All taking part are requested to be present.

TOWNSHEND.

Farmers' Union Organized. The neighborhood in the little red schoolhouse district near the Wardshoro line is setting a fine example to other rural communities and getting thoroughly in touch with the progressive ideas of the day by the organization recently of a Farmers' Union, the first business meeting of which was held on Saturday evening at the little red schoolhouse, which is the social center and will be the regular meeting place of the society. The following officers were elected: President, E. E. Phillips, sec., Arthur St. Clair, treas., H. A. Foley, committee on literary work, Miss Wilma Foster. Plans were made to have the union meet twice each month. On the first Saturday of the month a business meeting will be held; the alternate meetings will be open meetings. Programs will be given with discussions on farm topics in which all will be expected to join. At the next meeting, Jan. 20, the discussion will be on grains. The program at the recent meeting included songs, recitations and an amusing farce. The union has a membership of about 30, with an attendance of from 40 to 45, including children, 19 families being represented. The whole community is much interested in the success of the organization. Miss Anniebella Montgomery Critchley. Miss Anniebella Montgomery Critchley, who died in the home of her mother, Mrs. Isaac Appleby, Saturday morning, Jan. 9, was born in 1883 in Glasgow, Scotland, and lived in that country until about 18 months ago, when she came to make her home with her mother on account of ill health. Besides her mother and step-father, Mr.

Word to the Wise.

"Do you know, Bill, I nearly lost a sovereign today," said a Londoner to a friend of his the other day. "How was that?" "Well, you see I went to call on a friend of my wife's and he asked me to lend him a sovereign. 'Yes, certainly,' says I, and I brought out a sovereign, but it never got farther than my hand." "How was that?" "Well, you see, one of his daughters commenced to sing 'Kathleen Mavourneen.' " "Well, what has that got to do with lending a sovereign?" "Everything, Bill, for she started like this: 'It may be for years or it may be for ever, so I popped the quid back in my pocket.' - Philadelphia Public Record. The entire London police force consists of 19,000 men.
