AMUSEMENTS.

"A Lady of Quality." Frances Hodgson Burnett's beautiful and stirring romance, dramatized by Stephen Towne-send, was the attraction at the Academy of Music last night. The play is one of the strongest that has been presented here this season, and it was put on by a company of players. While the theatre was not filled to a large and fashionable audience was present, very many of those in attendance being in evening dress. The play is in five acts, and the scenery in each was very beautiful, particularly that of the second act, which represented the rose garden. All of the scenery is by Elms, Albert, of the Fifth Avenue Theatre, New York. The costumes, which were by Eaves, of New York, and Van Home, of Philadelphia, were elegant and beautiful.

Eugene's Hair, the lovely and talented actress, was at her best as Florida Whitlairs, and her splendid talents never showed to better advantage than in the pathetically sad and romantic character. The star was also splendidly supported by Mr. William Bramwell as Sir John Oxon, Mr. Edgar Baum as Duke of Osmeon, and Mr. J. R. Amory as Sir Christopher Crowell, being especially good, the tragic scene in the fourth act, between Florida and Sir John Oxon, eliciting the wildest applause, Miss Hair being called before the curtain four times.

The Louise Brebany Concert Company will appear at the Academy of Music to-night as the fourth attraction of the Lyceum Course. They will probably have a full house. Non-subscribers can obtain seats by applying to the box office.

HENRY MILLER.

An attractive feature of the romantic comedy "Henriette," which Henry Miller presents at the Academy on Thursday evening, is the music which is the part of the third act, supposed to be a portion of the performance of the hero's stolen opera. It was written for the play by W. W. Furst, for some

years musical director of the Empire Theatre, New York, but well known previously in the West as the Kappeln sister of the Tivoli in San Francisco. The stage settings of this act are quite unique. It shows the foyer leading to the boxes of the Covent Garden Theatre, London. As the performance of this opera is of vital importance to the action of the play, a number of singers and a musical director are necessary, as well to be carried with the company. Seat sale opens this morning. Prices, 50c. to \$1.50.

"SOWING THE WIND." Sydney Grundy, the author of "Sowing the Wind," which comes to the Academy of Music next Friday, is a good user of diction and a clever constructor. Seats on sale to-morrow morning. Prices: Matinee, 50c, any seat; night, 25c, 50c, 75c, and \$1.00.

Another large industry will be established soon in our town. A kindling-wood company of New York will be the promoters of this enterprise. This company has purchased all of the slab wood from the Cummer Company's mill and the contracts have been drawn. The company is negotiating with the Cummer Company with the view of constructing a large plant on their premises, near the saw-mills, to manufacture this wood into kindling and matches. If the terms offered meet the approval of the Cummer Company, a dry kiln, 50x100 feet and 80 feet high, will be erected at once on the peninsula on the east side of the Cummer plant. The plant for manufacturing kindling wood and matches will be located on the South side of the Cummer plant, which will furnish the power. The same company will also erect another plant of the same kind at Money Point. The greater portion of the machinery has arrived.

The remains of Mrs. A. F. Myers were sent to Fishkill, N. Y., Sunday afternoon for interment.
