BRATTLEBORO, VERMONT, TUESDAY EVENING, NOVEMBER 14, 1916.

TWO CENTS.

## GAIN GROUND ON FIVE-MILE FRONT

### British Still Fighting on Their New Offensive in Northern France

## HAVE CAPTURED BEAUMONT-HAMEL

This Village, North of the Ancre, Is One of the Strongest Points in the German Defensive Line in That Region—Teutons Gain in Rumania.

With important ground on a five-mile front already won from the Germans on the northern edge of the Somme region and across the Ancre brook in northern France the British are fighting on in their new offensive. Already they have taken more than 4,000 prisoners and the number is reported increasing considerably.

London officially confirms the news of the capture of Beaumont-Hamel, north of the Ancre, one of the strongest points in the German defensive line in this region. British troops stormed this heavily fortified position and made other advances further south.

Apparently the British are not relaxing their pressure now that they have succeeded in materially sharpening the salient in the German line by their advances up the Ancre valley as London reports the battle continuing.

Paris reports German activity in the Champagne region, where an attack on the French line near Aubervie by a strong hostile detachment is declared to have been repulsed. On the eastern front in the Carpathians the Rumanians appear to be holding their own, Petrograd reporting the repulse of Austro-German attacks there.

Today's German official statement, in reporting on the fighting along the Ancre, admits loss to the British of Beaumont-Hamel and St. Pierre, with the line connecting them. The losses on both sides were heavy, it is declared, the Germans suffering considerably because of their tenuous defense.

Gen. Von Falkenhayn continues to make progress in his invasion of Rumania. Both Petrograd and Bucharest admit Teutonic successes. The Russo-Rumanian troops have been compelled to give ground at one point and to withdraw southward in the Jind valley, where the Austro-German forces have pushed some 12 miles south of the border.

Progress also along the Moldavian border of Rumania is claimed by Berlin, which announces the retirement of the Russians to the frontier. No change in the situation in Dobruja is reported to day.

## IRELAND HAS MANY AVAILABLE MEN

Report of Registrar of Country Shows 161,229 That Might Give Military Service.

LONDON, Nov. 14.—Statistics prepared by the Irish registrar and issued today place the total number of men of military age in Ireland, based on the national registration of 1915, at 547,827. Deducting 245,875, who are considered indispensable to the industries of Ireland, 130,241 who have joined the army since the outbreak of the war, and with those who are unfit for military service or unavailable for other reasons, there remains a total of 161,229 men in Ireland now available for military service.

## OPPOSE PEACE MOVEMENT.

United Workers of Great Britain Believe It Would Be a Sign of Weakness.

LONDON, Nov. 14.—That the 1,500,000 organized workers in the United Kingdom of Great Britain are unalterably opposed to taking part in any peace negotiations because it might be regarded by their enemies as a "sign of weakness" was the statement by Harry Gosling, a fraternal delegate from England to the convention of the American Federation of Labor today.

## First Baptist Church

The regular meeting of the Christian Endeavor society will be held this evening in the chapel at 7:30 o'clock. Topic, Have to Be Strong. H. S. 11:32-10 and 12:1-4. Leader, Ernest Bonis.

Christmas sale of fancy work and necessities Thursday, Nov. 16, at 4 p. m. Children's supper, 6 p. m. Tickets 50c. Children 25 cents.

## In Odd Fellows' Temple

Tuesday evening at 7:30—regular meeting of Dennis Rebekah lodge. After the meeting there will be a social in charge of the past noble grand.

There will be a dance Wednesday night, Nov. 15, for Odd Fellows and Rebekahs.

## AUSTRIANS TRY TO CRUSH RUMANIA

Powerful Reinforcements Have Been Sent to the Region of Orsova on the Danube.

LONDON, Nov. 14.—Redoubled efforts are being made by the Austrians against Rumania, Reuters' Bucharest correspondent reports. Powerful Teutonic reinforcements have been sent to the region of Orsova on the Danube in Hungary near the Rumanian border. In this region the struggle is continuing stubbornly, every effort being made by the Austrians and Germans to recapture the town and re-establish communication by way of the Danube.

## ORGANIZE FEDERAL EMPLOYEES' UNION

Hope to Make the Organization National in Scope—Cannot Engage in Strikes.

NEW YORK, Nov. 14.—Employees in local federal offices have organized the Federal Employees' Union under a charter from the American Federation of Labor, it was announced today, and hope to make the organization national in scope. As all members are civil service employees they cannot participate in strikes. The constitution provides that under no circumstances shall the union engage in or support strikes against the United States government.

## THAW'S CUSTODIAN DEAD IN BERLIN

Holman A. Drew, for Several Years Sheriff of Coos County, Victim of Apoplexy.

BERLIN, N. H., Nov. 14.—Holman A. Drew, for several years sheriff of Coos county and for nearly a year one of the custodians of Harry K. Thaw while the latter was in New Hampshire following his escape from Mattawam, died here today. He was 39 years of age. He was stricken with apoplexy Friday. Mr. Drew was a past grand master of the Grand Masonic lodge of New Hampshire.

## SUNDAY'S DAY OF REST.

It Would Have Been Considered Fairly Busy by Most Men.

BOSTON, Nov. 14.—Billy Smulay took a day off yesterday in his campaign against the devil of Boston, even a man of God, built of wire and electric currents and pipe driver, must have a day of rest. So an Rev. Billy did was exercise in the morning, inspire a group of local workers for had an hour in the old Park church at 10:30, call on Mayor Curley and President Gustaf of the Shawmut bank drive over part of the city, lay down his philosophy of religion to 100 critical Unitarian preachers in the afternoon in his well-known "take-it-or-leave-it-don't-give-a-whop" style, receive a few favored callers on a night, dinner time and work on a couple of sermons at night before he went to bed at 10 p. m. It was a true day of rest for Rev. Billy.

The center of the new Second Unitarian church at Audubon square was packed when Mr. Smulay, "Ma" and three of the Sunday party reached there at 3:30 yesterday afternoon. A sign on the door said: "Only Unitarian ministers admitted." With the exception of a few newspapermen nobody but Unitarian ministers actually was admitted either. Some tardy brethren couldn't wedge into the room and had to stand outside listening through slots in the windows. Mr. Smulay was glad to be there. He said so both before and after the meeting. He admitted he was surprised 10 days ago when the invitation came to him in Detroit. Never before has he been privileged to speak to Unitarian ministers.

**SWEET CIDER FIRE WATER.**  
Apple Juice Used in Putting Out a Blaze in Whitinsville.

## WHITINSVILLE, MASS., NOV. 14.

Sweet cider yesterday saved from destruction by fire the farm buildings of Sarkis Acedianian. Neighbors were called when flames broke out in an out-house. Finding no water they went in to the cellar of the barn, smashed in the heads of six barrels of new cider, and by wringing down the house and barn with the apple juice saved them.

## BANK IN PETCORAD.

American Invasion of Foreign Financial Field Advanced.

NEW YORK, Nov. 14.—The American invasion of the foreign field advanced another step today with the announcement that the National City bank had obtained authority from the Russian government to establish a branch in Petrograd.

## DORRUMUS HAS HOPE.

Claims Democrats May Control Next House of Representatives.

WASHINGTON, Nov. 14.—Representative Dorrumus of Michigan, chairman of the Democratic congressional committee, declared at the White House today that control of the next house of representatives still was in doubt. He said the Democrats were certain of 212 votes and the Republicans of 211 with nine districts still in doubt.

## DEMOCRATS CLAIM ELECTION FRAUDS

### Plans Under Way for Senatorial Investigation in Next Congress

## EVIDENCE IS NOW BEING GATHERED

Will Be Alleged That There Was Misuse of Money in Indiana and West Virginia, Where Republican Senators Were Chosen.

WASHINGTON, Nov. 14.—A senatorial investigation of alleged misuse of money in the presidential campaign was announced today by administration officials. Preliminary plans have been made and a resolution providing the machinery for the inquiry is ready to be introduced soon after congress convenes next month. Evidence is being gathered upon which to base contests in the election of Harry S. New and James E. Watson as senators from Indiana and Representative Howard Sutherland as senator in West Virginia. New, on the face of the Indiana returns, defeated Majority Leader Kern and Watson won from Senator Tamm. Sutherland in West Virginia defeated Senator Chilton. If contests are brought they will have to be initiated in the new senate as each legislative body is the judge of its own members. The Democrats will control the new senate by a majority of 12 votes.

The department of justice announced that its investigation will proceed in the various states, despite the fact that the elections are over, and said that presentations were to follow where the law had been violated. While no states are named it is known that a large force of special agents has been working in Michigan, Minnesota, Ohio, New York, Illinois, Indiana and other states. Officials decline to say in what states evidence has been obtained.

NEW YORK, Nov. 14.—The Republican national committee will welcome the fullest investigation of every penny spent by it. Chairman William E. Wilcox of the committee said here today when informed of the steps for a senatorial investigation announced at Washington. He said that no charges or information as to alleged misuse of funds in the campaign had been sent to any officials in Washington by the Republican committee.

## INDIANAPOLIS, NOV. 14.

Hayes, Republican state chairman, when informed that the election of Harry S. New and James E. Watson to the United States senate would be contested, said: "Everyone who knows anything about the campaign and election in Indiana knows they were absolutely free from fraud or irregularities."

## MINNESOTA MAY GO AGAINST HUGHES

His Lead Has Been Cut to Less Than 200 Votes and There Are 500 Soldiers to Hear From.

ST. PAUL, Minn., Nov. 14.—Mr. Hughes' lead in Minnesota was cut today to below 200 with the final returns from the 10 missing precincts of Koochiching county. The complete revised vote of St. Louis county and a small change in Becker county make the totals now stand Wilson 178,981, Hughes 179,130, giving Hughes a margin of 155. The soldier vote has been practically a tie, with about 500 to hear from.

## HUGHES WILL GET A VOTE IN IDAHO

One of the Democratic Presidential Electors There Disqualified by Holding Office.

BOISE, Idaho, Nov. 14.—Because James E. Pincock, one of the four Democratic presidential electors chosen in Idaho also was candidate for the state legislature from Custer county and was elected, Idaho's electoral vote, instead of being four for President Wilson, is likely to stand three for Wilson and one for Hughes, it was reported here today. The disqualification of presidential elector who is also the holder of a state position.

## NORWEGIANS FIRE ON GERMAN STEAMER

Compel the Ship to Stop, Then Board It and Dismantle Its Wireless Apparatus.

COPENHAGEN, Denmark, Nov. 14.—A newspaper report says that a Norwegian torpedo boat has fired upon a German steamer which refused to stop when passing Stanger. The Norwegian fired a shot at the rigging, the newspaper said, then boarded the steamer and dismantled her wireless. Since the beginning of the war foreign ships have not been permitted to carry wireless installation when in Norwegian waters.

## UNDER BLANKET OF TEN INCHES OF SNOW

One of the Heaviest Storms for This Season Swept Over Central Vermont Last Night.

MONTEPELIER, Nov. 14.—Central Vermont was under a blanket of 10 inches of snow today. It had fallen during the night in the heaviest storm at this date in many years.

## COMMODITY PRICES GO UP WORLD OVER

Statement by National City Bank of New York Shows Increases of 50 to 90 Per Cent.

NEW YORK, Nov. 14.—Prices in foreign countries continue to advance just the same as in the United States, and for the same reason. A compilation by the foreign trade department of the National City bank of New York, issued yesterday, showed that prices abroad on a large percentage of the articles imported into the United States had advanced greatly since the outbreak of the European war. The compilation, which covered a considerable variety of articles, including foodstuffs, manufacturing materials, and manufactures, showed that the most striking advances had occurred in foodstuffs and manufacturing materials.

"You would scarcely expect," said the bank's statement, "that the natives of Haiti and Jamaica, which furnish most of our logwood, could be so fully 'out' the situation as to demand, and get, three times the price per ton for their logwood as they did before the war, but they are demanding it and getting it. The indigo growers and merchants of India, Java, and San Salvador are demanding and getting ten times as much per pound for indigo as they did before the war. Chinese and Japanese silk growers are getting double the prices prevailing prior to war, and 'fresh' eggs crash into the United States at double the prices of two years ago. A recent statement by the American consular general at Paris indicates that the imports of France in 1915 on tea that country at prices about 90 per cent higher than in 1914, and the exports leave that country at prices about 50 per cent above those of 1914.

"The prices shown are those of the articles in the wholesale markets of the countries from which the merchandise is imported into the United States, or the actual selling price in the country from which the exportation occurs. The advance in the import price, therefore, does not include the advance cost added through the unusually high ocean freight rates. This general advance is the more striking when it is remembered that a large proportion of the merchandise imported into the United States is drawn from several different countries, and the increase in the average import price therefore represents the average price increase 'the world over.'"

The present advance taking place the past two years, an example by the bank, were India rubber, 50 per cent; copper, from 14 cents to 22 cents per pound; pig iron, from \$34.50 to \$101.32 per ton; tin plate, from 3.2 cents to 11.2 cents per pound; raw silk, which a year ago was exported to this country at \$2.75, is now \$4.67 per pound; chemical wood pulp, unbleached, from \$30.95 to \$49.75 per ton, and bleached wood pulp, from \$49.20 to \$55.18 per ton. Combing wool, which was exported to America at an average of 24.4 cents a pound in the month before the war, was 37.9 cents in July last, while carpet wool jumped from 16.7 cents per pound to 23.4 cents in August, 1916.

Among the food supplies named as coming in for stiff advances were macaroni, cocoa, currants, sugar, mackerel, cheese and eggs. The dependence of the country on China for eggs was shown by statistics prepared by the bank. The importation of eggs alone from China in the fiscal year 1915 was 2,035,862 dozen, and in 1914, 1,875,365 dozen. This did not include the yolks of eggs and frozen eggs, of which the importations from China in 1915 were 7,067,085 pounds, the total value of eggs imported from China and Hongkong in 1915 being nearly \$1,000,000.

## CAMINETTI APPEAL ATTACKS MANN ACT

Lawyer for the Defence Says the Law Concerns Only the White Slave Traffic.

WASHINGTON, Nov. 14.—Argument over whether the Mann white slave act applies to personal immoral escapades or only to cases involving transportation of women for commercial gain began yesterday before the supreme court.

The law itself has been upheld by the court, but the question of interpretation is drawn for the first time in appeals of F. Drew Caminetti and Mary L. Duggs of Sacramento and L. T. Hays of Alva, Okla., all charged with transporting women in violation of the law, but with the elements of commercialism and coercion absent.

The present administration of the department of justice has brought prosecutions in all cases of transportation of women for immoral purposes, whether for commercial purposes or not.

Harry O. Glasser of counsel for the appellants insisted that the title of the white slave act itself indicated absence of intent by congress to have the law applied to cases of "mere immorality." He asserted that a fair interpretation of the act was that it was intended solely to stamp out organized or unorganized traffic in women for immoral purposes by prohibiting their interstate transportation.

Citing decisions of the second, seventh and ninth federal circuit courts, sustaining the interpretation given by the department of justice, Assistant Attorney-General Wallace argued that congress had the power to prevent immorality by barring transportation of women for immoral purposes, and that the Mann act should be so construed. The extent or degree of immorality should not be a factor, said Mr. Wallace.

He referred to the case of Jack Johnson, the Negro pugilist, in which the department's interpretation had been sustained, though admitting that judges of lower federal courts had differed regarding the law's construction. He conceded that Duggs, Caminetti and Hays were indicted for offenses without elements of commercialism.

South China is reported to be suffering from a trade depression.

The pin in the hands of the small boy is usually bent on mischief.

## HUNTING SEASON OPENS TOMORROW

### Continues from 5 a. m. Until 5 p. m. to Dec. 5, Except Sundays

## DOES MAY NOT BE TAKEN THIS YEAR

Only Wild Deer Having Horns Three Inches Long May Be Shot—Large Number of Licenses Issued at Town Clerk's Office.

In spite of the fact that practically all of the old-timers who put in a few days or hours as necessity requires to kill a deer each year are planning to get away today in order to be on hand on their favorite hunting grounds tomorrow morning at 5 o'clock, when the law is off bucks, there is no rush for hunting licenses at the office of the town clerk.

Ordinarily there would have been a waiting list yesterday and today of men desirous of obtaining licenses, but only 21 licenses were issued all day yesterday and a very few this morning.

This is accounted for by the large number who took out combination hunting and fishing licenses during the year. A total of 435 combination licenses were issued and up to this noon a total of 253 hunting licenses had been issued, making about 700 residents of this section who are legally entitled to shoot anything that is not protected by law. In addition to these licenses six non-resident hunting licenses have been issued and 565 fishing licenses.

Men familiar with the haunts of deer and who have done a little looking around in the last two weeks say that there are many deer tracks and that there should be plenty of opportunity to get a deer this season.

It must be taken into consideration, however, that does make tracks as well as the bucks and does are protected this year, and only bucks with horns three inches long may be shot legally. This will reduce the number of the animals that will be brought in from the large number killed last year, when the shooting of does was permitted.

The statute relating to shooting deer, enacted by the legislature of 1915, reads as follows:

"Wild deer having horns not less than three inches in length may be taken from November 15th to December 5th after 5 a. m. and before 5 p. m., both dates inclusive, Sunday excepted; provided, however, that during the open season for 1915 any wild deer except fawns may be taken."

The closing of a large tract in Guilford and Vernon, which is one of the best hunting sections in this locality, was a disappointment to numerous Brattleboro hunters as well as hunters from other places.

## GEN. SIR SAM HUGHES IS FORCED TO RESIGN

Canadian Minister of Militia Is Unable to Agree with the Borden Cabinet.

OTTAWA, Ont., Nov. 14.—Gen. Sir Sam Hughes has resigned as Canadian minister of militia and defense. His resignation was requested.

The break between Gen. Hughes and Premier Borden and other members of the Canadian government resulted from differences over questions of policy and details of administration. Since the beginning of the war there have been many such differences on questions of military management, but until recently, it is said, they have been adjusted generally by allowing Gen. Hughes to carry out his plans. Lately the friction has increased and adjustments have grown more difficult. It is understood the premier and the cabinet have been growing more disposed to insist upon their own plans as against those of Gen. Hughes.

One of the points over which a difference arose was the supplying of the Canadian forces with the British army rifle. Gen. Hughes, it is reported, advocated instead the use of a Canadian weapon.

Some time ago Gen. Hughes returned from a three-months' visit to England with a plan to have a Canadian war minister organized in England with a deputy minister of militia at his head. The Canadian government, however, held that with more than 200,000 Canadian troops in the trenches in France or in training in England there should be an over-seas minister of militia. Gen. Hughes opposed this as it would greatly deprive him of authority.

When the government insisted upon its plan, it is reported, Gen. Hughes suggested that Sir Max Aitken should be appointed to the new post. Premier Borden, however, appointed Sir George Perley, although there is said to have been lack of harmony between him and Gen. Hughes. This took from Gen. Hughes control of a large part of the Canadian forces.

While he was in England Gen. Hughes after investigating the Canadian army medical force relieved Gen. Guy Carleton Jones of the command. The government replaced Gen. Jones.

Criticism by Gen. Hughes of action taken by British authorities, both in regard to the handling of Canadian army supplies and of the Canadian forces, it is said, has been resented.

It has been stated that there was a lack of cordiality between Gen. Hughes and the Duke of Connaught, who has just left Canada after five years' service as governor general. The accumulation of differences has led to the breach which has come.

## NOT WELL TREATED IN BELLOWS FALLS

Brattleboro Salvation Army Captain Says North Walpole Boys Perced Doors and Broke Chairs.

Capt. Rennie of the Salvation Army says that at the close of a series of meetings conducted by himself and Sgt. Maj. Johnson in Bellows Falls Sunday the hall was packed and hundreds turned away, but that boys from North Walpole were too strong to keep in check and before Capt. Rennie had finished speaking the hall doors were burst open and chairs broken with the police powerless to interfere. He says that he and Sgt. Johnson stuck to their guns to the last trench. Capt. Rennie says all the Bellows Falls ministers endorsed the coming of the Salvation Army workers.

Last succeeding season has brought its installment of aggravations and the Guilford and Vernon people have finally decided to accept such protection as the law affords and to refuse the theory that the deer belong to those who raise them, that to the landowner and the taxpayer belong the products of the land, and that every man is the monarch of his own freehold and entitled to such relief from the high cost of living as his own resources permit. They have closed this tract, comprising 2,500 acres, and it is believed that practically all the land in these towns will be closed to hunters before another hunting season, and that this practice will result in a material increase in the value of the farms.

## TEN BUILDINGS BURNED.

Some Careless Smoker Believed to Have Caused Fire in Williston.

WILLISTON, Nov. 14.—Ten buildings on the farm of Henry S. Brothers were destroyed by fire Saturday afternoon at a loss estimated at about \$12,000. Neither Mr. Brothers nor his wife was at home at the time of the fire, but returned from Essex Junction and Mrs. Brothers being in Burlington to meet her parents, who were coming to visit her. She arrived at 6 o'clock to find their home in ruins.

The fire was discovered by a farm hand and help was soon at hand. The Burlington department was appealed to, nine men racing out here with the fire truck. They succeeded in saving most of the household furniture and sixty head of cattle were saved. One hundred tons of hay, 600 bushels of potatoes and 500 worth of beans were destroyed, together with all the farm machinery and tools.

The fire is thought to have been started by some one smoking in a barn. The buildings were all consumed because of the lack of water protection. The place, formerly known as the Douglas farm, is just over the South Burlington line. It has been owned by Mr. Brothers about eight years. The loss is partially covered by insurance.

## SPEEDIEST SUBMARINE.

Spanish Craft, Built at Quincy, Goes Faster Than 15 Knots.

QUINCY, Mass., Nov. 14.—The Spanish submarine Isane Peral has attained higher speed than any submarines in the United States navy according to a statement made today by an official of the Electric Boat company, which constructed the craft under a subcontract from the Fore River Ship Building corporation. In the submarine's official trial off Provincetown, from which she has just returned, it was stated that a high speed of 15 36-100ths knots an hour on the surface was reached.

Who wants to have always his own way will find he has taken a hard road.

## LARGE TRACT OF LAND IS POSTED

### 3,500 Acres in Guilford and Vernon Are Closed to Hunters

## FARMERS ACT TO PRESERVE RIGHTS

Aggravations Multiply from Year to Year—Tract Involved Is Mile Wide and Five Miles Long—More Likely to Be Closed.

A tract of land extending from near Guilford village southerly for a distance of five miles, averaging one mile in width and including several farms on the western side of Vernon, is being posted, and will be closed to outside hunters before the opening of the deer season next Wednesday.

The tract comprises contiguous lands of Mrs. Mary C. Bullock, E. F. Evans & Son, L. E. French, William E. Higley, T. E. Mead, J. Henry Pratt, Zelia A. Staten, L. E. Holden, Fremont Hamilton, T. Korozyl, John E. Gale, M. H. Willis, Raymond Welker, H. L. Clark, Mrs. C. F. Coombs, W. A. & P. E. Franklin, L. F. Putnam and probably several other adjoining owners. This section has been much frequented by out-of-town hunters, many of whom have shown little regard for the rights of the landowners, who feel that they are in duty bound to protect themselves by closing their grounds.

Many a farmer has seen the deer which had fed upon his crops for months taken out by strangers who have not had the decency to offer the landowner so much as a single meal of the venison.

One Guilford man witnessed from his dooryard the killing of three deer on his farm in a single day last fall, took his team and drew the game in for the hunters, who took them all away without even a word of thanks. Another farmer was waiting a favorable opportunity to trap some coons which had fed upon his hood crops throughout the season, when in one night recently a company of hunters, without the formality of asking permission, entered his woods, cut down two trees and killed and took away five coons. Hunters who have already taken their legal quota of deer and other game have persisted in continuing the hunt throughout the season, or until threatened with arrest. Many instances are known where out of town hunters have taken deer and sold them for what money they could get.

## THE COLD WAVE IS RUSHING EASTWARD

Much Colder Weather Is Predicted to Overspread Atlantic and East Gulf States.

WASHINGTON, Nov. 14.—The cold wave from the Rocky mountain region continued to move eastward today and freezing temperatures had extended southward to the Mexican border, where the troops were feeling their effects. The advancing cold seemed to be losing its intensity as it moved eastward. Snow has been falling in New England and interior New York and rain in the middle states and southern New England. Much colder weather is predicted to overspread the Atlantic and east gulf.

## RECOVERING FROM INJURIES.

Mrs. Bert Stone to Be Brought Home from Greenfield Soon.

Mrs. Bert Stone, who has been in the Franklin county hospital in Greenfield, Mass., since the night of Oct. 31, when she was seriously injured about the head in an automobile accident, has so far recovered from her injuries that she was able to sit up a short time yesterday. It is expected that she will be brought to her home on Canal street in a few days. Mrs. Stone was hurt when the automobile in which she was riding with her husband and daughter, Hazel, and E. C. Harrington, collided with the abutment on an underpass in the darkness between Whately and South Deerfield.

## Some men think because they go in and out of a church on Sunday they are Christians. If they go in and out of a barn that does not make them mules, does it?
