**Buggies, Hacks and Roadwagons**

ANOTHER CARLOAD SHIPMENT IS IN DIRECT FROM FACTORY

Why we should sell you your Hack

A Hack is a good deal like an automobile—you don't buy a new one every day. That's why you should use care in your selection. Now here is one of our arguments. If you only have two or three rigs to select from, you have, practically speaking, no choice. You simply have to take what you can get. On the other hand, we have hundreds of rigs on our floor—every size, style and color made will be found here for you to select from. Then when it comes to prices we can beat 'em all. Why? you say. Because we are jobbers or cut out the jobbers profit. You get the benefit. That's why we say it will be to your interest in every way to come in and let us sell you your Hack. We claim nothing that we can not substantiate. Come in and let us prove to you why we should sell you your Hack.

**Road Wagons For Everybody**

Road Wagons of every description are found here and some of the swiftest designs, too, both in steel and rubber tire. These rigs are especially made for these hard roads and can be depended on to give entire satisfaction, both as to comfort and wear. Our warehouses and display rooms are crowded full of everything in the vehicle line, including Buggies, Hacks, Surreys, Road Wagons, Carriages and Driving Wagons.

It will pay you to look over our stock before you decide on your new rig.
