

REVIEW OF THE MARKETS: SHIPPING NEWS; AND REAL ESTATE BUSINESS.

REVIEW OF MARKETS FINANCIAL AND COMMERCIAL

New York, October 16.—The stock market showed a firm undertone all day and ended with a vigorous upward movement in progress in number of the prominent stocks, which arrested a reactionary tendency and made the closing firm. Net gains exceed a point in only a few cases. The principal activity was in the prominent specialties.

Great Northern preferred and Pullman continued their recent show of strength, the former rising 8 and 5 1/2 net. Pullman's extreme rise was 5 1/2 and its net gain 2. Metropolitan, Consolidated Gas and Third Avenue were strong, but the latter lost all its gain. Southern Pacific was the leader of the late rally, after falling to 36, and was marked up vigorously to 37 1/2. St. Paul attained a net advance of a point. Baltimore and Ohio stocks were both strong.

London's active dealings were very small, but the firmness of stocks there and the lower rate for money in London had a sentimental influence here. So had the good showing made by the Bank of Germany. The rise in the private discount rate in Berlin suggested, however, that the bank's recuperation was made at the expense of the open market.

The decline in discounts in London was reflected in an easier tone for sterling exchange rates both in New York and at Continental centers. But higher money rates are expected in London and that expectation is a factor in the speculative outlook here. Money rates here continued rather easier, call loans ruling at 6 per cent. or below. There was less demand in the call loan department and it is asserted that stock operators have provided themselves to some extent by borrowing money on time. The amount of money disbursed by the sub-treasury on interest account to-day according to preliminary estimates did not exceed \$200,000. This included not only the anticipated interest of November 1st, and for the fiscal year, but also a considerable sum of overdue interest which has not been claimed hitherto. The sub-treasury, however, had a debit balance of over a million dollars at the clearing house on account of payment of government obligations. No drain is apparent thus far from the banks into the sub-treasury on account of routine operations this week. Deposits at the sub-treasury for telegraph transfers to other points shows that the interior demand for money is not so assiduous.

The bond market continued moderately active and some of the issues moved upwards. Otherwise declines were the rule. Total sales, par value, \$1,775,000. United States 2's advanced 1/4, but the 3's declined 1/4 in the bid price. Total sales of stocks were 393,700 shares.

The Cotton Markets.

NEW YORK COTTON MARKET. New York, Oct. 16.—There was a marked falling off in speculative interest in professional cotton circles as well as among outside investors to-day. The market needed only weak cables to send prices downward on the call and to keep longs in a nervous state throughout the session. But while sentiment was momentarily bearish, the market kept all its bullish features, such as light receipts, firm Southern markets, strong cloth markets and contrasting crop estimates. The movement from the ports to Europe reached an unusual figure to-day, over 60,000 bales being cleared. Total net receipts were 23,000 bales less than on the same day last year. On the opening prices went off 2 1/2 points, and after a slight rally on covering broke heavily. The late market showed hesitation on both sides, with the disposition about equal to even up rather than to extend commitments. Of the business done for outside account switching was a feature, the near months being exchanged for the late spring and summer positions. Wall street displayed a waiting policy. On the downward movement a number of stop orders were reached. The market closed barely steady, with prices 6 to 11 points net lower.

NEW YORK, OCT. 16.—Cotton futures opened steady at the decline. October, 6.85; November, 6.86; December, 6.91; January, 6.97; February, 7.00; March, 7.03; April, 7.05; May, 7.07; June and July, 7.08; August, 7.07. Futures closed barely steady.
