Somewhat Ancient. Jack Rapid (behind the scene examining a coin suspended from one of the bracelets of the premiere danseuse) Why, I don't like it so well that I thought I'd p-p-p it on my forehead. So I went out and ch-chopped down an apple t-t-tree that he'd taken lots of p-p-pins with. And when he c-came home and asked about it I said: 'I c-cannot find a p-p-pin, father; I d-did it up with a p-p-pin' (that I had not told the t-t-tell since). -Cincinnati Times.

How Satin Was Discovered. Octavio Mai, a silk weaver, finding business very dull and not knowing what to invent to give a new impetus to the trade, was one day pained to and fro before his loom. Every time he passed the machine, with no result in view, he would pick up threads from the warp and put them to his mouth, which soon after he put out. Later on he found the little ball of silk on the floor of his workshop, and attracted by the brilliant appearance of the threads, he repeated the experiment, and by using certain magnifying preparations succeeded in giving satin to the world. -Exchange.
