THE QUEEN OF WHIST.

Her Majesty Is a Very Clever Woman Named Miss Kate Irwin Wheelock.

Mrs. Jackson W. Showalter has long been known as the queen of the royal game of chess, and now whist is also the happy possessor of a fair monarch. Her name is Miss Kate Irwin Wheelock, and the title was given her by "Cavendish," the whist king. She teaches whist for a livelihood and is known by players from one end of the country to the other. Miss Wheelock

MISS KATE IRWIN WHEELOCK.

first attracted attention in whist circles about nine years ago, when her rare proficiency led friends in Milwaukee to urge her to instruct beginners in the game.

Last year Miss Wheelock was the only woman playing at the whist congress in Chicago, and she has been honored with a membership in the American Whist league, an honor no other woman has ever received before or since. As a teacher she is a great success. In San Francisco not long ago she taught 240 pupils in a single week. She is now contemplating trips to Europe and to Hawaii, owing to the solicitation of whist players who are anxious to receive the benefit of her instruction. Her method of instruction is her own, but the whist she teaches is the whist of Cavendish.

They Play Good Ball. The University of Michigan Nine Is One of the Northwest's Crack Teams.

College baseball is not so old in the great northwest as it is in New England, but for all that several of the nines in the former section put up a very good article of baseball. One of the best is the University of Michigan team. Last season the crack amateurs of the Wolverine State made a 10 days' trip through Ohio, Kentucky, Illinois and Wisconsin, played eight games with strong college nines and won every

game. The club also made a creditable record this year. One of the catchers of the team is Richard Apperson, a budding young legal luminary from Kentucky.

He has had several years of experience on college nines and makes a remarkably good catch. H. B. Krogman, one of the team's best pitchers, was in the box last year and did the bulk of the hard work. He pitched in the 11 inning game Michigan lost to Cornell by a score of 6 to 5. He is cool, speedy and reliable and has good control over the ball. C. B. Smeltzer and J. W. Hollister are change catcher and pitcher of the nine respectively. The team is considered the star college team of the west, but it would undoubtedly come out second best in games with the strong teams of Princeton, Yale and Harvard.

Talk of the Tennis Players. Fred Hovey, the famous tennis player, will be seen very little on the courts this year. He is studying law.

Many tennis sharps believe Clarence Budlong may develop into the sensational player of 1894.

Walter Larned has temporarily abandoned tennis for baseball and is playing on the Columbia college team. He will be on foot, however, when the tennis season is well under way.

Miss Aline M. Terry, the lady champion of America, has become a New Yorker and will defend her title this year.

It is reported that Ernest and William Renshaw, the famous English players, will visit America this year. The rumor will probably prove a false one.

Hill's Long Unicycle Ride. From New York to Chicago on a unicycle is the latest novelty in long distance wheeling. H. H. Hill, a young cyclist of Geneva, N. Y., is ambitious to perform the feat and recently started from New York on his difficult journey. His unicycle is the front wheel of an ordinary machine and has no saddle. The Geneva cyclist, who is only 17 years of age, is the first man to attempt to ride a distance on public roads on a unicycle.

Hill is accompanied by his manager, Eugene Peltica, who rides on a safety bicycle. At Chicago Hill will change his unicycle for a safety and will then head for San Francisco. From there Hill and his manager will go to the Sandwich Islands.

Colored Wheelmen May Race. Chairman Raymond of the racing board of the League of American Wheelmen has decided that colored riders are eligible to compete at race meets held under league rules. Mr. Raymond holds that the action of the league in barring colored men from membership in the organization did not make them ineligible to race in L. A. W. club meets. The insertion of the word "white" in the league's constitution, he explained, only deprived the colored men of L. A. W. membership privileges, but in no way affected their status as amateur racing men. All the colored riders in the country can now enter as many meets as they like, provided they do not violate the rules of the league.

Supporters of the Actors' Fund. It is an extraordinary fact that the number of actors and actresses who maintain membership in the Actors' fund by payment of annual dues of \$2 is less than 400. Most of these are humble workers in the profession, whose sympathies in the objects of the fund seem to be more acute and practical than those of their better paid and more conspicuous brethren, who, strange to say, are generally the greatest fault finders of the management.
