FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Rtc.

New York, Oct. 12.—The stock marmade a couple of feeble efforts to advance this momning. The lethargy of the trading was an invitation to bear aggression, and when a determined leadership developed for that faction, the professional element among the traders was quick to follow the lead. A single block of St. Paul of 6,500 shares was quickly followed by another of 4,000 shares, offered by brokers who are usually employed by the achnowledged bear leader. Selling generally all around the room was the sequence. The two large blocks of St. Paul were 1244, and the price had fallen to 1234, in a few minutes. The Grangers, New York Central, C. C. and St. Louis, and the leading high-priced specialties were the principal sufferers. Brooklyn Rapid Transit was under conspicuous pressure, and fropped to 3554. Fullman made a brilsufferers. Brooklyn Rapid Transit was under conspicuous 'pressure, and dropped to \$5%. Pullman made a brillant advance of \$1% points on the coming absorption of the leading competitor, which was denied later. This was an isolated instance of positive strength. Louisville was the leader of the early abortive advance, and was rather firm after having the advance wiped out. Otherwise, the heaviness was quite uniform. The news developments in South The news developments in South ca had very little effect on the mar-

The weekly statement of the Bank of England discloses a very slight increase of the proportion of reserve to liability, and the statement for the same period of the Bank of France shows a loss of \$2,300,000 in gold, while demand for credits has increased in its loans about \$10,400,000. The sterling exchange rate at Paris dropped off an additional ½ centime. It is exceedingly significant that the Bank of England parted with some £165,000 in gold for shipment to Paris, which city has been looked to from all points as the available source for relief for the need of gold. The financial upset in Italy had a disturbing effect in all the European money markets. The sharp upward movement here, not only in sterling exchange, but also in French exchange, suggests a coming pressure on this centre. weekly statement of the Bank of

ther contraction of loans which had been made, a more favorable showing is expected from the New York banks in the Saturday's statement. The money outlook is considered anything but favorable. The violent upward movement of ½ per cent. In the pound sterling exchange, both for actual rates and for posted rates, is regarded as an admonision than an easing of the money rate here is likely to lead to a demand from London for gold.

Wilmington, N. Naval stores people are of the opinion that the market will hold its own, or even go higher, in the course of a few weeks, as it is evident from light receipts for the past few weeks that the greater portion of the crop has been sold and there is little stock in the country. Distillers have not realized such prices as they are now receiving for any appreciable period since the season of 1881-82, when, during the early part of April, there were sales as high as 64c.
