**"THIS IS A HORSE"**

ONCE there was a small boy who wrote "This is a Horse" after trying for hours to draw a copy on his slate of a thoroughbred racer. He admired the horse, wanted it, but had neither the ability nor the experience to get him. He therefore tried to draw one. When his labors were complete, he looked first at the genuine article, then at the miserable imitation, and after long, deep study wrote THIS IS A HORSE, realizing his failure and inability to reproduce the genuine, and he knew without written below, no one would recognize what he had tried to make. Would-be competitors have tried for years to imitate Grape Tobacco. They make his a piece of stouter case, but of less weight, and put in it all sorts of various concoctions, mixtures and kinds of Tobacco, but all failed to get the business and finally hit upon the small boy's plan, and printed on the tin "BOMEBODY'S SUN CURED." They all advertise and tell you that BOMEBODY'S SUN CURED is valuable. Of course it is (it cost about 25 cents per thousand) but how about the miserable imitation of Grape Tobacco the tin is on? BOMEBODY'S Sun Cured tin no more makes good Tobacco than does THIS IS A HORSE makes a valuable genuine horse.

**Heaven Is Not Far Away.**

Watch and wait, sad heart, so dreary,  
Heaven is not far away.  
Angel bands are pointing upward,  
To a home where you may stay—  
Stay forever without sorrow,  
Rest forever night and day,  
Watch and wait, sad heart, so dreary,  
Heaven is not far away.

Near the Rock of Ages standeth,  
Loved ones who have gone before.  
While the Pearly Gates of Heaven  
Open wide to rich and poor.  
Hope, sad heart, so lone and dreary,  
Spotless angels lead the way.  
While they murmur softly, gently,  
Heaven is not far away.

**Women as Well as Men Are Made Miserable by Kidney Trouble.**

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar boxes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root—Dr. Kilmer's Swamp-Root—and the address, Binghamton, N. Y., on every bottle.

**Toano Topics.**

Toano, Va., Oct. 4.—Quite an enthusiastic number of school patrons met at Banks' Hall Wednesday evening to further the interest of the proposed graded school at Toano. Congressman John Lamb, always ready to help in every good work, was on hand and entertained us with one of his helpful speeches along educational lines, after which the contributors organized by electing E. S. Meanley chairman, and C. R. Marston secretary. A committee from among the contributors was elected to select a site for the school and report as early as possible to the school board.

Miss Lucy Taylor, of Richmond, is visiting friends at Lightfoot and Toano.

Mr. G. A. Richardson is quite ill at his home in Toano.

The potato crop is looking well, and good results are expected with a late fall.

**Letter to Mr. P. B. Clowes,**  
Williamsburg, Va.

Dear Sir: We shall feel obliged if you write us how you came out on your first few jobs Devco, as to gallons expected and used.

Take job A. You made your price expecting to use 25 gallons Devco, and used 15. Job B. You expected to use 15 and used 10. And tell us what paint you had used before. Of course you judge Devco by what you have used before.

Here's how a few came out:

M. A. Thomas, painter, Lynchburg, Va., writes: My first job with Devco, I estimated 37 gallons, it took 25. Since then I have used nothing else.

C. B. Edwards, Raleigh, N.C., had used 40 gallons paste paint on his house, bought 30 gallons Devco; A. E. Glean, winter, said it wouldn't be enough. Had 16 gallons left.

Major W. W. Carroll, Monticello, Florida, writes: Painter estimated 35 gallons for my house; took 20 gallons Devco.

Gilmore & Davis Co., contractors and painters, Tallahassee, Florida, say 2 gallons Devco spreads as far as 3 of any other paint they know, and covers better.

S. A. Bullard, painter, Sanford, Florida, estimated 50 gallons for Odd Fellows and Masonic Halls; they took 29 Devco.

Jones & Rogers, Merkel, Texas, estimated 10 gallons Devco for Mr. Pratt's house and bought 5 gallons for first coat, it painted two coats.

Erb Springall Co., San Antonio, Texas, painted two houses, same size for D. J. Woodward, one lead and oil, the other Devco. Devco cost \$12 less for paint and labor.

Tom Macey's painter, Walnut Springs, Texas, estimated for his house 10 gallons Devco; he had 4 left.

You see how it goes. Even the best painters can't guess little enough at first.

Yours truly,  
F. W. DEVOE & CO.,  
New York.

P. S. J. H. Stone sells our paint.

**Education—Insanity.**

"The true object of education is to train and discipline the mind so that it may be able to master any question, however difficult or abstruse. What is learned in the class room is only the beginning. Learners are expected to go on and study for themselves, knowing the good from the bad, and retaining the good." Unfortunately the system breaks down before the mind has freed itself and is at rest in morality. To prevent break-downs the colleges and universities have established degrees, and it is well not to go beyond the fixed degrees, in after association, that confusion immorality or insanity may be avoided.

When a child is born it is indebted to the world for all there is in it. The insane idea is prevalent among graduates and others—"the world owes me a living; education entitles me to live without work, labor or mental or physical exertion of any kind." Insanity and crime result.

The degree of M. A. is worth nothing if it has not been bestowed on a moral individuality. College graduates are supposed to have incomes sufficient to maintain them in the life of a colleague or collegian at the seat of college or among like degree men at home. "Commencement" means the beginning of mind-life and mind-life entitles to nothing save association with mind-life.

Scholars, beware, and obtain morality, and escape confusion, insanity, the vices and crime.
