REVIEW OF MARKETS FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange Bonds, Grain, Cotton, Provisions, Etc.

New York, June 26.—The opening of the stock market this morning showed a jump in prices and something like a rush to buy, which spread rapidly through the whole railroad list. In due course of time a number of industrialists also took on some show of strength. When this development became obvious the railroads paused in their advance, as though to shake off the following of industrial stocks. Acute weakness in the local traction stocks, Steel and Wire, and the Tobacco stocks first checked the advance. The railroads held firm for a time, but before the decline was over bullish enthusiasm had somewhat expended itself and the closing dealings showed a rather easier tone, with the prices of the railroads sharply below the best. A movement in the Vanderbilt stock was by far the most conspicuous of the day and was of course based on the reported lease of the Boston and Albany by the New York Central for a term of 99 years. The ramifications of the Vanderbilt properties are so vast and the possibilities of consolidation so important that a movement in these stocks is always certain to have a stimulating effect on the whole railroad list, and for the same reason the Vanderbilt group is very likely to be picked out for manipulation by operators for a rise. As the floating supply of these stocks is not large, such manipulation is not so difficult as it might seem. New York Central was at one time to-day up 3 points and it lost one point on the failure of official confirmation or even admission of the correctness of the Boston and Albany report. This, together with further engagements of gold for export, was the important influence in the reactionary tendency throughout the market.

Chicago and Northwestern, Omaha, Union Pacific and the Oregon Short Line securities all responded sharply in sympathy with New York Central's strength.

The weakness of the New York traction stocks to-day was due to rumors of approaching labor troubles. Sugar and a few other specialties showed early strength, but the industrials, with few exceptions, yielded before the close.

Good reports of current railroad earnings especially in the West and Southwest, were factors in the strength of railroads.

Decreases in operating expenses of Southern railwayroads was a feature of the May statement received. The May income of Atchafalpa being increased largely by this means to the extent of over \$500,000. St. Paul's May statement, on the other hand, showed the gross increase more than swallowed up by the enlarged operating expenses.

Railroad bonds were generally firmer but the volume of business continued rather small. Total sales, par value, \$1,894,000.

U. S. 3's coupon advanced 1/4 in the bid price.

The total sales of stocks were 475,600 shares.

The Cotton Markets.

NEW YORK COTTON MARKET. New York, June 26.—Prices in the cotton market gave way again to-day to vigorous selling pressure from the bear side and a renewal of the liquidating process which figured so conspicuously throughout the past week.

This market patterned the factors which which discouraged longs had to contend with unfavorable reports from the English market and generally brilliant statements concerning the condition of the growing crop. On the first call prices broke 3 to 4 points, which subsequent developments proved to be about the lowest level of the day. This decline sent August off to 5.49, and as numerous liquidating investment orders have been in existence for a long time at 5.50, a sharp reaction followed. After a brief period of steadiness, however, the market again became unsettled and for the rest of the day fluctuated within a point or two of the opening quotations. The market closed steady, 1/2 higher to 3 points lower.
