

# CANNING CLUB FOR HIGH SCHOOL GIRLS

### Organized Effort to Conserve City's Food Supply to begin Soon.

Plans to organize the High school girls into canning clubs to aid in conserving the food supply of the city are being materialized and a meeting will be held some time next week when these plans will be perfected and put into operation.

It is the intention to secure the co-operation of the Women's Defense League which was recently organized in this city and to have some organization perfected whereby the women will aid the High school girls in the work of canning and preserving.

Miss Estelle Hamilton, of this city, who has charge of the Domestic science department of the Fairmont Normal school, will be in direct charge of the work.

The Board of Education has tendered the use of the department to canners and it is thought the offer will be accepted by many public spirited women who wish to do their bit in conserving the food supply of the nation.

# GETTING READY FOR FARMERS' SCHOOLS

### War Time Topics For the Institutes to be Held This Year.

Posters announcing the Farmers Institute have been received at the office of the H. L. Smith, agricultural agent, and letters are being sent by him to the farmers of the county announcing the event and urging them to be present.

The speakers who will address the farmers are I. S. Cook, Ohio County agent and Miss Blanche Price, of the Girls' club worker for this county. Mr. Cook will speak of a number of problems and matters of importance and interest to the farmers and Miss Price will speak in regard to the club work throughout the county and will also give some demonstrations of canning work.

Following is an extract from one of the posters which are being distributed to the agents in the county: "The Farmer, the farmer's wife, and even the farm boy and girl should at this critical time in the Nation's life be intensely interested in a larger production, a more efficient consumption, and an economic conservation of the food supply. At no previous time has a careful study of farm problems been so profitable or so patriotic. Each member of the family will be benefited by the lectures on the various phases of farm life and farm problems. Interesting, scientific and experienced instructors are provided. Local problems will be discussed."

Meetings will be held at the following places on the dates indicated: Eldora, Aug. 8; Mount Harmony, Aug. 9; Seven Pines, Aug. 10; Grandville, Aug. 11; Ballah Chapel, Aug. 13; Walnut Grove, Aug. 14; Flat Run, Aug. 15; McClellan, Aug. 16. No admission will be charged for any of the meetings and it is expected that there will be a record attendance at the institute this year.

### Apples Most Valuable Fruit.

The apple is pre-eminent in the household economy for no other fruit excels it in culinary usefulness. It gives the table in a far greater variety than any other fruit. Of all fruits grown in North America, the apple leads in amount and intrinsic value. No fear of an overproduction, however, if the means of transportation and distribution are perfected. What if we do raise 125,000 carloads of apples or 62,000,000 boxes a year? This is but half a box to a person not counting what we export. That isn't very many. Exchange.

### Crochet Rugs.

Save clean remnants of old or new cotton cloth, cut or tear in strips and sew together, and crochet rugs for bedrooms. Crochet back and forth to make oblong rugs, or round as in making table mats. The pattern may be hit-or-miss or in any preferred color design. Rugs made in this way are very attractive.

### Flags of North America.

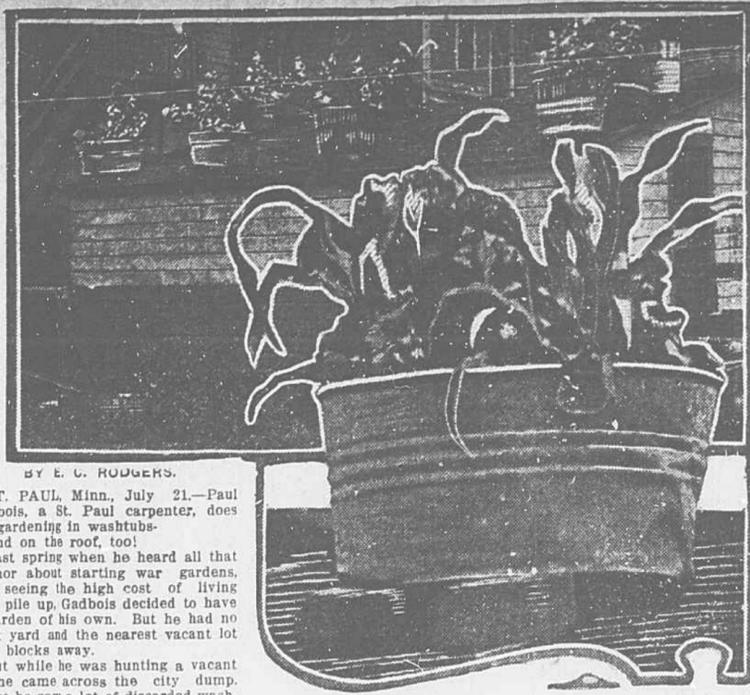

The valuable hardwoods are found in North America than are native to other regions of similar area in the temperate zones. In addition to these great trees in minimum temperatures, ranging from Canada down to Florida, and the wonderful Pacific forest also allow us to grow a greater quantity of foreign hardwoods than any other country in any zone.

### NEW RUSSIA'S FLAG

New Russia has replaced the blood-red flag of the revolution with this emblem, according to semi-official news from Petrograd. It is the old Russian naval ensign, a blue cross on white, with a small red flagstaff in the center, symbolizing the revolution.

### AT LAST HERE'S A REAL ROOF GARDEN!

BY E. C. RODGERS.

ST. PAUL, Minn., July 21.—Paul Gadbois, a St. Paul carpenter, does his gardening in washtubs.

And on the roof, too! Last spring when he heard all that clamor about starting war gardens, and seeing the high cost of living bills pile up, Gadbois decided to have a garden of his own. But he had no back yard and the nearest vacant lot was blocks away.

But while he was hunting a vacant lot he came across the city dump. There he saw a lot of discarded washtubs.

He carried 20 of these tubs home. Then he took them up on the roof of a shed in the rear of his home, carefully placing them near the edges so their weight wouldn't break in the roof.

With a trusty shovel and bucket he went out soil hunting. Bucketful at a time he carried nice rich soil up to his roof garden and filled all the washtubs. Seed sowing followed.

The Gadbois family got all the radishes, lettuce and onions they could eat, and a third sowing has been made in those tubs from which early crops were harvested.

Three tubs have tomato plants, two have sweet corn and pole beans, the corn stalks serving as poles for the beans.

Other tubs have beets, potatoes, peas and dwarf beans.

"We won't get all the vegetables we can eat," Gadbois said, showing a visitor through his garden, "but these will help out a lot. Next spring I'm going to get more tubs and put 'em on the roof of the house, too."

That's the way he is solving the landless man problem.

where they had been the guests of friends.

The Misses Hester and Kathryn Miller, who had been the guests of their aunt, Mrs. D. C. Miller in Charleston since the close of Miss Beard's school in Orange, N. J., where they are students, have returned here to spend the remainder of the vacation with their father Shrewsbury Miller.

Mrs. F. E. Mower and children, Miss Marjorie and Master Donald, of Hendricks, W. Va., are guests of Mr. and Mrs. M. C. Lough on Locust avenue.

John Edward, the nine year old son of Mr. and Mrs. Peter Harker, remains seriously ill at his home on Tenth street.

Miss Maude Frankinberry, who had been the guest of her parents, Mr. and Mrs. Miles Frankinberry on Locust avenue, has returned to her home at Richmond.

Mrs. F. S. Politt has been the guest of Mrs. Frank Weaver in Kingwood for several days.

### Oldest Tin Mines.

The tin deposits in the south of England are the oldest known workings in the world, and perhaps those that were next discovered and opened were in Saxony and Bohemia. It is believed that the manufacture of tinplate, or as it is sometimes called, "terne-plate" was begun in Bohemia early in the seventeenth century, that it spread from there to Saxony, and it was introduced into England in the latter half of the seventeenth century.

### Philadelphia can boast of no age-old trees such as the redwoods which are found in the West, but in the outlying districts of the city are many splendid old trees which have stood for centuries. At Three Tuns is an enormous chestnut tree, centuries old. It has been marked with a brass plate stating that the tree was doubtless there when Columbus discovered America.

## LOCAL SOCIAL EVENTS

## CALLING 'CHRISTUS' TO ARMS REVEALS GERMAN HOPELESSNESS, GERTRUDE ATHERTON SAYS!

NEW YORK, July 21.—When Germany called Anton Lang, famous Christus of the Oberammergau Passion Play, to military service she inadvertently let the cat out of the bag regarding her military condition today.

That move, according to Gertrude Atherton, famous American authoress, proves Germany is on her last legs and is going to extremes to continue fighting.

Anton Lang is a consumptive and has not been expected to live long. On account of his fame and popularity as an impersonator of Christ and his commercial value to Germany, he would be perhaps last to be ordered out.

"The obvious deduction," says Miss Atherton, "is if Germany is ordering her consumptives out, she must be pretty hard up. For all we know she may have emptied her sanitariums on the battlefield."

Miss Atherton visited Oberammergau in 1908, and boarded in the Lang home.

"My husband is tubercular," Frau Lang told Miss Atherton. "He may be the Christus in 1910, but he never will live until 1920. What little he makes as a potter is due to the fact that he is the Christus and tourists buy of him. Others in the village told me the same thing," says Miss Atherton, "that with Anton Lang it was only a question of a few years. I have seen few men look more frail. He is not more fitted to serve in the trenches, or in warfare at all, than a delicate woman."

### A NERVOUS WRECK

From Three Years' Suffering, Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the doctors are right. Begin taking Cardui today.
