Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.

There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach.

Use Kodol and prevent Nervous Dyspepsia.

Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.

When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized.

We knew what Kodol would do before ever the first bottle was sold. If we did not know just what it will do, we would not guarantee it the way we do.

It is easy for you to prove Kodol—the next (or the first) time you have an attack of indigestion. And you will certainly be surprised at the results. It is perfectly harmless.

There can be no harm in trying something that may do you a great deal of good—when it costs you nothing if it doesn't.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

Wenatchee Business College
IS THE SCHOOL THAT GETS RESULTS

Gives Answer to Fruit Queries

The following problems in fruit culture were answered in Sunday's P.-I. by Prof. W. S. Thornber, of the state college:

Cashmere: How should I treat trees that have been winter-injured?
"Whenever we find that winter-injury has resulted from freezing during the past winter months, it is essential that the trees should have proper attention if their usefulness is to be preserved. Assume, for instance, that trees are injured on February 20. We would not cut them off entirely. After growth starts in the spring, usually during May, you can tell about how far down the injury is going to be effective. Then cut back to good, live wood where buds are beginning to grow, and shape the framework up.

"This is a point in orchard management concerning which we are very careful. Five or six years ago the peach trees in Clarkston, Wash., were winter-injured. A man who had been erroneously informed in the matter, and did not understand trees or plant life, told the people to cut the injured tree off at the ground immediately after the injury, or down to within a few inches of the ground immediately after the injury. As a result, most of the roots died. The trees which were only headed back and treated as indicated came along in good shape."

How Pear Trees Pollinize.
Cashmere: "I am a newcomer in this country, and before coming west owned in the east an orchard of Kieffer pears planted in solid blocks, which was very unproductive. In fact, we got not nearly enough fruit to make it a paying orchard. I presume that this question of 'inter-pollinization' of fruit applies in the west, but I would like a little advice on the subject before planting my orchard next spring.

"A few years ago this question, with many other vital orchard problems, was not thoroughly understood. We know, though, that if we planted varieties in solid blocks we usually got poor crops. After many years of failure, orchardists began putting other varieties in their orchards, and it was found that the trees in the immediate vicinity of the new variety unexpectedly became productive. In any solid block, if a few trees were top-worked to another variety, the trees adjoining the top-worked ones began to bear fruit. In that way the problem was gradually solved; that is, it was learned that, under certain conditions, themselves and produce fruit. They will not bear fruit if planted alone.

"There is no rule for this. A variety is self-fertile in one district and self-sterile in another. There is only one rule we can follow, and that is, never plant one variety alone. I do not care what variety it is, I would not plant it in a block alone. That is the only safe advice we can give you."

Learning American Ways.
Spokane, March 3.—W. H. Baron Thoe Schwartzberg, a direct descendant of the House of Schwartzberg of Holland, son of Baron Ernest Lewis Schwartzberg, born in Wittengau castle in the southern part of Bohemia, has entered the employ of a local stock broker as bookkeeper to master American business methods. He left Holland in 1898 and engaged in the nitrate business in South America, afterward traveling all over Europe. Since coming to this country he has visited 40 states and four provinces in Canada, and frankly confesses he did not locate in Spokane to marry an heiress, though he will make investments in real estate for himself and associates in Holland. The baron is highly educated and speaks nine languages, writing six of them. Among his relatives in Germany are several counts and although he speaks of them with a slight evidence of pride, he does not assume any higher place in life than the man who has the everyday title of "meister."

Votes on Commission Plan.
Hiawatha, Kas., March 3.—Whether or not Hiawatha shall adopt the commission plan of government will be determined by the special election held here today. Last year a proposal to adopt the plan was defeated, but by a very small vote, and it is believed the chances for its adoption are much better now. Many of the leading cities of Kansas are now governed under the commission plan, among them Kansas City, Topeka, Leavenworth, Wichita, Coffeyville, Emporia and Independence.

Red Sox Off for Spring Training.
Boston, March 3.—A squad of players of the Boston American league club, in charge of Manager Donovan, left today for New York, en route to the spring training camp at Hot Springs. Other members of the club are to join the party at New York and Cincinnati. Four weeks are to be spent at the Arkansas resort. On the way north exhibition games will be played in Memphis, Nashville and Cincinnati.

O. B. Clarence, who is said to resemble Eddie Foy, has made one of the hits in "The Inferior Sex," in which Maxine Elliott is starring. The Shuberts may feature him in a new production.

Today's Events

Stemilt Hill News.
Mr. and Mrs. A. L. McMullen gave a surprise party in honor of their daughter, Mrs. Walter Ball. Those present were: Misses Minnie Allenbaugh, Bessie Renner, Messrs. Archie Allenbaugh, Arthur Ball, Mr. and Mrs. A. L. McMullen and family, Mr. and Mrs. Walter Ball.

Ed Daniels has sold his ranch to parties from Entiat.
A strong wind blew Sunday night and everything is flooded from the melting snow.

W. E. Porter has sold his ranch to P. P. Holcomb for \$8,500. He is moving to Wenatchee.

Geo. Fletcher has sold his ranch to Walter Ball of Badger Mountain. Miss Mina Allenbaugh gave a farewell party in honor of Mr. and Mrs. Porter, who are moving away. Those present were: Mr. and Mrs. Bertheau and family, Mr. and Mrs. Porter and family, Orcar, Vernie and Nellie McMullen, O. Allenbaugh and family, and Miss Bessie Renner. Games were played after which light refreshments were served.

Will Dunigan and Henry Will went to Wenatchee Tuesday.
O. Allenbaugh, A. C. McPherson and Henry Steffin are helping W. E. Porter to move.

School election will be held next Saturday, March 5, for the purpose of electing new directors.

Cincinnati Team Starts.
Cincinnati, O., March 3.—In charge of Manager Clark Griffith, a squad of the younger players of the Cincinnati baseball club left today for Hot Springs, to be followed next week by the entire team. The return trip will be made the first of April, when the veterans and colts will start a series of practice games on the home grounds here.

Heinze Case Comes Up.
New York, March 3.—The case of F. Augustus Heinze, New York financier and Montana "copper king," was called for trial today in the United States circuit court. Heinze is to be tried for alleged misapplication of the funds of the Mercantile National bank, of which he was in control at the time of the panic two years ago. Numerous indictments were returned against him at that time, but all except two were subsequently dismissed.

National Incorporation Discussed.
New York, March 3.—The executive committee of the National Civic Federation met at the headquarters in this city today to discuss the subject of national incorporation of companies doing interstate business and related questions, and to determine what action, if any, shall be taken by the federation. Seth Low, president of the federation, presided at the meeting.

Birthday of Joseph Wharton.
Philadelphia, Pa., March 3.—In his magnificent home at Oak Lane, near this city, Joseph Wharton, the venerable founder of the Wharton school of finance and commerce of the University of Pennsylvania, received numerous congratulations today on the occasion of his eighty-fourth birthday. Though he himself never received a college education Mr. Wharton has always taken great interest in educational institutions and from the large fortune he made in the iron business he has given freely to numerous colleges and universities.

PLAYS AND PLAYERS

Charles Frohman is going to produce "Chanticleer" next fall in New York, Boston and Chicago.
Olga Nethersole will have a spring season in London, opening in May. Later she may make an extended tour of the large cities of South America.

Mabel Tallafiero has recently begun rehearsals of a new play, called "The Chirp of the Cricket." The play is said to combine comedy with pathos.

Although Adeline Genee will be married in June in London, she will play another season under the management of Klaw & Erlanger in all the principal cities of the United States.

Henry B. Harris has signed contracts with Charles Klein to write a play for Rose Stahl, who is now playing her fourth season in "The Chorus Lady." Miss Stahl will appear in New York in the spring of 1911 in her new play.
