Questions Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for Indigestion or Biliouness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Leonard Henley.

IS IT A FIRE BUG?

Two Attempts to Burn Stables at the Inn.

Monday morning at about 9 o'clock fire was discovered in a stable loft in the rear of the Colonial Inn. An alarm was given, and by hard work the fire, which was found in some baled hay, was speedily quenched. It was thought the fire was started by someone carelessly dropping a match or cigarette.

Tuesday morning at about the same time of Monday's blaze, fire was discovered in the loft of another stable, or carriage house, in the rear of the Inn. Only prompt work saved the adjoining buildings, although the stable was completely destroyed. Loss about \$150. No insurance.

On returning to the hotel Mr. Spencer discovered that some person had pried open his cash drawer, using a screw-driver for the purpose. There were nearly \$200 in the drawer, but the thief in his haste did not take time to get it, having evidently been frightened off by the return of some of those who were fighting the fire.

It is evident that the thief set the stable on fire in order to rob Mr. Spencer's cash drawer during the excitement. Suspicion points to a colored man, but no arrests have been made.

Monday night a big hall lamp exploded in the corridor of the Inn Annex. The fire was put out without damage except to carpets.

A Painful Accident.

Mr. Russel Binns, a clerk in the L. W. Lane & Son store, was quite painfully injured about the shoulder Sunday while attending services at Lebanon church Warwick county. A Big Brickyard.

We recently visited the new brickyard established by Mr. W. L. Jones in Delks, on College creek. Mr. Jones has performed a herculean task in preparing a yard for his business. He has placed in the yard a plant with a capacity of 10,000 per day, and he hopes to soon get down to business.

We were greatly impressed with the immense amount of fine brick clay on Delks, and this, combined with excellent water transportation, will make that section a great brick centre. Mr. Jones and his son, Mr. L. Henley Jones, are enthusiastic over their new enterprise, which ought to be very successful. The business will employ a large force of hands.

The law holds both maker and circulator of a counterfeit equally guilty. The dealer who sells you a dangerous counterfeit of DeWitt's Witch Hazel Salve risks your life to make a little larger profit. You can not trust him. DeWitt's is the only genuine and original Witch Hazel Salve, a well known cure for piles and all skin diseases. See that your dealer gives you DeWitt's Salve.—L. Henley.

After many intricate experiments, scientists have discovered methods for obtaining all the natural digestants. These have been combined in the proportion found in the human body and united with substances that build up the digestive organs, making a compound called Kodol Dyspepsia Cure. It digests what you eat and allows all dyspeptics to eat plenty of nourishing food while the stomach trouble is being radically cured by the medicinal agents it contains. It is pleasant to take and will give quick relief.—L. Henley.

HABIT IN A HORSE'S WORK.

A Contractor's Animal That Was Useless When a Groceryman Bought Him.

"When I retired from the contracting business a short time ago," said a well known man, relates the New York Sun. "I had a number of horses that I was anxious to dispose of; among them was one named Jerry, which for several years had been used to working on the drum. In such work a horse becomes accustomed to lifting his feet high to avoid striking the hoisting ropes. When the horses were put under the hammer Jerry went to a Harlem grocer.

"About a week later the purchaser of Jerry called at my house and told me he had a lot of trouble with the horse. He said that Jerry would go a short distance when he would stop short and lift his feet high, and after doing this would go a little further only to repeat it again. I told the grocer why the horse stopped short and lifted his feet and also advised him to look up some contractor and sell the animal to him for hoisting purposes. He did so, outfitting me that he received a larger price than he paid me for the horse."
