Engine and Tender Derailed by Misplaced Switch.

NO INJURY TO PASSENGERS

Engineer and Fireman Slightly Hurt - Unsuccessful Attempt of Three Prisoners to Escape From Jail - Col. White Designated to Act as Grand Marshal - Cases Argued Before Supreme Court.

(Special to Virginian-Pilot.)

Richmond, Va., Nov. 20.—About 6 o'clock this morning the Florida and West Indian limited train, leaving Richmond over the Richmond, Fredericksburg and Potomac railroad at 3:33 a. m., ran through a misplaced switch at Quantico, eighty-one miles north of Richmond, causing the derailment of the engine and tender and the mail and express car.

There was no injury to the passengers. Engineer Thad. Bowen and Fireman Charles Tinsley were slightly hurt.

The main line was blocked by the derailed train, causing the detention of the southbound train due to arrive at Richmond at 8:40 a. m. The passengers and Richmond mail on this train were transferred to the cars of the wrecked train, and arrived in Richmond about 1 o'clock. The northbound passengers were transferred to a local train of the Pennsylvania railroad due at Washington at 8:20 a. m.

ATTEMPTED JAIL DELIVERY.

T. N. Sheppard, W. E. Crawford and Louis Corse, three prisoners, made an unsuccessful attempt to escape from the city jail last night.

The men had during the night, or sometime when they were locked in their cells, broken up a chair and, by means of some wire which they had secured, constructed a ladder. By the use of this and a blanket torn in strips and tied together, to form a rope, they hoped to be able to scale the walls.

The ladder was to be used to reach the end of the iron fire-escape, which projected slightly over the walk into the court just above the second corridor. Should they have succeeded in reaching this point they would have walked along the top of this inner wall to the outside wall, where they would have descended into the street by means of the blanket rope.

The timely appearance of the watchman frustrated their plans.

LEXINGTON. CHRISTIAN ENDEAVOR CONVENTION FINISHES ITS WORK.

(Special to Virginian-Pilot.)

Lexington, Va., Nov. 20.—After a session of four days the Virginia Christian Endeavor Convention closed Sunday night. The address was made by Professor William Spencer Currell, of Washington and Lee University, his subject being "Transfigured Moments." The address was considered one of the best of the convention, and the earnest attention of the large crowd was evidence of its appreciation. The parting word was said by the retiring State President, Mr. Wm. R. Kennedy.

There was no convention services Sunday morning, and the delegates attended the various churches of the town. The afternoon session was conducted by R. E. Hutton, the subject being a temperance topic, "Liberty and Love," which was followed by "Plans and Problems," by Dr. James Lewis Howe. The afternoon services were opened with a recitation by Mrs. J. F. McGinnis, of Norfolk, who recited with fine effect the temperance piece, "The Terrible Charge." Mr. and Mrs. McGinnis have been the recipients of much attention at the convention from the fact that they are here on their bridal tour, they having been married in Norfolk Thursday morning before starting for the convention.

While the attendance at the convention was not as large as on some former occasions, yet the delegates were all earnest young people who came here for the good to be derived from the meetings. All parts of the State were represented.

Religious services were held in the county jail Sunday afternoon, which resulted in the conversion of three prisoners.

A number of the delegates visited the Christian Endeavor Society in the colored Baptist church and made addresses.

The convention was a success throughout, and a good impression is left on the community. The collections at the services more than paid the expenses of the convention.

RESOLUTIONS OF THANKS.

The following resolutions were adopted:

1st. We render to the great head of the church, the gratitude of our hearts for the blessings He has vouchsafed unto us as individuals and as an organized body of Christian workers during the past year, and would invoke His benediction upon us at this, the beginning of another convention year.

2d. To the people of Lexington for their kind hospitality.

3d. To the officers and members of the local society for their efficient care of the convention. Likewise to the officers and members of the church in which the meetings have been held.

4th. To the officers of the State Union for efficient labors in extending the work throughout the State and for faithfulness in the discharge of their respective duties.

5th. To Mr. Frank T. Snider, of Rock-bridge Baths, for his splendid leadership of the trained choir of singers.

6th. To the various railroads for reduced rates of transportation.

7th. To the press, both in and out of the State, for notices of the convention and for reports of convention proceedings.

8th. To the speakers at home and from a distance for their uplifting and soul-stirring addresses.

9th. We urge the keeping of the "Quiet Hour" and the adoption of the "Tenth Legion."

10th. We ask a cordial and practical endorsement of the suggestions in the address of State President Kennedy, regarding an aggressive campaign for the extension of Christian Endeavor.

11th. We affirm our allegiance to the principles which, under God, have made Christian Endeavor what it is to-day—a vast army of 3,000,000 young men and women working for "Christ and the church."

AGAINST POLYGAMIST ROBERTS.

The following resolution was also adopted: Resolved (by the ten thousand Christian Endeavorers of Virginia, by their representatives in convention assembled), That we do earnestly protest against the seating of Brigham H. Roberts, a notorious polygamist, in the halls of Congress, and that we call upon our Representatives in Congress to use every proper and lawful means to prevent the same.

ROANOKE.

Roanoke, Va., Nov. 20.—The Baptist Orphanage which was established in the city of Salem about eight years ago, is in a prosperous condition, and is a magnificent testimonial to the practical good sense and large-hearted benevolence of the Virginia branch of that religious denomination. Over \$100,000 have been spent in buildings and equipment, and the institution, which has a capacity for 112 inmates, is always full, while the management is compelled to refuse many applications for admission for want of proper accommodations. An addition with rooms for fifty boys is already under way, and the Cathedral of the liberality of Mr. T. H. Elliott, of Richmond, and the Portsmouth Baptist Association will add another building to accommodate an equal number, work on which will begin by the first of January next.

These two additions, when completed, will nearly double the capacity of the institution, which, under the able management of the Board of Trustees, of which Prof. Charles H. Cooke, of Hollins, is chairman, is rapidly increasing in usefulness and popularity.

The Lutherans also have an orphanage in the same county, and the Cathedral in this city, both of which are accomplishing much good in providing for innocent and helpless children.

Still More Counterfeiting.

The Secret Service has just unearthed another band of counterfeiters in a suburb of New York City, and secured a large quantity of bogus \$5 bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitter, which many imitators but not equals for common disorders like fever, ague, malaria, indigestion, dyspepsia, constipation, nervousness, general debility, etc. The Bitters set things right in the stomach, and when the stomach is in good working order it makes good blood and plenty of it. In this manner the Bitters restores vigor to the weak and debilitated, and the counterfeiters when buying. Always go to reliable druggists and see that a private revenue stamp covers the neck of the bottle.

Home of Mr. E. S. Norfleet Robbed Sunday Afternoon.

The firemen soon had it under control. The loss of \$50 is covered by \$75 insurance in the British American Company with Harper & West. The building was occupied by a colored family, some of whose furniture was burned, with insurance.

To Bridge-Builders.

The undersigned Commissioners hereby give notice that sealed proposals in writing, for repairing or rebuilding Bennett's Creek Draw, in Slocum, Cole material district, and furnishing such material as shall be necessary in the construction of such bridge, and doing all necessary work to make the bridge complete, substantial and durable, will be received at the Clerk's office, in the town of Suffolk, Va., until THURSDAY, NOVEMBER 23, 1899, at 12 o'clock M.

SPECIFICATIONS: The bridge will be stripped to the piles, and the railing and decking removed from the draw.

All material removed will remain the property of the county, and will be cared for by the contractor until the completion and acceptance of the work on the bridge. The length of the bridge, exclusive of the draw, will be 108 feet.

The length of the draw will be 90 feet. APPROACHES: The log protection to the bank-bents and roadway near the draw shall be left intact. This log protection at each approach to the bridge is about six feet high and consists of heavy timbers securely fastened together and lashed. It encloses on three sides a space about 15 feet by 25 feet, filled with earth and shells, which serve as a road-bed. After removing sufficient of this enclosed material, the contractor will construct an interior protection to bank-bents and roadway, using for this purpose the heavy timbers removed from the present bridge. The timbers of the interior protection shall be securely lodged and land-land, and all excavated material shall be replaced and thoroughly tamped.

TIMBER: All timber used except the piles shall be No. 1 heart long-leaved yellow pine. PILES: Ten straight, round, sound, creosoted piles, thirty feet long, not less than ten inches in diameter at the small end, shall be driven to a firm bearing in two level bents where required and cut off to the level of the pile top in the bridge.

CAPS: There shall be placed on bridge pile-bents twelve caps 12 in. by 12 in. by 13 ft. There shall be placed on draw-support bents two caps 12 in. by 12 in. by 13 ft.

CHORDS: There will be four chords along length of bridge, 108 feet, spaced as in present bridge. The chords will be dapped across at least two spaces, and break joints as far as possible. Chords 4 in. by 15 in.

DECKING: Decking 3 in. by 12 in. by 12 feet will be placed on bridge draw, 158 feet.

RAILING: Double line of rail on bridge, 108 feet. Posts 3 feet centre to centre, 6 in. by 4 in. by 12 in. by 12 in. on chords. Top rails 4 in. by 6 in. on chords. Joint over posts. Lower rail, 1/2 in. by 8 in. Posts to be dapped one inch to receive it.

PIER AND DRAW: The draw-pier shall be raised six inches by securely bolting to it twelve well-tarred timbers 6 in. by 12 in. by 12 feet. The finished pier shall have a level surface and furnish uniform bearing to the draw, allowing it to swing smoothly in all directions in alignment with the bridge. If during the progress of the work any weakness in the draw resulting from partially rotten or strained members shall be found, such members shall be replaced, and the contractor shall be paid for same in proportion to his bid per thousand feet in the work indicated above.

SWAY BRACING: Beginning with the draw-bent every other pile-bent shall be sway-braced, the timbers crossing on opposite sides of the piles, being fastened to the cap and flush with its end, and inclined downward to high water on opposite pile. Five bents to be braced—ten pieces. Sway-braces 3 in. by 10 in.

FASTENINGS: Caps to Piles—Drift bolts 3/4 in. by 20 in., one in each pile. Sway-bracing to Caps and Piles—Three 7-inch boat spikes at each crossing. Chords to Caps—Drift bolts 3/4 in. by 22 in., one at each cap for each chord. Docking to Chords—7-inch boat spikes, three in outside chords and in each interior chord. Rail Posts to Chords—Three 7-inch boat spikes in each post. Top Rails to Posts—7-inch boat spikes, two in each post.

New Posts—Three 10-penny nails at each crossing.

The lumber will be inspected on the ground by the Commissioners. The Board of Supervisors will determine whether any, and if any, which of the said proposals shall be accepted.

The bridge will be paid for when completed and received by the Commissioners. JOHN CAPPS, ABRAM MILLEER, Commissioners.

On motion of Rev. J. B. Hawthorne the association adopted a petition to the Legislature deploring the evils of intemperance, declaring that early education is a strong preventative and concluding as follows:

"Therefore, we, the Baptist General Association of Virginia, now in session, respectfully petition our Legislature to enact a law which shall make the special subject herein referred to a mandatory study for all pupils in all schools in this State supported by public money or under State control, and we request the chairman and secretary of this meeting, after signing this resolution and petition as passed by us, to see that copies of the same are duly presented to the Legislature of Virginia when it shall next convene."

The association chose Bristol as the next place of meeting, the date to be the Thursday preceding the third Sunday in November, 1900.

ASSOCIATION ADJOURNS. The Association adjourned late to-night after disposing of considerable business. A resolution was adopted fixing the length of the session at three days and directing that circular letters be sent out asking churches to send only such delegates as will arrive on time and stay until adjournment.

Dr. F. W. Boatwright, A. E. Owen and J. E. Nelson were appointed delegates to the American Baptist Education Society.

The only exciting event of the day's session was the motion of Dr. John Pollard, of Richmond College, to reconsider the plan of ministerial education. Dr. Pollard let fall some dark hints that the present system was abused, and there was considerable excitement which, however, soon blew over.

The People Now Realize It

A little over a year ago we advertised that we would sell one stove of our make to anybody as low as a dealer could buy a carload. Then our trade was limited to Virginia and North Carolina. Since we advertised this we have shipped them to every State from New York to Florida, and as far West as Ohio—right in the heart of other stove manufacturers. Nothing but praise comes from these States for their baking qualities and excellent finish. The celebrated Fitz Lee Cook Stove is destined to be in more homes in more States than any other stove ever made. Write for information.
