Commencement Week at Yale. New Haven, Conn., June 26.—The approach of commencement week at Yale university has attracted to New Haven the usual large crowd of alumni and friends and relatives of the graduates. The program will be ushered in with the baccalaureate address by President Hadley, which will be delivered in Woolsey hall tomorrow morning. Monday will be class day, Tuesday alumni day and Wednesday graduation day.

FORECAST FOR THE COMING WEEK.

Washington, Jun. 26.—President Taft plans to leave Washington Saturday noon on his visit to Vermont in connection with the Champlain tercentennial celebration. The president will be accompanied by James Bryce, the British ambassador, and Mrs. Bryce, and M. Jusserand, the ambassador from France, and military and naval attaches.

Unless an unexpected agreement is reached 10,000 skilled workmen, members of the Amalgamated Association of Iron, Steel and Tin Workers, who are employed by the American Sheet and Tin Plate company at Pittsburg, will go on strike Wednesday night, at which time the "open shop" order of the company becomes effective. Many unskilled workmen will be affected.

A bank deposit guaranty law, a copy of the celebrated Oklahoma law with some modifications, will come into operation in Kansas. Nearly 800 state banks will come under the law. The national banks, as a measure of protection, have already taken steps to form among themselves a deposit guaranty and surety corporation.

On the same date the bank guaranty law fathered by William J. Bryan will become effective in Nebraska. It is a limited guaranty as distinguished from the Oklahoma law, where all of the assets of all of the banks are back of the guaranty. In Nebraska only a small portion will be utilized.

A prohibition law passed by the last session of the Tennessee legislature over the veto of Governor Patterson will come into force Thursday and will have the effect of virtually putting that state in the "dry" column. The chief point of the law is its prohibition of the sale of intoxicating liquor within four miles of a schoolhouse. This will necessarily close the saloons in all cities, and Memphis will have the distinction of becoming the largest city in the world where the sale of liquor is prohibited. Six months hence another prohibition measure is to go into force in Tennessee. This measure will prohibit the manufacture of all intoxicants in the state and consequently will result in closing all of the breweries and distilleries there.

In North Dakota an interesting measure aimed at the liquor traffic is also to become effective next week. This law requires that all liquor shipped into the state must be inspected by the state pure food commissioner. Only druggists are authorized to sell liquor, and soliciting agents and C. O. D. shipments will be barred.

The forty-first annual convention of the National Woman Suffrage association will meet in Seattle, and from present indications it will be the most important as well as the largest gathering ever held by that organization.

Lovers of aquatic sports will have two great events to occupy their attention. The annual boat race between the Yale and Harvard crews will take place at New London Thursday, and the next day the varsity and freshmen crews of Pennsylvania, Columbia, Wisconsin, Cornell and Syracuse will compete in the annual regatta of the Intercollegiate Rowing association at Poughkeepsie.

Of interest to Americans will be a big two days' celebration at Yokohama to mark the fiftieth anniversary of the opening of that port to foreign trade. A leading feature of the program will be the erection of a bronze statue of Commodore Perry, the American commander who made the treaty with Japan that resulted in the opening of that country to foreign commerce.

Engineer F. M. Healy, who is in charge of the surveying crew now working in the Stehekin valley, came down lake Saturday and left Sunday morning for the west side, where he will meet Forest Engineer Herring and with him will go over the entire proposed railroad survey through the Cascades from Marble Mount to Lake Chelan. His crew began work at the mouth of the Stehekin and when he left camp the survey had been run to the vicinity of Bear Trap spring, about five miles up the valley.—Chelan Leader.

Agent Easy Running Racycle; also best bicycle tires. J. J. Eyer, 132 N. Mission St.

NOTICE TO BIDDERS

Plans and specifications for the new bank building to be constructed at Cashmere may be seen at the Columbia Valley bank. Bidders are invited to inspect them.

OBSERVE ANTI-CIGARETTE DAY

Jackson, Miss., June 26.—Sunday schools throughout Mississippi have agreed to observe tomorrow as "Anti-Cigarette Day." Special speakers will be heard in all of the schools and the pupils will be told of the evils of the cigarette habit. Attention will be given also to the temperance question. The children will be urged to sign a double pledge, one to abstain from cigarette smoking and the other to shun all intoxicating liquors.

IRRIGATED LAND MORTGAGES SAFE

(Continued from Page Two.)

ket, and the fruit raisers are wondering what is to become of their income on high-priced land. On the whole, they are not so well off as are the farmers of the middle west, who have less invested, are getting a larger return on their money proportionately to their investment. Loans in the middle west are more satisfactory than on those high priced fruit farms, in spite of the fact that the latter are returning big arnings.

The farther northwest leads one into the rich valleys of the Washington and Oregon section. There are only a few of these comparatively and they are very productive. Here land is held as high as \$2,000 an acre, and there is a return that warrants it. The farms are very small and the investment large. Such a thing as failure is not known and the loans are among the surest in the whole west. It is a marvelous sight to see the prosperity that is abundant here. Every farm looks as though it were a garden, as indeed it is, and the whole northwest is enjoying a great measure of the highest prosperity.

This section seems to have more favor with the east than California, and there is no difficulty in interesting the eastern investor in the farm loans. The trust companies and mortgage companies of Spokane and Seattle are getting a great deal of eastern money for their patrons and have men on the road interesting investors all over the country.

Throughout the journey one hears the farm loan spoken of as the best investment the community offers. The borrowers are said to be men of families, who are building homes for themselves, and they are willing to use their money sanely and carefully. The farmer is a king out here, and all through the west his future is considered assured.

While the towns are talking of new manufacturing industries and are trying to build up a population through the efforts of their commercial clubs, the last analysis is always back to the farmer and his success. It is a revelation to take a trip through all this section and see what is being done to advance the business interests and the farming development. The future of the farther west is bright and the investments there are worth the confidence of the man with money.

Ocean Grove Assembly.

Ocean Grove, N. J., June 26.—Many visitors are here in anticipation of the opening of the summer assembly of the Ocean Grove camp-meeting association. The first sermon will be preached tomorrow morning by Bishop Wilson, and from then until the closing service, September 26, there will be something every day to attract the regular and transient visitor.

PILES CURED AT HOME BY NEW ABSORPTION METHOD.

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment, and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box 1, South Bend, Ind.

Keep Out the Flies

By ordering a good screen—one which will last, made to order at the Wenatchee Woodworking Plant.

GEO. E. MCCANN,
Manager

Wenatchee, Washington
