

REVIEW OF THE MARKETS; AND REAL ESTATE BUSINESS.

REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Nov. 22.—The stock market drifted rather aimlessly to-day under the influence of renewed uneasiness over the money situation. A moderate demand for London account lifted prices at the opening, and during the course of the day there were isolated movements in a number of individual stocks. But the influence of these demonstrations of strength in spots on the general market was small, and the tone was sluggish throughout. Dealings were narrow and wholly professional.

The money rate rose to 8 per cent. during the day, and there was a renewal of the disposition to discriminate sharply against the individual stocks as collateral. The nominal rate of interest in such cases was eked out by the requirement of extra commission, and the margin between the amounts loaned and the ruling market valuation of the stocks was increased. The offerings of Government bonds for redemption and the sub-treasury fell to insignificant proportions. New York exchange was notably weak at a number of important domestic centres, falling to 20 cents discount at Chicago against par yesterday and declining sharply at St. Louis and Cincinnati. Persons interested in the money outlook are keeping one eye on the foreign markets. The hardening of accounts in London to-day may be significant in future pressure from that source, though the situation in New York was sufficiently pressing to cause a decline in sterling rates in spite of the London movement. The Paris discount rate held firm at 1/2 per cent. above the bank's official rate, giving ground for expectation of an advance to-morrow in the Bank of France's rate. New York banks have gained \$5,659,000 on sub-treasury operations since last Thursday, and to-day's Clearing House statement showed a debit balance against the sub-treasury of over \$2,000,000.

These are reflections of the Government bond redemptions, and give promise of a good showing in Saturday's bank statement. The proceeds of the bond redemption have not afforded any great relief to the speculative world, and the market is disposed to await further developments. Small net gains are the rule on the day, and a few stocks show notable advances. General Electric gains 3/4 and Cleveland, Cincinnati, Chicago and St. Louis 2/4. Baltimore and Ohio rose over a point, and the Coalters showed some strength. The Chicago, Indianapolis and Louisville stocks, the Chicago Terminal stocks, the Rio Grande Western stocks, Buffalo, Rochester and Pittsburg and one or two others show gains of from 1 to 3/4. Minneapolis and St. Louis is 2/4 lower, and losses of a point are shown by a number of other inconspicuous stocks.

There was realizing in some of the bonds of the speculative grade, but very good absorption at some other points. Total sales, par value, \$2,275,000. U. S. 2's advanced 1/4 and 3's and old and new 4's 1/4 in the bid price. The Stock Exchange will be closed Saturday out of respect to the late Vice-President Hobart. The total sales of stocks were 405,300 shares.

The Cotton Markets.

NEW YORK COTTON MARKET. New York, Nov. 22.—Trade conditions on the Cotton Exchange did not change materially to-day. The bulk of the small business done was easily traced to the professional element which gave attention for the most part to the winding up of straggling accounts preparatory to whatever new turn the market may take in the near future. The opening was barely steady, with quotations one point lower to one higher. Prices did not rest long on this level as receipts piled up ominously; late cables were bearish and the investment public was disposed to part with a portion of its holdings. A decline of five points was apparent at the close of the first hour, with the market showing underlying weakness. Later, however, there was marked change in the feeling in the pit and by noon most of the early loss had been wiped out. The change of sentiment developed into positive firmness as the session wore on. With the steadier ruling came a moderate number of buying orders from Wall street, and the South Room bulls purchased in a small way. The market was finally steady with prices net two points higher to two lower.
