

D. AND L. ASSO. IS GROWING BY LEAPS

Total Assets Are New In Excess of Three Hundred Thousand

The auditing committee of the Fairmont Building and Loan association examined the books of the concern recently and reported this week that all of the accounts were correct and prepared a certificate to the stockholders stating the condition of the association.

The authorized capital stock of this flourishing organization is \$50,000 and the list of stockholders contains the names of citizens of Fairmont from the poorest to the wealthiest.

Through this mutual benefit scheme the local association has built many homes for Fairmonters and has enabled many to purchase homes with money that would otherwise have been spent for rent.

The officers and directors of the concern are all prominent Fairmont business men. The business is now conducted in a small unpretentious room on the first floor of the Jacobs building.

The directors are: Z. W. Morgan, Rollo J. Conley, C. D. Riggs, J. M. Hartley, J. E. Hutchinson, A. G. Marshall, W. J. Wigel, C. H. Jenkins, Geo. J. Green, T. M. Brownfield, E. T. Cunningham, C. C. Meredith.

Town Talk

Neely in Wheeling—Major Neely was in Wheeling last evening in conference with Democrats of the First congressional district regarding plans for the campaign.

A the Colonial—The Hyatt and Lenora Musical Comedy company will present the first performance of "The Man in the Moon" at the Colonial tonight.

At Cook Hospital—Meryl Bridge of Barrackville, was admitted to Cook hospital this morning for surgical treatment. Last evening at the hospital, a son was born to Mrs. C. R. Michael, of R. F. D. No. 2.

Eat Much Corn—Over four hundred ears of corn were roasted for the members of the Business Men's Association last night at Loop Park.

New Baptist Minister—Rev. T. B. Lawler, former pastor of the Baptist church of Shinnston, has accepted the pastorate of the churches at Fairview and Barrackville.

Violinist Will Remain in Weston—Emerson W. Farmworth, who formerly played the violin at the Colonial theater, and has been visiting his mother in Weston, will remain there, having accepted an engagement to direct an orchestra at one of the Weston theaters.

Banish Near Beer—Prosecuting Attorney Walter Haggerty has issued orders to all self drink purveyors prohibiting the sale of a near beer or imitation malt liquor known as "High Jinks."

Hotel Work Progressing—The work of excavating for the foundation of the new Fairmont hotel building is progressing rapidly. Several of the cement pillars have been put in place and the work on the foundation will be started as soon as possible.

Four Violators of Traffic Laws

A good crop of traffic law violators were before Acting Mayor Kern this morning and he dealt with them mercifully since this was the first time that any of them had been caught.

CONGRESS PASSED 252 NEW LAWS

WASHINGTON, Sept. 8.—During the session of congress closing today 17,800 bills and 642 resolutions were introduced in the House.

DUNNINGTON FUNERAL TODAY. A number of local persons went to Weston today to attend the funeral of Dr. Robert Dunnington, the young dentist who died this week from typhoid.

DOCTOR UNABLE TO BREAK FAST OF TWO MONTHS; DIES IN A HOSPITAL

YOUNGSTOWN, O., Sept. 8.—Unable to break the fast which he entered upon 69 days ago, Dr. H. G. Huffman, local dentist, died in a hospital here.

DR. H. G. HUFFMAN, PHOTOGRAPHED AT HIS FASTING CAMP BEFORE BEING TAKEN TO HOSPITAL.

City Hall Notes

Chief of Police Fred Harr and Commissioner Lehman went to Smithtown yesterday to serve a summons on a number of persons at that place who own property in Fairmont along the streets that are to be paved this summer.

Traffic violators and auto drivers without city licenses are being watched closely by the police and one or more have been fined by the acting mayor each day for the past two weeks.

Commissioner Lehman is the busiest man in the city these days as he has half a dozen or more paving and grading jobs under way besides attending all the deliberations of the Board of Affairs and hearing hundreds of complaints from citizens who think the paving jobs are not being properly carried on.

Miss Lois Florence Simmons, daughter of Mrs. J. D. Simmons, of Mannington, and Thomas W. Fitzgerald were married at Niagara Falls August 30th, and left soon afterwards for Tucson, Ariz., where Mr. Fitzgerald is one of the teachers in the school of electrical engineering.

ADAMLESS EDEN GIVES WOMAN A CHANCE TO PLAY

MISS ETHEL WALKER

KANSAS CITY, Sept. 7.—"Abandon ye all men who enter here!" This might well be the motto over the portals of a corner of Budd park, set aside for women only.

Men of Kansas City mean enough to predict the Adamless Eden idea wouldn't be a success have another guess coming.

maintained. Fever, restlessness and delirium set in and physicians despaired of saving his life.

INDUSTRIAL FAIRMONT

At the Fairmont Window Glass factory men are at work making general repairs on the machinery and the furnaces, preparatory to the opening of the factory, which will probably be on or about the 15th of October.

A double shift is being run at the Fairmont Mining Machine company's plant in order to supply the steel for the two new tipples that are being constructed by the Consolidation Coal company at Mines Nos. 35 and 37.

The Mining Machine company was recently asked by the United States Chamber of Commerce to quote prices on a shipment of steel ties for a mine in South America.

Visitors at the Monongah Glass plant are always shown a large thick heavy beer glass which will hold more than a quart of the "suds."

Laborers are in demand at every industrial plant in Fairmont at present and Louis Helmick of the Helmick Foundry company ascribes the lack of a floating labor supply here to the great demand in other industrial centers for men to work in munitions plants where unusually high wages are paid.

A re-organization of the James Specialty company, agents for Falcon tires and Gibson automobile accessories, was completed last night and the new members of this company are A. S. Fleming and J. T. Miller.

Student Aviators Each Break a Leg

(By Associated Press) NEW YORK, Sept. 8.—Flinging at a height of between 600 and 700 feet over Governor's Island today, a biplane containing J. Walter W. Struthers and Charles D. Wiman, student aviators in training for the aero reserve corps authorized recently by President Wilson, became unmanageable and fell to the ground after a series of shot spins by which Struthers was unable to avert the accident.

MANY CHANGES

(Continued from page 1.)

school has been equipped for a science room. The room formerly used for a sewing room has been prepared for a class room.

Several new plans have been made for the coming year which will increase the efficiency of the high school and thus secure better results from the pupils.

The assignment of classes to teachers has been done more satisfactorily this year than ever before.

Considerable new apparatus and equipment has been provided for the laboratories. Some new subjects of a practical nature have been added to the course of study.

The Board of Education has made provision for a girls' advisor and Miss Mary Oldham was named for the position.

The faculty for the coming year will be the strongest in the history of the school. A great deal of care was given in the selection of all new teachers.

Miss Clara Leamon comes as a specialist in her subjects of English and Latin. She is an A. B. graduate of Dickinson College, Carlisle, Pa.

city, has had several years' experience in teaching. Miss Ethel Horsman, supervisor of music, comes to Fairmont with an unusually successful experience and excellent training.

The entire high school faculty is as follows: Mary L. Oldham, girls' advisor and modern language; Wilhelmina Cockayne, English; Virginia Vockrodt, English; Cora Kincaid, arithmetic and study hall; Viola Wolfe, English; Rhea Warden, German; C. J. Ramsey, mathematics; Dora Newman, history; Isa Neel, Latin and French; T. C. Moore, arithmetic and bookkeeping; Pearl Hodges, English; E. F. VanGilder, science; Eva Kling, science; E. M. Musgrave, science; Ruth Ross, English and history; H. E. Moore, hygiene and athletics; Virginia Gaskill, domestic science; Beulah Walker, assistant domestic science; Marjory Chriswell, domestic art; Jessie Jacobs, assistant domestic art; E. J. Hawkins, manual training; Byron Warden, assistant manual training; Clara Leamon, English and Latin; J. T. McClure, science; Beulah Davis, English; Bessie Reed, librarian; Ethel M. Horsman, music; Caroline E. Brenk, art.

Those wishing the benefits of the very high class and right up-to-the-minute dentistry at a very reasonable price would be doing themselves justice by waiting a few days and consult the Union Dentists.

Their prices are reasonable and all work the best that our modern methods can produce and all work guaranteed

The opening date will be given later in this paper

Auto Races Prove Worth of FALCON TIRES

The auto races at the fair grounds Labor Day prove conclusively that Falcon tires are made of high grade materials, and built up in a workman-like manner, else they would not stand the usage and give the results they do.

Not a puncture, blow-out or any kind of tire trouble delayed the cars that ran on Falcons. The strain and wear given them in speeding up quickly and skidding around sharp turns is a hundred times as great as in ordinary usage.

The motorist who feels that he has not been getting value received for his tire money owes it to himself to equip his car with time, money and temper-saving tires.

We are state distributors for Falcon Tires, jobbers and retailers for all kinds of automobile accessories, tools and equipment. Ford parts and equipment a specialty.
