AMUSEMENTS.

MR. MARIE'S LECTURE.

Last night, the last of the series of entertainments given by the management of the Protestant Hospital, was Marie night, but there was no "maybe" about the merit of the lecture. Mr. Marie said of "The Four Georges," that it was made an interesting series of papers by the genius of Thackeray, as truly may it be said that Sam Johnson was made beautiful by Mr. Marie. For every ugliness of the stumbling, awkward victim of "King's evil," half deaf and more than half blind, as he was, the lecturer pointed out some offsetting attraction of character. Was Johnson gloomy and unfortunate? "He was born sick in a tired age." Was he unable to look upon food with any degree of self-control? The lecturer reminded us of the ten years of tripe-eating with footmen in underground restaurants. It was not alone the ugly grub-street hack in the smuffy brown suit that we saw, but the flood and ebb of the English mind, the march of Kings and people from Henry VIII. to George II., and at last, the end of Sam Johnson, "the incarnation of English honesty and courage and common-sense," laid to rest in the mansion of English genius.

OPEN DOOR IN CHINA.

INDIVIDUAL OPPOSITION OF THE DOWAGER EMPRESS.

(By Telegraph to Virginian-Pilot.)

Washington, March 15.—The cablegram from the American Association has been received at the State Department, and under serious consideration. The Empress Dowager is persecuting with relentless hatred the reform party, going so far as to resort to the barbarous practice of offering a large sum of money for the assassination of leading reformers. This reform element in China is believed to include nearly all of the Chinese who are disposed to elevate China into a civilized nation, following in the footsteps of Japan. They realize that this can only be done with the help of foreigners, and are therefore disposed to the "open door" as one of the measures to liberalize and enlighten China through the introduction of foreign capital and foreign methods. It is assumed that the basis of this representation from the American Association is apprehension that the conservative party surrounding the Empress Dowager, in satisfying their animosity against the reformers, will excite the dormant anti-foreign feeling among the masses of Chinese to a degree that will make the "open door" impossible of attainment.

It is a curious fact that our Minister to China, Mr. Conger, so far has made no representations to the State Department touching this subject. He has reported to the Department that serious attacks have been made upon the American missions in Shanghai by the "boxers," a powerful and numerous anti-foreign league of Chinese. It is this same organization which has attacked some of the French missionaries in that quarter of China, and have even carried their operations to the very doors of Kiau Chau, the German holding in North China. Upon the Minister's representations, the State Department has decided that an American warship shall be dispatched from the fleet at Manila to the nearest convenient port to the seat of discord, probably in this case, Taku, at the mouth of Pichow river, or Wei Hai Wei.

It is expected, however, that the Chinese Government will be able to repress the "boxers" without any action on the part of the American warship. It is distinctly understood that this little naval demonstration will have no connection with the struggle now going on between the Empress Dowager's party and the reformers, but this matter is regarded as a matter of purely internal politics, with which our Government has no right to concern itself. It is probable, therefore, that this decision on our part indicates the character of the response that will be made by the Department of State to the cablegram from the American Association.
