Ordinary Printing:

It "answers the purpose?" Does it? A very important item in connection with your stationery is the impression it leaves. It may reveal a slovenly disposition if it is not carefully and tastily executed.

We are very careful as to the wants and needs of a customer, and watch faithfully all details in connection with an order large or small. Our facilities are almost ideal and make it comparatively easy for us to do so. Perhaps this will explain why we have been busy during the dull times.

Of course our prices are right.

They do first rate for foundations, and any rough work. A wall of "bats" costs about half what a wall of whole bricks cost.
