12

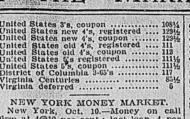

Washington of the decision of the Treasury Department to anticipate the November Interest on government bonds without discount, and that of the entire fiscal year at a discount of two-tonths of one per cent, about the res-ular rate on government bonds. The re-sponse was prompt and emphatic. Drices rising with more appearance of serength than for a long time past. The gains ranked from 1 to over 2 per cent in many active stocks. The buying was undoubtedly in large part due to the covering of short contracts by the bear interest, which has been considerably extended during the last few days on the continuing appearance of money stringency. The speculative industrials were most affected, including those in the metal industry. The most notable movement in the railroad list was that of C. B. Q., which rose an extreme 2%. When the demand from the short interest was satisfied prices began to sag again and widh the exception of a sharp bidding up of Sugar to the top level in the late dealings, the close was inclined to heaviness. The action of the Treasury Departmen on its face offers some-thing like \$25,000,000 for the relied of the money market and over \$4,300,000 of this is without discount. The amount provides for immediate release, how-ever, is only about \$1,500,000, the payof this is without discount. The amount provides for immediate release, how-ever, is only about \$1,500,000, the pay-ment of the balance of November 1st interest being fixed for weekly periods up to October 25th. The extent to which this privilege will be availed of is a problem, but last year's experiment on the same lines did not bring striking results. The anticipated interest last years was that due on October 1st and November 1st, so that this year's of-fer is greater by more than \$2,000,000 so far as interest is concerned, but last year the government anticipated a redemption of \$14,000,000 of Pacific ruil-road bonds in September and loctober. The Treasury was paying out money freely then, while this year the gov-ernment surplus is constantly taking money out of the market. On the whole the relief offered by the government to the money market appears rather mea-ger by contrast with last year, when the rate for call loans was at no time over six per ceal, during the crop moving, period. The call loan rate worked rather easier to-day, though the imajority of loans was made at ten per cent, the maximum rate. In time loans, lenders were more willing to give ac-commodations for short periods, where-as, they had been holding out for the six months' period. The rate for all pe-riods continues at 6 per cent. The money situation abroad was ngain distinctly easier and the weekly statement of the Imperial Bank of Germany, as well as the continued receipt of gold on bal-neted by the market of formany as well as the continued receipt of gold on bal-Jupperial Bank of Germany, as well as the continued receipt of gold on bal-fance by the Bank of England, indi-cated progress toward recuperation. Nevertheless sterling exchange here held firm and French and German ex-change advanced a fraction. The bond market continued duil and changes in prices were mixed. Total sales, par value, \$2,035,000. United States 4's declined ¼ in the bid price.

CHANGE OF OWNERS. The schooners William H. Bailey and Twilight have changed hands and will now, it is stid, go exclusively into the lumber carrying trade of this port. At their arrival at home ports after the present cruise Captain N. C. Lane is expected to take position of master aboard the Bailey and Captain J. Max-well, of the Twil oft, each having bought a large interest in their respec-tive vessels. Captain Lane was for a time in the Massachusetts and Captain Maxwell now commands the William H. Davidson.
