DENOUNCE TERMS OF PEACE TREATY

EXCITEMENT BREEDS RIOTS

Mass Meeting Called to Protest Against Action of Government Prevented by Police

TOKYO, Sept. 7.—The first manifestation attendant on the popular anger over the terms of peace arranged with Russia took place yesterday. A mass meeting to protest against the action of the government was called to take place at Hibiya Park, but the police closed the gates and attempted to prevent the assemblage of the people. The citizens protested against the action of the police and finally the gates were thrown open and a large crowd gathered and voted in favor of the resolutions declaring the nation humiliated and denouncing the terms upon which the treaty of peace was arranged.

The crowd was serious in its conduct rather than angry and the police handled it discretely. The gathering eventually dispersed in an orderly manner.

Later on, however, a crowd attempted to hold a meeting in the Shitimi Theater and the police dispersed it. A portion of the crowd then proceeded to the office of the Kokukim Shimbara the government organ and began hooting. Three employes of the paper armed with swords appeared at the doors of the building and checked the attack, the police then dispersed the crowd.

It was thought that the trouble had passed when suddenly a portion of the crowd made a rush at the building, hurled stones and damaged some of the machinery. Several persons were injured during the attack, but the police eventually cleared the streets of the crowd and arrested a number of the rioters. The disorder is not general and the situation is not serious.

Similar meetings have been held at Osaka and Nagoya which in round terms denounced the government and asked them to resign. The general sentiment throughout the country seems to favor reactionary measures but it appears that the people will eventually accept the result of the peace conference, however disappointing it may be.

BUBONIC PLAGUE CONTROL IS HELD IN THE CANAL ZONE

Several Wharfe Laborers Die and ResidentS of the Isthmus of Panama are Panicstricken

AFFECTS WORK ON CANAL

Almost Impossible to Carry on Work if Laborers Believe That District is Plague-Stricken

COLON, Sept. 7.—Bubonic plague has made its appearance in the canal zone, and several laborers employed on the wharf at La Boca died of the disease Aug. 26. The official statement which was not made public until today has caused almost a panic. Central America and Mexican ports have been closed to freight from the isthmus and business is almost at a standstill.

At the time of the death of the laborers it was believed that they died of bubonic plague, but no confirmation could be obtained. The medical authorities took the matter under consideration and today made public the result of their findings. They announced without reserve that the deaths had resulted from the plague.

Jerónimo Ossa, the Ecuadorian Consul at Colon, has issued an official statement in which he denies the presence of the plague in the isthmus. He does not deny that the deaths resulted from the plague but says positively that there have been no additional cases.

While his announcement is made for the avowed purpose of preventing a panic among the people of the isthmus and the quarantining of all other isthmian ports he has been only partially successful. His statement has been received with satisfaction by many residents of Colon, yet it has not had the effect of keeping other ports open for the receipt of isthmian freight.

Many Mexican and Central American ports have already refused isthmian freight. Several thousand tons of freight for Central America and Mexico is now tied up on the isthmus and this freight is increasing with the arrival of every vessel.

While every effort is being made to keep other ports open and to allay the fear of the residents of the isthmus, the health authorities are not idle in preparing a campaign against the plague. One of the most serious features of the epidemic, even though it is kept within bounds and not allowed to reach alarming proportions is the effect that it will have upon the laborers of the canal and the railroads under construction. All laborers are deathly afraid of the plague, and it will be almost impossible to secure enough men to carry on the work if there is belief that the district is plague-stricken.

Profits of the Insurance Companies Used to Pay Many Officers Exorbitant Salaries

NEW YORK, Sept. 7.—The amounts of salaries paid to officers of the New York Life Insurance company were given by John O. McCall, secretary of that company, before the joint legislative committee today. He stated that in 1899 he went to work for the company for \$2500 and that he now received \$14,000.

The president's salary he said, was \$100,000. The salary of the first three vice presidents were \$25,000, \$35,000 and \$40,000 and for the three second vice presidents, \$30,000, \$21,000 and \$18,000 respectively. There were Mr. McCall said, about 25,000 proxies in the office of his company made out in the names of the president and vice presidents. The Metropolitan Life insurance company was represented in the witness box by Vice President Fisk and Controller Eckert. The latter said that in an election in 1904, out of the 38,940 votes cast all except three or four were voted by proxies. Mr. Fisk said the president's salary was \$100,000 his own, \$75,000 and the lesser officials from \$25,000 down.

Lives 23 Days on Water

VIENNA, Sept. 6.—Mrs. Shenk, who has just been exhibiting herself in a glass cage, has lived for 23 days on sixty bottles of mineral water.

Crowds came to see her sitting in her glass box at the Prater. She occupied her time in studying the part of Marie Stuart in Schiller's play, for she is by profession an actress, and only fasts as a holiday recreation.

When she left the cage her voice was strong and her step elastic. She made a hearty supper of veal, trout and beer.

She will repeat her fasting feat in a month.

OFFICERS HOT ON THE TRAIL OF PAT CROWE

Patrolman Jackson Attempts to Capture Crowe and is Shot in the Leg

MAKES TEMPORARY ESCAPE

Every Effort will be made to Capture the Desperate Fugitive and his Companion

OMAHA, Sept. 7.—During a running fight between police officers and a man believed to be Pat Crowe, the alleged kidnapper of Eddie Cudahy, and a companion, just before midnight last night Patrolman Jackson was shot through the leg and the two men made their escape. None of the other officers were injured. The fight occurred on lower Sixteenth street where the men were discovered by officer Jackson in a saloon.

Ever since Crowe returned to Omaha several weeks ago, Chief Donahue has had a force of officers, most of them in plain clothes, seeking to capture him. It was learned yesterday that Crowe was in Omaha and extra efforts were made to capture him. About 11 o'clock last night Jackson saw a man whom he recognized as Crowe. He sent another officer to the telephone to secure additional officers, meantime watching the man himself. The men left the saloon just as a car carrying more officers came up and Jackson started to follow them. Seeing that they were followed the men opened fire on Jackson, one bullet breaking his leg. The other officer started in pursuit but the fugitives made their escape.

While the police have no positive knowledge that one of the men was Crowe, they do not hesitate to believe that such is the case. Officer Jackson who is acquainted with Crowe says there can be no doubt of the identity of the man. He says the man recognized that he was an officer and took a desperate chance of getting away by using his revolver.

May Wood Wants \$25,000 from New York Senator for Services She Rendered Him

OMAHA, Sept. 7.—May C. Wood today filed a civil suit in the circuit court against Thomas C. Platt United States Senator and the United States Express company for \$25,000 for alleged services rendered the defendants. Miss Wood's petition alleges that while she was employed in the post-office department at Washington she rendered services to the defendants by "tipping off" the inside workings of the office and by assisting in keeping out of Postmaster General Payne's annual report of May 1903, a recommendation of the "post check" system, thus saving the express company several hundred thousand dollars. In the affidavit Miss Wood sets up the nonresidence of the defendants and asks the court to grant a garnishment of the express company.
