CAR DROPS FIFTY FEET KILLING TWELVE

Accident on New York Elevated Railway Kills a Dozen and Injures Thirty

SWITCHMAN IS TO BLAME

Crowded Car Plunges Fifty Feet to Street Below Because Switch was Open

NEW YORK, Sept. 11.—Twelve persons were killed and more than 40 injured when the second car of a Ninth avenue elevated train jumped from the track and fell from the structure to the street at the junction of the Sixth and Ninth avenue lines at Fifty-third and Ninth avenue at seven o'clock this morning. The car—seats, aisles and platforms of which were thickly packed with humanity was turned bottom side up, its roof torn off and it was stood on end in the street. The heavy truck of another car fell upon it crushing out the lives of the passengers.

The fourth car and fifth cars also left the rail but did not fall to the street. The fourth car fell with terrific force against the buildings at the southwest corner of Ninth avenue, and rested against the fire escape. The passengers in the fourth and fifth cars were able to save themselves and to get to the street by climbing through the windows of the apartments from the fire escape against which the car rested.

The excitement among those in the derailed cars on the structure as they realized what had happened became intense. In the forward car the men deeming the motorman responsible for the wreck, attacked him and tried to beat him. He was dragged from his seat, but shouted for fair play and convinced the crowd that the switchman and not he was responsible.

Coroner Scholer, who was early on the scene, says the number of dead will reach ten or more. The injured numbers about 40.

The coroner has caused the arrest of the conductor of the train and four guards.

The motorman and the switchman who was on duty have disappeared and the police say they cannot be found.

"I am satisfied that the accident was due wholly to the neglect of the switchman," said Coroner Scholer. "In the first place he made a mistake in turning the Ninth avenue train into Fifty-third street, and then added to his blunder by turning the switch back in a vain attempt to divert the train into Ninth avenue again. The last mistake caused the terrible accident and the loss of life."

The switchman who is said to have been responsible for the accident was arrested later at his home. He claims he had set the switch right.

EPHRATE ITEMS

Ephrata, Sept. 11.

W. P. Davidson is enlarging his lumber yard and putting in another shed.

Wheat harvest is over but a great deal of threshing remains to be done. New wheat is selling at 57 and 60 cents per bushel. Two cars have been shipped from here.

Contractor William Billings is building a nice little cottage near Pacific ave for W. E. Hill.

Mrs. Olson, of Wenatchee, opened a short order house on Front street last week.

School began this morning. Prof. Michael and Miss Eannice Simpson are the teachers.

Dr. Potter is moving his family to town that his children may attend school.

Mr. Bergen is unloading at this point a carload of lumber with which he intends building a large barn. He is one of the Sasebrush Flats substantial farmers.

FINNS PREPARING TO FIGHT RUSSIA

Customs Officials Discover Stores of Guns and Ammunition on Barren Island

LOOKS LIKE A REVOLUTION

Steamer Load of Weapons Captured Spreads Alarm Throughout Russia

HESINGFOS, Finland, Sept. 11.—Customs officials on Saturday discovered 660 carbines of Swedish manufacture, with bayonets, and 120,000 cartridges on a barren island in the gulf of Bothnia, near Kerni. On Sunday morning a boat belonging to the customs service discovered a 300 ton steamer near Kalfskaer rock, 20 miles outside Jakobstad. The captain and members of the crew who spoke English declared that the steamer was fully loaded with rifles and cartridges, and thereupon the customs officials ordered the captain to take his vessel into port and discharge the cargo.

The steamer proceeded toward the shore, meanwhile the customs boat proceeding toward a nearby island. Suddenly several explosions were heard from the steamer and the customs officers returning found the vessel sinking and her crew in lifeboats disappearing hurriedly toward the south.

The officers immediately pressed into service a number of fishermen, who unloaded most of the rifles and ammunition on the beach. The steamer grounded in shallow water. Her name was painted over, only the letters "John Bashfton" being visible. American and German flags were found on board the vessel.

ST. PETERSBURG, Sept. 12.—The news from Finland of the accidental discovery of the importation of rifles and munitions of war in large quantities is the most serious disclosure regarding the revolutionary movement in Russia that has yet been made as it indicates an intention to form a regular military organization. The importation of revolvers to Finland, Poland and the Baltic provinces and other districts of Russia has been an open secret for a long time.

CASHMERE NEWS

Cashmere, Sept. 11.

Mr. J. M. Tompkins, of the F. & M. bank of Wenatchee, in company with Ben Downing of Fairbanks, Alaska, were inspecting some property in and around Cashmere. Mr. Downing is thinking seriously of making Cashmere his home.

Mr. Tom Bise, brother of Mrs. Paul Robertson, spent Saturday and Sunday in Cashmere.

Cashmere school opens Sept. 25th. There will be five teachers with Prof. Campbell as principal.

The Farmers Warehouse company shipped two carloads of fruit Sunday. Mrs. H. J. Olive is visiting Mrs. Marvin Chase, of Wenatchee.

Mr. Ed. Hinman, accompanied by his sister, Mrs. C. B. Clark, went to North Yakima Sunday on account of the illness of his father who is dangerously sick.

Mr. and Mrs. Joe Cunningham, of Wenatchee, were Cashmere visitors Sunday.

Leroy Wright, of Wenatchee, has bought nearly all of the available apples in this vicinity.

There isn't much love in a sensible love letter.

RIOT BREAKS OUT AFRESH IN BAKU

Situation at Baku is Growing Worse Tartars and Kurds Still Killing and Plundering

DISTURBANCES SPREADING

Fires in Oil Fields are Exhausted and Oil Men Ask Help From the State

ST. PETERSBURG, Sept. 12.—The latest telegrams from Baku state that the situation is growing worse.

Other dispatches assert that the rioters are stubbornly continuing their attacks and that the Tartars and Kurds are plundering in the "black town" district. Monday the soldiers fired into a crowd of Russian workmen, killing 17.

A dispatch to the Caucasus Oil company from Baku says that the fires in the oil fields are practically exhausted and that the military authorities are stationing guards in the district.

The incendiaries succeeded in setting fire to three machine shops in the Oolshkin district, killing the proprietor of one.

ST. PETERSBURG, Sept. 12.—News from many parts of the Caucasus is very disquieting. Disturbances are spreading all over the region and most seriously.

Oil men representing an annual production of 600,000,000 gallons met today and determined to ask the state for assistance in obtaining 20 year loans without interest to cover the losses resulting from the catastrophe, without which loan, they declare, 108 companies will be forced to discontinue business.

Real Estate Transfers

United States to J. R. Watson, 150 acres near Lake Chelan, homestead.

United States to D. S. Gould, 100 acres near Leavenworth, homestead.

George Bedte you to Jacob Maurer, 1 lot in Chelan Falls, \$100.

J. B. Fosdick to O. F. Deckson, one lot in Chelan Falls, \$1.00

JAPANESE WANT PEACE TREATY BROKEN

Mass Meeting Demands that Peace Agreement be Broken and Ministry Resign

EMPIRE'S HONOR IS SOILED

4000 People from all Parts of the Empire Participate in the Meeting

TOKIO, Sept. 11.—A mass meeting at Osaka passed the following resolution without hindrance on the part of the police:

"The peace that has just been concluded between Russia and Japan forfeits the fruits of victory and sows the seeds of future complications and danger. The government's high handed and unconstitutional measures have resulted in unexpected disturbance to the peace of the city in which the mikado resides. The empire's honor has been soiled, and the spirit of the constitution lost. Never has our country been brought face to face with greater dangers. Therefore, be it resolved, that we hope that the humiliating peace agreement will be broken and the government will resign."

A later telegram from Osaka says that some confusion was caused among the assemblage by men attempting to force their way into the building in which the meeting was held. This attempt resulted in 40 persons being slightly injured and no one seriously hurt. Over 20 speeches were delivered to the audience which numbered 4000. The city is displaying many half masted white flags. It is reported that persons from many different parts of the empire participated in the meeting.

Life's Best Plans

are often frustrated by sudden breakdown, due to dyspepsia or constipation. Brace up and take Dr. King's New Life Pills. They take out the materials which are clogging your energies, and give you a new start. Cure headache and dizziness too. At U. G. Pogue Drug Co., 25c, guaranteed.

PROUD OF COUNTY EXHIBIT

Leads all her Competitors in Display of Apples as a Matter of Course

Arthur Gunn returned from a week at the Portland fair Saturday, delighted with the exhibition as a whole and proud of the showing that Chelan county is making against her rivals.

Speaking of his trip Mr. Gunn said: "I think that Mr. Graham is the right man to have in charge of the exhibit. There are so many visitors to the Chelan county booth that he and his wife are not able to give proper attention to all of them. I think it would be a good plan to secure a couple of assistants for them during the rest of the fair. There are three or four hundred visitors a day at our booth and it is very necessary that some steps be taken to relieve Mr. and Mrs. Graham of some of their work."

Chelan county has a good exhibit and the best average exhibit on the grounds. We, of course, lead all our competitors in our display of apples. What we need badly is large fruit and anyone having anything unusual in this line ought to send it in.

"The fair is a good exhibition all the way through and every one who can spare the time should see it. The government building exhibits are especially good and are well worth the trip. The forestry building was a favorite with me and I found it very instructive."

Will Play Mikado Again

At the suggestion of Mrs. Frank Reeves, the Wenatchee band has decided to give another presentation of their burlesque of the "Mikado." Mrs. Reeves has promised the sale of 500 tickets at a dollar apiece. The money will be used to help swell the fund that is being raised for Chelan county week at the Portland fair.

Messrs. Prewitt, Stocker and Bousquet have been appointed as a committee to take charge of the affair. The play will be staged some time during the week following the Chelan county fair.

FAIL TO FIND COAL

Drillers Find no Coal but Plenty of Water at no Great Depth on the Southside

The men who have been drilling for coal across the Columbia river from Wenatchee, quit yesterday and took their drilling outfit to Quincy today.

Indications of coal were found at a depth of 100 feet and continued as far as to a depth of 310 feet without any improvement. The coal found was in very thin but of good quality. It is believed that the vein found was not the true vein but washings from some larger vein in the neighboring hills. Water was struck three times. Once at a depth of 18 feet, the second time at 145 feet and the third time at a depth of 275 feet. The water was plentiful and rose to within thirty feet of the surface. Though no coal was found it was demonstrated that water may be had at no great depth on the farms across the river. An indication of oil in the shape of coarse sand stone was found but the indications were not considered strong enough to warrant any further investigation.

The first investigation of the coal prospect in the vicinity of Wenatchee was in 1902, when J. E. Pheasant opened up a prospect a mile below the city limits on the west bank of the Columbia river. In partnership with A. P. Clayton he ran a tunnel into the bank 12 feet. At this point a 16 inch vein of bituminous coal was found. The work had to be abandoned as the river rose high enough to fill the tunnel.

Religious Troubles in Canada

MONTREAL, Sept. 9.—Three French Catholics in St. Louis de Mole, a northern suburb of this city, attacked the newly established Salvation Army station there and seriously injured some of the Salvationists.

As the police force at St. Louis de Mole is small, some of the English-speaking residents went to the rescue of the Salvationists and a pitched battle ensued.

More rioting is expected tonight as the Protestant residents are organizing to defend the Salvationists and will be aided by members of the English Protestant military corps.

MRS. STEPHEN B. ELKINS.

Mrs. Elkins, who is a conspicuous Washington entertainer, is the wife of Senator Elkins and a daughter of Henry Gassaway Davis, who ran for the vice presidency in 1904. She has many accomplishments and is a charming hostess. The Elkins home at Elkins, W. Va., is named Halliehurst in her honor.
