

FINDING CLEWS TO LOS ANGELES DYNAMITERS

Three Men Purchased High Explosives in San Francisco and Police Have Names—Reward Has Been Increased by Both City and County—Seven Additional Bodies Recovered—Police Force Greatly Augmented

Los Angeles, Oct. 3.—The city council today authorized the appointment of forty additional policemen, ten sergeants, and one lieutenant, in addition to the present police force engaged in hunting the perpetrators of the alleged dynamiting of the Times plant and to assist in guarding the persons and property believed to be in danger from future outrages.

Increase Reward.

The city council also discussed the proposal to raise the city's reward for the detection of the bomb conspirators from \$10,000 to \$25,000. It was determined to make the reward of ten thousand for each of the conspirators. The city's reward was augmented today by an offer from the county board of supervisors of \$10,000 to \$25,000, the exact amount to be fixed later.

Take Out More Bodies.

Seven bodies have been taken from the ruins of the Times building since the force of 300 men from the city street department began the work of clearing away the wreckage. Two were identified as J. F. Westry, private secretary to Assistant General Manager Harry Chandler, of the Times, and Elmer Frink, one of the linotype operators. Seventeen men are now in the city jail, booked as suspects. However, the best clue so far obtained came from the offices of the Giant Powder company of San Francisco, where it is said two men named Byleston and Morris and a third man purchased 500 pounds of explosive similar in power and kind to that found in the infernal machine discovered at the home of F. J. Zeehandelaar, secretary of the Merchants' and Manufacturers' Association. The clue is regarded as very important and detectives and others have gone to San Francisco to take up the thread. The men are believed to have come south on a boat with the explosives.

Homes Are Guarded.

In the meantime the people are guarding the homes of Gen. Harrison Gray Otis, proprietor and general manager, and of Harry Chandler, assistant general manager of the Times. Guards also are watching over the plants of several industrial concerns which recently have been involved in strikes.

Dynamite Experts to Report.

The inquest will be held tomorrow. At that time the committee of dynamite experts and engineers appointed by Chief of Police Galloway to investigate the wreckage in an effort to learn the character of the explosive used will report their findings, if they have any.

Burns on the Case.

Capt. Paul Flammer, chief of detectives of this city, said today that W. J. Burns, formerly connected with the San Francisco graft prosecution and now head of the secret service of the American Bankers' Association, and M. J. Moran, of the United States secret service, inspected the ruins of the Times office today and declared it their opinion that the building had been destroyed by a charge of nitro-glycerine. It is understood that both of these men are now working with the local detective force in an effort to ferret out the parties guilty of the crime.

Burns arrived here today, attendant upon the bankers' convention, which begins tomorrow.

Remarkable Escapes.

Remarkable escapes also were reported by Mark Bentley, chief pressman of the Times, and his assistants. Bentley and his men were making ready to run off a section of the Sunday paper when the roar of the explosion sounded and the floors overhead broke and fell. The press room immediately was filled by a stifling cloud of smoke and dust. Walls of flames blocked all the doorways and ventilators. Bentley said today it seemed as if he and his men were doomed to die there in the basement, when one of the men remembered that a hole had been cut near the sidewalk for some temporary purpose. The pressmen made a rush for this means of escape.

Crawl to Safety.

They found it, despite the rolling

waves of smoke, which blinded and almost suffocated them, and one by one they crawled to safety.

Less than ten feet away in the hallway of the burning building, their less fortunate comrades of the linotype department were dying in the swirl of flames.

Most of those who escaped by other exits and by jumping from windows were only slightly injured.

Several appeared today at the office of the Times to receive the congratulations of fellow members of the staff. Two or three were well enough to return to work.

Will Arrest This Afternoon.

Los Angeles, Calif., Oct. 3.—Chief of Police Galloway stated at 1:30 this afternoon that he expected an important arrest in connection with the dynamiting outrages made in the next few hours. He declined to say whether he thought it would be made here or in San Francisco. He said he had made no request of the San Francisco police department, knowing they would follow all clues in the city without word from here.

Union Denounces Gillett.

San Diego, Calif., Oct. 3.—The local typographical union adopted resolutions today deploring the "accident or crime, whichever it be," that resulted in the Times disaster, and denouncing Governor Gillett for a published statement of yesterday relative to the explosion. The closing paragraph of the resolution reads as follows:

"We denounce Governor Gillett for his statement that union labor stands guilty of this act until it proves itself innocent. We have always believed it was a man's constitutional right to be considered innocent until he was proven guilty."

INQUIRIES FOR APPLES

Colorado Man Could Use Several Carloads of Winesaps.

During the past several days there has been many private inquiries directed to Wenatchee people for fancy Wenatchee apples. The Daily World is in receipt of a letter from J. L. Taylor, representing the Delta County Fruit Growers' Exchange, the Grand Valley Fruit & Produce Association, the Colorado Fruit & Commercial company, the Excelsior Fruit & Peach Growers' Association, with headquarters at Denver, Colo. Mr. Taylor asks if it would be possible to get a few carloads of fancy four-tier Winesaps. He states that "our apple crop is very short this year and stock that we have is not stock that we want to hold any length of time. The Jonathans that we have sold here have netted our growers \$1.75; Grimes Golden, \$1.50. Our No. 2 stock netted us from 25 to 50 cents less. I handle most of the trade of Denver and would like a few carloads of your stock."

Other small dealers have been writing in for the past week asking prices on Winesaps and other fancy Wenatchee valley stock.

NEW INCORPORATION

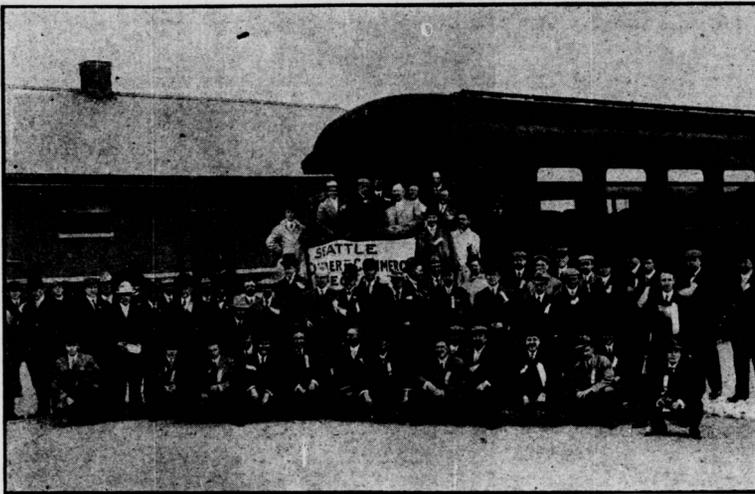

Central Washington Orchard Co. Organized With Local Men.

On Saturday there was organized in this city the Central Washington Orchard company, with J. H. McGowan, president, P. E. Ward, secretary and treasurer, and C. H. Graves, vice president and manager. Articles of incorporation are being prepared and will be filed within a few days. The company owns about 400 acres of land near Rick Island and Stemilt Hill. It is their purpose to bring a large portion of this tract under cultivation in the near future. The capital stock is placed at \$51,000.

Soo Trains Into Duluth.

Duluth, Minn., Oct. 3.—A through train service between this city and Chicago, to compete with the Northwestern Line, was put into operation today by the Soo system. To accomplish its entrance into Duluth, the Soo system expended \$3,000,000 for yards and terminals.

Seattle Trade Excursionists in Wenatchee

The above is a good photograph of the members of the Seattle Trade Excursion, which spent some hours in the city last week. The members of the party are loud in their praise of Wenatchee, and since the return of the excursion to Seattle, the members have expressed themselves as highly pleased with their treatment in Wenatchee and are loud in their praise of the apple showing. (Photo by Gagnon.)

GOOD SIDEWALKS TO POSTOFFICE

Cement Sidewalks on Mission Street to Be Finished Within Ten Days.

At the present rate of progress the cement sidewalk on South Mission street will be finished up to Kittitas street on Wednesday evening. It is the purpose of the contractors then to begin the work of laying the walk at the other end, First street, and continue until it is joined to the Kittitas walk. Unless something now unforeseen occurs, the cement sidewalks on Mission street should be completed from Stevens street to First street within ten days or two weeks.

Things are now shaping up to begin the macadamizing process in a week or ten days. When it once starts, the contractors intend to push the work vigorously in order to escape the cold weather as much as possible. It will take but about two weeks to lay the asphalt-macadam after work is started.

The curbing is now almost finished and a good idea may be gained by the exercise of a little imagination, what Mission street will look like when finished. The patience of the property holders and public generally has been sorely tried by the long delays caused by the sewer work, etc. No improvement in the city has been awaited with more anticipation than on Mission street. Now that the end begins to move in sight, a feeling of congratulation is manifest among people generally.

APPLE PRICES BETTER

Northwest Fruit Exchange Reports Sale of Several Cars of Jonathans at Good Prices.

The Northwest Fruit Exchange reports quite an active demand for Jonathan apples, but states that the trade still hangs on to the idea of \$1.50 f. o. b. for fancy four-tier fruit. The company reports the sale of a car from Cashmere of four-tier and larger at \$1.60, and \$1.35 for four and one-half tier and smaller f. o. b. The company also sold a car at Atlanta, Ga., of Cashmere fruit containing 540 Jonathans, 74 Grimes Golden, 15 McIntosh Reds, and at a straight average price of \$1.50 f. o. b. This car contained 100 three-tier, 274 four-tier, 176 four and one-half tier, 20 five-tier. This price on the three and one-half and four-tier Jonathans will average about \$1.65 and the four and one-half and five-tier, \$1.35 f. o. b.

The company also reports the sale of a carload of fancy and extra fancy Rome Beauty apples from Wenatchee at the straight price of \$1.40 f. o. b. A carload of York Imperial from Cashmere was sold at \$1.25 straight f. o. b., all grades and sizes.

Resume Work on Canal.

The Icefield Canal Company, whose development operations have been almost suspended for the past two months, resumed work on their big ditch this week with about 25 men. It is understood that this force will be greatly increased in the next few days and the work pushed forward as rapidly as possible until snow falls.—Leavenworth Echo.

COOK ASSERTS HE'LL COME BACK

Explorer, Found in London, Says His Claims Will Be Proven.

New York, Oct. 3.—Dr. Frederick A. Cook, who said he discovered the north pole, has himself at last been discovered. The New York World prints a six column copyrighted interview from London with the long missing explorer, in which Cook declares his intention of returning to America and denouncing Commander Robert E. Peary and his claims of polar achievements.

The World correspondent talked with Dr. Cook in a dingy office room in a building in the west end of London, a meeting place of the explorer's designation, and obtained from him the amazing story of his successful disappearance after leaving New York on November 25th, 1909.

The Doctor said he went first to Toronto, thence to Halifax, to Liverpool, to Gibraltar, to Tangier, Morocco, to Portugal and from Lisbon to Buenos Ayres; then around the horn to Valparaiso, across the South American continent by horseback and stage, back to Buenos Ayres and thence to Liverpool and London.

He Heard Peary Speak.

The Doctor has had his wife with him during most of his travels, and for the last four months they have resided in a London hotel. His children have been placed in European schools. The World story says:

"Dr. Cook declares that when Peary was in London last spring he, then hunted, hiding and snoring, occupied a seat in Albert Hall when Peary, his rival, lectured before the Royal Geographical Society.

"I stood 20 yards from Peary at the time," chuckled Dr. Cook, "and none recognized me."

Heard Himself Denounced.

"Moreover, he says, he occupied a seat among hundreds of other Americans in one of the grandstands watching the funeral of King Edward and none knew him. Time and again he sat in trains, on ships, in dining rooms, in theatres and heard himself discussed, ridiculed and admired for nerve and denounced and defended."

29 SAILORS DROWN

Members of the U. S. Battleship New Hampshire.

New York, Oct. 3.—The search was continued today for the bodies of the United States sailors drowned Saturday evening when the cutter in which they were returning to the battleship New Hampshire was overturned. Up to 11 o'clock this morning not one of the 29 reported drowned were picked up. Sixteen other sailors are missing from the battleship, but it is believed they overstayed shore leave.

STOP MAN-KILLING AUTO RACES

Nassau County Officials Talk Cancellation of the Permit.

New York, Oct. 3.—The board of supervisors of Nassau county, Long Island, will hold a special meeting today to consider the advisability of cancelling the permit for the grand prize automobile race scheduled to be held over the Vanderbilt course October 15.

Notwithstanding Saturday's list of four dead and more than 20 injured incident to the Vanderbilt cup race, A. R. Partington, general manager of the Long Island motor parkway, is authority for the statement that nothing but official interference shall stop the grand prize.

Oldfield Demands Safety.

Several drivers booked to participate in the event have demanded more adequate policing of the course, and William Pickens, manager of Barney Oldfield, gave out the following message which he says Oldfield sent from Chicago:

"Withdraw my entry from grand prize race unless course will be guarded by troops. I am unwilling to risk my neck and car." Oldfield followed with a severe arraignment of the management of the Vanderbilt cup race, who, he says, "spent nothing to guard drivers and spectators."

The foregoing from Oldfield is somewhat cryptic, however, in that it was said in New York tonight that he had not been entered for the grand prize. It was at first understood that he would drive a Benz car, but the Benz management is said to have decided on Hemery, Hein or Hearne as their drivers.

Will Fight Cancellation.

C. C. Painter, a member of the Nassau board of supervisors, will offer a motion to cancel the permit at a board meeting today. Any move to cancel the race will be bitterly fought.

No more deaths of those injured had occurred up to last night, but the condition of four persons is critical.

LOCAL PRESBYTERY

Will Be in Session Tomorrow Morning and Afternoon.

Prior to the opening of the Synod, the local Presbytery will be in session tomorrow morning and afternoon.

In the evening at 7:30 will be the opening sermon of the Synod by retiring moderator, Rev. Hutchinson, D. D., of Tacoma. Following the sermon there will be a reception to the delegates. The local committee has the work well in shape for the accommodation of the delegates, and the two commercial committees are planning a fruit banquet for them and also a ride through the valley.

DIRECTORS WILL MEET

The Monthly Meeting of the Trustees of the Commercial Club Will Be Held Tonight.

A meeting of the board of directors of the Wenatchee Commercial club will be held this evening. There are several matters of importance, including the exhibits, which are to be discussed by the directors.

CLOSED HALF MILLION DOLLAR RED APPLE DEAL

Wenatchee Valley Fruit Growers Association Sold Apples Pooled to Amount of from 400 to 500 Carloads—Will Not Give Out Prices Nor Give Name of Successful Bidder—Largest Apple Deal Ever Made.

ARE INSPECTING VALLEY

Two Parties of Easterners Spending Today Looking Over Orchards.

A. J. Geis and W. B. Frisbie, of Chicago, arrived in this city yesterday and have gone out to see Wenatchee valley orchards this afternoon, piloted by W. T. Clark, in his automobile. These gentlemen are making an extended tour of the west looking at various irrigation projects. It is reported that they are interested especially in looking at large tracts which may be secured for development or promotion purposes. They came here from North Yakima.

Former Senator R. F. Pettigrew, of South Dakota, is in Wenatchee today accompanied by W. C. and H. O. Brumder, of Milwaukee. They are being shown over the valley by Wm. Turner, of Millersdale, and L. F. McConihe, of Ephrata.

Senator Pettigrew is at the head of the company which has purchased some 40,000 acres of land bounding Moses lake. It is understood that he has about financed the enterprise sufficiently to work on the irrigation system for the project will be started in the near future.

The Brumder brothers are connected with a large German newspaper published in Milwaukee. It is said that they will be connected with a colonization scheme for the Moses lake project. The present tour is, therefore, supposed to be for the purpose of supplying them with information to be used in the publicity end of the campaign.

L. F. McConihe and associates represent large land and water holdings in the Moses lake country. The Pettigrew people may be interested in making a deal with the McConihe people for the acquisition of some of their water rights. The whole party is to meet this afternoon in the office of Martin & Barrows, where it is said some important business will be transacted.

CALL OUT MILITIA

Governor of Maryland Says Baltimore Police Commission Exceeded Authority.

Baltimore, Md., Oct. 3.—The recent action of the Baltimore Police Commissioners in placing an armed guard around the police headquarters in an effort to resist the seating of a temporary board pending the investigation of charges of corruption and laxity against the incumbent board, constitutes a resistance of lawful authority of the state, is the belief of Governor Austin C. Rohers, who declared today that he would take the necessary steps to put it down even to the extent of calling out the militia to enforce his orders.

OBSERVES NEW YEAR

Local Jews Will Celebrate Beginning of Year 5671.

At sunset this evening the Jewish people of the United States whose number is estimated at 2,000,000 and one-half of whom reside within the confines of Greater New York, begin the celebration of the Jewish new year 5671. With the exception of Yom Kippur, or the great fast day, the new year day, known as Rosh Hashona, is the most strictly observed of any in the Jewish calendar. The day is observed by reformed and orthodox alike, excepting that the former observe one and the latter two days. It is a season of rejoicing, and many families become reunited during its celebration.

The local Jews will celebrate the beginning of the new year. E. M. Schlager, the Wenatchee Department Store and Louis Michel will join in the festivities incident to the new year.

The Wenatchee Valley Fruit Growers' Association today closed the sale of between 400 and 500 carloads of apples which have been pooled by the growers of the valley with the association. This sale includes the Winesaps and the best of the high grade apples that have been pooled. The management of the association this afternoon not wish to make public the purchaser nor the price at which apples sold, but that it was satisfactory to the directors of the association is the statement made by several of the directors.

Have Given Out No Figures.

It is believed that the prices warrant it understood that so far there has been published no reliable figures as to the association pool as to the prices received on the Jonathans. Prices purporting to have come from the association direct have been published, but the directors state that these are not the actual figures received and some of them vary greatly from the facts.

Sale Aggregates Half Million.

It is believed that the prices received on the 240,000 to 300,000 boxes will aggregate close to a million dollars. While the association has given out no prices, it is believed that the market conditions warrant a price of from \$1.75 to \$2.25 on the varieties which were pooled.

Largest Sale Made in the Northwest.

This big sale today is the largest block of apples ever sold in the Northwest, probably in the world and it is not thought likely that a deal was handled by one concern alone. It is likely that several dealers have worked together in the purchase of this big block of apples. The association directors have been in session all day closing the big deal.

GOT SKAGWAY GOLD

Mail Pouches Were Slit Open and All Passengers Searched.

Seattle, Wash., Oct. 3.—The mail pouches of the steamship City of Seattle, from Skagway, were robbed of an unknown amount of gold tonight, all bags being slit open when the steamship reached the wharf day. The passengers were allowed to leave but one at a time after being searched. Two men have been arrested. The search is still progressing.

The lot consisted of gold bullion, Canadian and United States bars, the amount of which is not known but it is believed will aggregate many thousands of dollars. Buckley, the sailors' mess boy, on whose eight gold bricks and a large number of notes were found around the boy's legs, was arrested and lodged in the county jail.

The robbery was discovered at 6 o'clock this morning by Mail Clerk William Decatur. As the ship was nearing Seattle, Decatur raised an alarm and the search for the missing treasure was begun.

BACK FROM YAKIMA

Party Had Pleasant Time at Washington State Fair.

W. E. Whisnand, A. N. Courtwright, Dick Lillis and U. G. Pogue returned Saturday evening from a several days' trip to Yakima, made by auto. They made the trip to Yakima way of the Blewett road to Ellensburg and the return trip was made over the Colocock pass. They left Yakima at 8:30 Saturday morning and arrived here at 5:30, stopping one hour at Ellensburg for dinner. They report the fair at North Yakima a very decided success this year, especially the stock exhibit and racing features, and several track records were lowered this year. As a result, these men report that Yakima is not in it with Wenatchee, the entire class being below that of Wenatchee, the apples not being colored well nor of the size and class of the Wenatchee product.

Washington Weather

Washington.—Rain tonight and Tuesday.
