## ARREST RIOTERS IN TOKIO JAPAN

Sixteen Hundred and Fifty Rioters Arrested and Locked in Jail

## 160 ARE FORMALLY CHARGED

Newspapers Have Resumed Publication and quiet continues at Tokio

TOKIO, Sept. 11.—The total number of riot suspects in custody exceeds 1650. It is stated that formal charges have been made against 160. The remainder will probably be released. It is expected that the government will take a lenient attitude toward those to be tried. General Sakuma and staff visited and inspected the guards throughout the city today. The restaurants have been reopened and conditions are resuming a normal aspect.

The suspensions against the newspapers Nippon, Jimmin, Yorodzu, Niroku, and the Miyako have been withdrawn and they have all resumed publication. The anticipated trouble in the Fukazawa district last night was not realized.

Flowing Wells Yields Tons of Fish.

FERGUS FALLS, Min., Sept. 9.—Persons from the flats west of the city bring news of the tapping of an underground lake on the farm of Mr. Sims, near Bureau postoffice. There are flowing wells all over that locality, and Mr. Sims has just sunk one from which a large stream of water is pouring out, and with it come wagon loads of fish.

The fish are small and the smaller ones are entirely without eyes, while the larger varieties have very small organs of sight.

The fish come up by thousands, and up to Saturday four wagon loads had been hauled away from the mouth of the well.

There is nothing remarkable about the tapping of an underground stream or lake, but the people cannot understand how so many fish could have lived there and why they now come to the surface.

Noted Python at the Zoo

PHILADELPHIA, Sept. 9.—The troublesome python which escaped from an animal store and subsisted on in a cellar for three weeks on rats, and was finally captured on Tuesday last, has taken up its abode at the zoological gardens. The proprietor of the animal store who says he has grown gray in his three weeks' quest for the missing ophidian, was only too willing to part with it when an agent of the zoo asked him to place a price on the python.

The serpent was taken to the zoo and placed in a glass case in the animal snake house, along with its brother pythons. When a tape measure was stretched from head to tail it was found to measure over ten feet. There are a number of others at the zoo however, which are double that in length.

Beautiful Cloak Completed

Mrs. H. E. Gray has just completed a feather opera cape. It will be placed on exhibition in the windows of the Ellis-Forde company and then will be sent to the Portland fair to be placed on exhibition there. The cape is made of white down sewed to linen. An idea of the labor that was spent upon the coat may be gained from the fact that each feather had to be pierced with a needle and sewed to the linen by hand. Mrs. Gray values the cloak at \$300.

## RUSSIAN ARMY IS JOYFUL OVER PEACE

Cossacks Engage in Feasting and Other Forms of Celebrating the Truce

## DRINK ROOSEVELT'S HEALTH

Generals on both Sides are busily Engaged in Arranging the Armistice

GODZYADNI, Manchuria, Sept. 10.—At 1 o'clock this afternoon a Japanese commissioner, bearing a white flag and escorted by 50 soldiers, arrived at a post near the railway and handed to the Russian officers who went to meet him, a letter from Field Marshal Oyama to General Linevitch, congratulating him on the conclusion of peace and begging him to appoint Russian plenipotentiaries to arrange an armistice. Field Marshal Oyama appointed General Fukushima as plenipotentiary for his side, the letter announced, and he suggested Chakhedza as a meeting place.

The officers are observing military decorum in the strictest sense, but the soldiers, with the consent of the officers, are engaged in feasting and other forms of celebration. It will be a week more before the entire army is fully informed of the conclusion of peace, but the news was discounted long since by the prevailing conviction that since the appointment of plenipotentiaries peace was a foregone conclusion. It may be said that to the great majority of officers and men so far informed the news that the war is at an end is most welcome.

Thousands are daily drinking to the health of President Roosevelt. The correspondent, who is the only remaining foreign newspaper man with the Russian army was everywhere asked by the soldiers if he was an American, and being answered in the affirmative they captured him and tossed him high in the air, after the manner of Cossacks, while their officers gently protested against such a seemingly questionable form of showing their admiration.

Everywhere along the railway where newspapers could be obtained the soldiers eagerly scanned the news and then expressed their joy by singing, which they continued late into the night, at intervals cheering for President Roosevelt.

Apple Tree in Bloom

L. O. Hall brought to the World office today a spray cut from one of his apple trees, covered with blossoms and small fruit. The profits from one crop of Wenatchee apples are good but if the season were long enough this tree would earn two profits by bearing two crops.

Mr. and Mrs. J. E. Stone, Frank Evans and Gene Horan, of Everett, spent Sunday with E. M. Tupper, Stone, Evans and Horan left Monday morning on the up-river boat for the Slate creek district where they are engaged in mining. They are now operating the Eureka mine, now known as the "Boniat" formerly owned and operated by the well known Lane of Alaska. Former manager Johnnie Hawks, who is now and has been for some time past at the mine says that the gold that will be taken out of the Slate creek district in the next few years will surprise the world. The last year that the Eureka mine was operated it produced over \$800,000 in gold. The present owners are all Snohomish county people. Ex-Judge Denny of Snohomish county is one of the directors. Mrs. Stone will remain as a guest of Mrs. E. M. Tupper until the return of the remainder of the party in about ten days.

## MORE ARMENIANS ARE SLAIN BY TARTARS

Many Armenian Villages are Totally Destroyed and Hundreds of Persons are killed

## PEOPLE STARVING AT BAKU

Tartar Population Joined by 4,000 Armed Kurds Overpower Helpless Armenians

TIFLIS, Sept. 10.—The governor of Baku reports that firing continued last night and today, though on a smaller scale, and that few were killed or wounded. The troops and police are still engaged in preventing incendiarism and pillaging. The director of the technological institute at Baku reports, "We are starving and dying" and imploring the dispatch of necessities.

The worst news today comes from the Zangurski district; where it is reported that many Armenian villages were wiped out and hundreds of persons killed. Help is slow in reaching there, owing to the distance from military centers. The whole of the Tartar population has risen and has been joined by 4000 armed Kurds from the Persian bank of the river. The victory has protested to the Persian authorities.

It is reported that the Armenians and Tartars in Shushaba have been reconciled; that the population has been disarmed and that the foreign residents have returned to their homes. General Takaischwil telegraphs that the disorders are decreasing.

Telephone Line in Forest Reserves

Washington, Sept. 7.—For the better protection of forest reserves, the forest service, in cooperation with the weather bureau, will install a system of telephone lines and stations on them as rapidly as possible. The first system will be established in the Big Horn forest reserve in Wyoming. This telephone service will enable forest rangers to notify each other when forest fires break out. This system will be extended in due course to reserves in Washington, Montana and Idaho.

## WHEAT FARMERS FORM GIANT POOL

Wheat Farmers of Central Washington Combine to Hold Wheat for Higher Prices

## NO SALES UNTIL DECEMBER 1

Demand 75 cents per Bushel for Bluestem and will hold for That Price

SPOKANE, Sept. 11.—A giant pool to control from 1,000,000 to 2,000,000 bushels of wheat is being formed by Central Washington farmers. The movement has already been favorably received at Sprague and Ritzville. At the latter point the farmers present owned together over 130,000 bushels.

The object of the combination is to hold an immense quantity of wheat until it can be placed on the market at a net price to the grower of 75 cents per bushel for bluestem.

A mass meeting of farmers was held at Sprague Saturday afternoon to discuss the matter. An agreement was drawn binding each man signing to hold the quantity set opposite his name until December 1 next unless the whole quantity pooled could be sold prior to that date at 75 cents per bushel.

It is also stated that the movement at Sprague will be carried into other districts, and that agents of the Sprague combination are already at work along the lines of the Central Washington and Palouse & Lewiston railways.

The promoters hope to pool a million bushels at Sprague and Ritzville and a half million bushels on each of the two railways.

The price for bluestem wheat at Sprague is 60 cents and dealers declare this is the highest figure the market justifies. They do not appear to be anxious over the prospect of a pool, and they say they will await the dissolution of the pool by the expiration of the time limit and then buy the wheat.

At a largely attended and enthusiastic mass meeting of farmers at Ritzville on Saturday afternoon it was unanimously resolved to hold the wheat until the price rose to 75 cents for bluestem.

The farmers of the Sprague-Ritzville districts are said to be in excellent financial condition and well able as a rule to hold their crops for advanced prices. Only the more recent comers will be under any necessity of marketing their grain at an early date.

Poisoned by Kissing Image  
MOSCOW, Sept. 9.—Every traveler in Russia has seen the jeweled ikons, or holy pictures, that are the chief treasures of the Muscovite churches and cathedrals.  
Last week the vergers of the Church of St. Sophia at Dvinsk were horrified to observe a young man walk up to their most cherished image, a picture of St. Sophia herself, and before anyone could intervene, pound the treasured ikon to fragments with a small sledge hammer.  
The young man was arrested and it was seen that he was suffering from a terrible skin disease. Brought before a magistrate, he explained that he had committed the sacrilegious act because the ikon had given him the horrible complaint from which he was suffering. He had put his lips to it a few weeks before and within a week he had to see a doctor. The ikon was to blame and he had taken means to prevent others from suffering as he had done.  
Several physicians who were present admitted that the young man's plight was no uncommon one, and in future the ikons of Dvinsk will be put under glass.  
Stung to Death by Bees  
BUDA-PESTH, Sept. 9.—A man, a woman, and two horses have been stung to death by bees at a village close to this city. A farmer returning home from a neighboring town, left his two horse cart in the court yard of his farm house.  
The horses annoyed by the sun, shifted to a shadier corner and in so doing kicked over eight beehives. The bees swarmed out and began a furious attack on the horses.  
The farmer and his wife rushed to the assistance of the animals and in turn were attacked by the insects.  
Their cries brought the farm hands to the spot, but it was found impossible to drive away the bees, and at last the fire brigade was summoned and the hose turned on.  
When the bees were driven away it was found that both horses were dead.  
The farmer and his wife both died the same evening of blood poisoning.

VICE ADMIRAL SHIBAYAMA, COMMANDANT OF PORT ARTHUR.  
As soon as the Japanese captured Port Arthur Vice Admiral Shibayama was placed in charge of the port, and he has already raised a number of the Russian ships sunk by the Japanese fire. Among them are the battleship Perovskiet and two cruisers. Before he was sent to Port Arthur Shibayama was in command of the important naval station at Kure, Japan.
