INTERLACING BELT SETS OFF NEW COAT

NEW YORK.—The new model coat retains all the comfort and warm usefulness of a straightline box coat, with an increased charm of line, further enhanced by distinctive style touches. The interlacing belt is the latest. The buttons on cuffs and back of belt, and the fur trimmings, are all cleverly designed to relieve the plain effect.

Specializing at One's Job. No matter what your job, you can make it lead straight to success if you will specialize at that job and give to it your absolute best. Of course we all know that from the humblest possible beginning men have risen to glory and estate; but it is good for all of us that we should study over and over again the lessons which have real value.—Chicago American.

...me of Robespierre. "After the tapestry town unkindly described by George Henry Lewes in 1849 as "dismal Arras," is the birthplace of Maximilien de Robespierre, whose one diversion was to snatch a few days' repose there. When in 1791 Robespierre was feted by his native Arras, the National Guard of Bapaume provided a bonfire.

"If I Were Censor!" Well, Try Your Hand At It

WESTERN UNION CABLEGRAM AUGUST ONE 1917. JORN UHL ROTTERDAM HOLLAND. MOTHER AND FATHER LEFT TODAY WITH three divisions of Marines and Infantry left today with THREE FRIENDS FOR AUTO TRIP THROUGH three Battleships as Convoys by S. W. route. ADIRONDACKS GONE TEN DAYS for Havre, France Will pass South of Ocosar at Mexico City.

HERE'S KEY TO CODE TRANSLATIONS.

MOTHER—marines. FATHER—infantry. Letters in word between "mother" and "father" indicate number of divisions. For instance, "mother WITH father" would mean four divisions. ADIRONDACKS—Havre, France. Word GONE designates route, by code use of initial letter. TEN DAYS tells time intervening before passage of intercepting point. EMMY is one of a fixed list of girls' names all standing for the port of New York, and letters in name indicate present naval protection. Thus GRACE would designate five naval units. RUSH is code for submarines and DEED is code for Boston. Number of letters in phrase "I wrote you about so" indicates number of days before departure of troop transports. \$10,000 indicates number of troops. GOOD PRICE is code for more funds. SHARE, which might have read "equity" or a number of other words indicate name of German secret agent. Now compare the message, as written by the censor, with the original message and its code paraphrase, and see how all the dynamite has been taken out.

send to death 10,000 American soldiers by prearranging a submarine attack on U. S. transports of Boston harbor. That's a concrete possibility of the diabolical German spider web which may well galvanize every American citizen into taking every possible precaution. You would like to be a United States naval censor? Well, censor this cablegram for yourself. "To Jorn Uhl, Rotterdam, Holland. "NEW YORK, Aug. 24.—Mother and father left today with three friends for auto trip through Adirondacks. Gone ten days. Staying with Emmy till their return. Rush deed I wrote you about so house can be transferred at once. Getting \$10,000. Good price. Will send you share. "GRETCHEN UHL." An innocent little message from an American girl of Dutch ancestry to her brother or uncle in Rotterdam. Here's what American navy censors say it might easily mean: "JORN UHL, "German Secret Agent, "Rotterdam, Holland, "Open Door to Berlin: "NEW YORK, Aug. 24.—Three divisions of marines and infantry left today with three battleships as convoys by southwest route for Havre, France. Will pass southwest intercepting point in ten days. Port of New York meanwhile protected by only four naval units. Good chance for submarine attack. Station submarine off Boston harbor at once to attack in sixteen days 10,000 sailing U. S. troops. More funds needed. Will report to you by mail through

Ocosar at Mexico City. "GRETCHEN UHL, "German Spy." The American censors will play as large a part in winning the war as the Sammies, American wheat, big guns, or airmen. Their work is as trying. Here is the harmless message that passes the naval censor: "Parents on mountain vacation with acquaintances for not over two weeks. Spending their absence with girl friend. Mail papers for house sale without delay. Will forward your portion of \$10,000 sale price." The naval censor transmits the sense, but not the original words, or in their original order. CENSOR! CENSOR! NEW HOME WAR GAME! Here, fathers and mothers, and boys and girls, is an outline of a new parlor war game—CENSOR. Furnish your own materials and elaborate your own rules. Divide the party into two groups—their tasks to communicate secret information through open messages. Choose a censor from one group and an assistant from the other. While the censor and assistant are excluded, the groups in conference prepare their codes. The accompanying story suggests a few of the numberless ways in which simple codes may be formulated, and the players can amplify these. Messages are then passed from group to group, through the censors stationed in an intervening room. The censors' changes, when decoded by the recipients, furnish laughable results.
