## ON WORKINGMEN'S COMPENSATION

### Massachusetts Legislature to Pass Drastic Employers' Liability Law.

Boston, Mass., Dec. 28.—The session of the Massachusetts legislature to convene next week in all probability will pass a law providing for compensating workmen for injuries received in the course of their employment. A special commission created to investigate the subject has prepared a tentative draft of a bill and this afternoon the first of a series of public hearings was given for the purpose of securing the views of employers and employes in regard to the proposed measure.

The salient features of the proposed act are as follows: Recovery is allowed in all cases irrespective of negligence, except when injury is self-inflicted or due to intoxication or breach of statutory regulations by the injured employe.

During the first two weeks of disability no payments shall be made, but the employer shall furnish first aid to the injured employe and provide necessary medical treatment. In case of death, dependents wholly dependent shall receive one-half the average wages of the deceased employe for 300 weeks, but not less than \$4 or more than \$10 a week. A wife or husband or children under eighteen shall be conclusively presumed to be wholly dependent.

Partial dependents, in the absence of any one wholly dependent, shall receive a part of the above amount proportioned to their dependency. If there are no dependents the expense of the last sickness and funeral shall be paid by the employer, not to exceed \$200.

If the employe does not die, but is permanently incapacitated for work, he shall receive one-half wages for 300 weeks. If the employe is permanently partially incapacitated he shall receive one-half the difference in his earning capacity. If the employe is temporarily incapacitated, he shall receive one-half wages for not more than 300 weeks, not less than \$4 nor more than \$10 a week.

Employers shall not be required to contribute. Employers, subject to the approval of the Industrial Accident Board, may substitute a scheme including the payments prescribed in the act provided that, if any contributions be required from the employes, the extra benefits shall be equal to the contributions.

Aged and partially incapacitated employes may, with the approval of the Industrial Accident Board, waive the provisions of the act. Controversaries under the act shall in default of agreement by the parties be settled by an arbitration committee of three, one of whom shall be chosen by each party, the third to be a member of the Industrial Accident Board.

### REGARDING PRUNING

Peter Hovland Says Bunglers Spread Disease By Lack of Care.

Editor Daily World: I have read what you wrote in the issue of the Daily World November 16th about so-called expert pruners, but how will you get rid of them?

The need of improvement in pruning must first be recognized, and this cannot be secured until those interested are made to realize that improvement is needed.

When a fruit grower tells a greenhorn he can show him "how" in ten minutes, everybody who understands a little about pruning knows he is peddling "hot air," but the greenhorn may have a tongue that is "hung up in the middle and goes at both ends," and there you have an "expert."

Diseases have increased a whole lot since I came here, five and a half years ago, and I insist that the pruners have helped the insects to spread them by not disinfecting their tools. How many pruners in this valley are there who disinfect their tools and how many growers are there who demand it? They do not yet recognize that one ounce of prevention is better than tons of spraying material.

Three years ago I wrote an article in a Wenatchee newspaper about pruning, and urged disinfection of the tools, but I have never discovered it done yet; they still keep it up, carrying diseases from one tree to another on their tools.

This disinfection may seem to the grower at first to be unprofitable and unnecessary. However, he will soon appreciate its importance if it is omitted. Clean up old trees in the neighborhood that may harbor the disease organisms, if necessary destroy them by burning them immediately on the spot.

### BASEBALL NOTES.

"Kid" Elberfeld was the first Washington player to send his signed contract to Manager McAleer. Shortstop Mike Doolan has signed a three-year contract with the Philadelphia Nationals. The Detroit Tigers played twelve games in Cuba, winning seven, losing four and tying one. Larry Schaffley and Charles Doolley have purchased the Troy club of the New York Stat league. In the 14 years Larry Lajoie has played in the big show he has batted under .300 only twice. Manager Chase has engaged Duke Farrell to go south with the Yankees to coach the pitchers and the catchers. Stock of the Pittsburg club is worth real money when John P. Harris pays \$400 per share, or just four times its face value. The wrestling game has made a hit with "Buge" Raymond. The eccentric one made a pretty good showing in his recent match with Joe Kennedy. Arthur Schaefer, the Giants' utility inelder, will spend the next two months in Japan, coaching the Waseda College nine. The old National league rule, making players pay for their uniforms, will be enforced next season. The first check to each player will be nicked just thirty dollars worth. Catcher Ed Sweeney of the Highlanders claims that Russell Ford, the spitball artist, has something on the ball outside of baseball. "Tain't natural," declares Ed. The new owners of the Boston Nationals have appointed Fred Tenney manager, but will make good to Fred

Lake. Lake has a contract calling for a salary of \$5,000 for the year 1911.

Robert Lee Hedges will continue as president of the St. Louis Browns until next month, when a meeting of the ne stockholders of the club will be held and new officers will be elected.

Mordecai Brown and Orvie Overall, the Cub's star twirlers, have announced their intention of quitting baseball for good. It begins to look as if Charley Murphy will be set back a few thousand dollars before he gets his team in line.

**For Memorial at Put-in-Bay.** Chicago, Ill., Dec. 28.—The movement for the erection of a national memorial for Commander Perry at Put-in-Bay, Ohio, is expected to receive a decided impetus at the annual banquet in this city tomorrow night of the Illinois Society of the War of 1812. Governor Harmon of Ohio probably will attend the function, together with the members of the Perry's Victory Centennial Commission from Ohio, Pennsylvania, Illinois, Michigan, Wisconsin, Kentucky, Rhode Island and New York.

**INVEST IN OIL**

California oil district offers more inducements to investors than any other industry. Since the year 1887 the total revenue from oil production exceeds \$137,000,000 and at this time the industry is considered in its infancy.

This company has a large tract of promising land in the famous Coalinga fields and is preparing to develop a portion of its land in the proven district, and is now offering the first allotment of treasury stock at 10 cents per share for development purposes.

The company is controlled by reliable business men of Spokane and closest investigation is invited.
