## KENNEDY SAYS THE STRIKE IS LOST

GREAT NORTHERN SUPERINTENDENT SAYS THAT MEN ARE RETURNING

## TRANS ARE MOVING

WILL GIVE CREDIT TO STRIKERS FOR REFRAINING FROM OVERT ACTS

"There is no telegraphers' strike; the strike is lost!" announced H. A. Kennedy, assistant general superintendent of the Great Northern road, yesterday afternoon. "The men were half hearted on the start, didn't believe in the strike at all, and most of them would be glad to have the old status of things restored today."

"The following telegram indicates the trend of matters elsewhere on the road."

"MINOT, N. D., Aug. 3.—H. A. Kennedy, Spokane, Wash.: Superintendent Nicholson advises that the chairman of the Dakota division of the O. R. T. has telegraphed his resignation to President Perham. Every agent and operator interviewed today has accepted the new schedule and gone to work. All trains on time. J. M. Davis.

"Assistant General Superintendent, Central Division."

"We now have 61 agents and operators working on the Spokane and Cascade divisions, which is 55 per cent of the normal force. Today we had five accessions to the working force by men who had gone out on strike and returned to work. On the Cascade division only three agents are not working. Agents have instructions to ship perishable freight and less than car lots as heretofore to all stations with the exception of not to exceed six points. The probability is that three more agents will resume work within the next 24 hours."

"One thing I give the strikers credit for and feel gratified over is that they have not attempted to interfere with our circuit by any foul means. This is sometimes done under circumstances now existing, and I give our men credit that they have avoided such actions."

## THREE TRAGEDIES AT ROSSLAND

MAN BURNS ON LIVE WIRE—BOY DROWNS AT PICNIC AND GIRL DIES OF FRIGHT AT SIGHT OF DROWNED BOY.

ROSSLAND, B. C., Aug. 5.—L. M. Hayden, local superintendent of the West Kootenay Power and Light company, was electrocuted this evening. He was working on the Silica-Jumbo circuit of the company and was repairing some wires on top of a pole.

When he had almost finished he sent a lineman back to the station at Black Bear mine, half a mile away, and told him to telephone the station to turn on the power.

Hayden lingered longer than he should over his work and when the current was turned on he was still on the crossarm and when the lineman returned he found Hayden's lifeless body resting on the wires.

Reginald McIntosh, the 13 year old son of Harry McIntosh, was drowned in the Columbia river yesterday afternoon while on at a picnic given by the Methodist church.

Flora Anew, the 9 year old daughter of George Agnew, was found dead in her room this morning. She had attended the picnic yesterday and saw the lifeless body of Reggie McIntosh taken from the water and it is thought that the excitement of the day and the tragic death resulted in heart failure.

When found she had been dead for some time.

## NOTED MEN VISIT OUR CITY THIS MORNING

TAKE AN EARLY MORNING DRIVE THROUGH WENATCHEE AND VICINITY

## TALK OF STRIKE

THINK THE VALLEY HAS A GREAT FUTURE—LARGE CITY WILL BE BUILT HERE

A party of Great Northern officials, consisting of L. W. Hill, vice president; R. Campbell, 4th vice president; F. E. Ward, gen'l manager; W. W. Broughton, freight traffic manager; D. Miller, First vice president of the C. B. and Q. railroad, and Mrs. Miller, and George F. Baker Jr., of New York, came through here this morning on a special train on their way to the coast, most of the party taking advantage of a short stop that was made, to take a drive through the Wenatchee valley.

The party is on a pleasure trip and has been a week or more on the way from St. Paul. They expect to arrive in Seattle tonight. From there they will go to Portland to visit the Fair. They will not return by the way of Wenatchee but will travel to Spokane via the O. R. and N. railroad, visiting points of interest in Oregon.

Mr. Miller was formerly vice president of the Great Northern and it was on account of his desire to see Wenatchee that the stop was made here. Immediately upon arriving here at 7:30 this morning, Mr. Miller and others of the party entered carriages that were waiting for them and were driven through the city and valley. On his return to the car, Mr. Miller was very enthusiastic in his praises of Wenatchee. He said:

"This is the first time that I have been in Wenatchee since my appointment on the Burlington, and the changes that have taken place in the short while that I have been away from your city, are startling. I have always had a great deal of faith in the future of Wenatchee but I must say I did not expect to see such strides forward as has been made in the past few years. I believe that there will be a city here that in time will be second only in size to the large cities of them."

Mr. F. E. Ward when interviewed regarding the strike situation said:

"I left St. Paul before the telegraphers' strike was begun and have kept in touch with it as I travelled west. I believe that the railroad officials have the situation well in hand and the only injury that has been done is a slight slowness in handling freight at various points along the line. A large percentage of our operators have returned to work and more men are joining them every day. We have no trouble in handling trains and the situation grows brighter every day. I wish to say that operators on the Great Northern system are, in some respects, higher paid than on any other road in the United States. As I understand the situation, the dissatisfaction was not so much with the Great Northern as with the Northern Pacific but the union officials decided to hang together and strike on both lines. Our men are with us at heart, though they are forced to obey the laws of the union. To illustrate: one of the local chairmen of the order on the Dakota division of this road handed in his resignation and returned to work, taking most of his fellow employees on the division back to work with him."

Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At U. G. Pogue Drug Co., 25 cents.

## DEATH FOR MEN WHO GO TO PANAMA

FEVERS LURKING IN THE YELLOW MISTS OF THE TROPICAL CHAGRES RIVER

## DOZENS GO INSANE

ATMOSPHERE SO MOIST THAT MEN WRING WATER FROM CLOTHES BEFORE DRESSING

PANAMA, Aug. 5.—Laborers are wanted on the big ditch in Panama. No cravens or weaklings need apply—that is, no cravens who are afraid of the fevers lurking in the yellow mists of the Chagres river, and no weaklings who cannot stand under a sky that bends overhead like a molten ball, and labor in a ditch a hundred feet deep, in mud up to the ankles, in humidity that drives men mad, and in a plague of flies and mosquitos and noxious insects.

Yet men will go to their deaths just the same for Uncle Sam holds forth inducements and the ditch must be built.

Even under the improved conditions since the United States assumed control, Panama is still "the garbage spot of the earth." The streets are filthy and odorous and even the strongest laborers from the states find the climate enervating and demoralizing and are unable to withstand the awful heat after a few days work.

Dozens of laborers are confined in the insane asylum, a quadrangle of noisome and breathless cells around a cement covered court, so hot underfoot that it can scarcely be traversed.

A laborer may escape yellow fever but there are other human ills which are almost inevitable. Acute malarial fever is one of these, and once firmly planted in the system it means either a change of climate or a slow dragging death.

Even now, with the complement of laborers not nearly filled, the ambulance is constantly on the go. When the French were building the canal there were dozens of vehicles on the go day and night, conveying the sick to the hospital and the dead to the graveyard.

Even at Culebra, the highest of the island stations, the atmosphere is so moist that clothing left off at night cannot be resumed in the morning without wringing the water out of them.

## GOVERNOR ORDERS GUARDS DISCHARGED

SOUGHT TO GAIN A VOTING RESIDENCE IN WALLA WALLA BY MERELY HIRING A ROOM IN THE CITY.

OLYMPIA, Aug. 5.—Governor Mead has instructed Warden Kees, of the Walla Walla penitentiary that it is his duty to dismiss Charles B. Wood, captain of the guard, and D. H. Woolery, H. Kinsman, R. R. Hazleton, T. F. Donahue, Fred Scott, W. H. Dixon and C. L. King, employed as guards at the penitentiary. The action of the governor is the outcome of an investigation of charges of perjury made against the men, and subsequently dismissed in the superior court, in connection with their registering in Lewis precinct, Walla Walla, prior to the recent city election.

May 17, Wood, as related in the governor's letter, engaged two rooms in an annex to the Palouse hotel and 21 men were registered as occupants. In the early part of June they applied at the office of the city clerk for registration, gave their residence as the annex and were registered on signig what purported to be an oath stating their qualifications.

The penitentiary, where the men are employed is not in the Lewis precinct, and the state provides sleeping quarters and board for all its employees at the institution and requires them to spend a greater portion of their time, day and night, there.

## I HAVE A MAN

Who wants a large, well improved fruit farm close to town. Is not afraid of the price if the place is worth it. Tell me what you will take, QUICK.

ARTHUR GUNN

.. REAL ESTATE AND FINANCIAL AGENT ...  
Cor. Wenatchee Ave. and Palouse St.

## A FIVE-ACRE HOME

For \$900

This snap will not last a week. All in crop. Small house. Small barn. BE QUICK.

BOUSQUET & HOLM

## Did You Ever Stop to Think

That every time you spend a dollar not only that dollar but also the interest on it is gone for all time. Open a savings account with a dollar and not only have it for a rainy day but also the interest. Full information as to our Savings Department given on application in person or by letter.

## HEAVY RAINS PUT HE HAS ASKED A CHECK ON UNCLE SAM TO HELP ARMIES

CHINESE ASSERT DOWNPOUR OF PRESENT RAIN WORST IN TWENTY YEARS

CHICAGO, Aug. 5.—A special cable to the Chicago Daily News from the staff correspondent with General Nogi, says: Last week as a result of a sudden torrent of rain two Chinese carts with eight horses and two drivers were completely swallowed up on the main road leading toward Harbin. Dispatches from Korea state that the Japanese have begun a simultaneous advance from Kwachodo against the Russians but that the north columns were checked under pressure of the Russian advance detachment. Japanese warships are reported to be cruising off the mouth of Peter the Great bay, on which Vladivostok is situated. Chinese arriving from the south say that the Japanese are most active in establishing trade relations in southern Manchuria. Over a score of businesses have been established in that section and Japanese traders follow closely in the wake of the army.

## WHAT PERHAM SAYS

President Perham of the Telegraphers Union Says Railroads are Badly Crippled by Strike

ST. PAUL, Aug. 4.—The striking telegraphers will undoubtedly have the Northern Pacific and Great Northern roads seriously crippled today. Northern Pacific passenger No. 4 has been annulled and is running as No. 2. Perham says all passenger trains are seven to fourteen hours late, while freight traffic is completely paralyzed.

No violence or accidents are reported. Seventeen non-union operators have left for the west.

W. J. Bryan, Jr., in Hospital.

CHICAGO, Aug. 4.—William J. Bryan Jr., is lying at the Presbyterian hospital where he underwent an operation yesterday for the removal of an abscess on his right knee, brought about by inflammation that began with a corn on his foot. Young Bryan was brought to the hospital yesterday from Winona Lake, Indiana, on a fast train. He is a student at a military academy.

GOVERNOR OF PLAGUE STRICKEN STATE FINDS SITUATION BEYOND HIS CONTROL

WASHINGTON, Aug. 5.—President Roosevelt tonight forwarded to Surgeon General Wyman of the public health marine hospital service, a telegram from Governor Blanchard of Louisiana requesting that the United States government take charge of the yellow fever situation in New Orleans. The president directed that the surgeon general take every step in his power to meet the situation in New Orleans and to notify him what further action is advisable and possible for the federal authorities to take. President Roosevelt said:

"Please take every step in your power to meet the situation in New Orleans and at other places, and notify what further action for federal government to take. Would like full report from you as to what should be done. Please confer with the surgeon general of the army and navy if, in your judgement, this is wise."

Dr. Wyman has acknowledged the president's telegram and will report tomorrow.

Force Operator to Quit.

BUTTE, Aug. 4.—Ralph E. Spurrier, a telegrapher and formerly a member of the Mill and Smeltermen's union of Butte, refused to join the striking operators on the Northern Pacific and tonight several hundred smeltermen held a meeting and marched in a body to the depot, surrounded the structure and compelled Spurrier to quit work under a pain of "being escorted out of town," an expression which is significant in Butte circles. Other operators were looked for but none were found.

A Creeping Death.

Blood poison creeps up toward the heart causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at U. G. Pogue Drug Co.
