HERE'S A U. S. A. "BATTLESHIP LOCOMOTIVE," BUILT IN 20 DAYS FOR OUR SAMMY ARMY AT THE FRONT!

This is the first of the new war locomotives now being constructed for the government for freight service in France. It was turned out in 20 days and now the company is making them at the rate of 30 a day.

Evening Chat

Notice posted to the effect that The F. W. Woolworth Corporation will open its 1001st store in the Deveny building recalls the humble beginning of Mr. Woolworth.

Imported drugs naturally are scarce because of the lull in shipment of overseas trade.

Publicity has done much to educate the American people along medical lines.

Autumn's solemn form is being noticed day by day as the leaves keep dropping from the trees and the time has arrived when the "frosts" on the pumpkin and the corn is in the shock.

One of the questions that has arisen in the mind of the stranger when he comes to Fairmont is the question—Where does your produce come from?

(1) By Israel (v. 5). Strange to say the decree of Cyrus was not met with great enthusiasm.

(2) By Their Neighbors (v. 6). This response was apparently more hearty than that of the Jews themselves.

III. Restoration of the Sacred Vessels (vv. 7-11). These vessels had been carried away to Babylon many years before.

Poverty. Poverty is only contemptible when it is felt to be so.

Love's Secret. Love's secret is to be always doing things for God, and not to mind because they are such very little ones.

Honest Endeavors. I think that there is success in all honest endeavor, and that there is some victory gained in every gallant struggle that is made.

Power of Little. Trifles make perfection, and perfection is no trifle.—Michael Angelo.

the county is not self sustaining in this regard. Well some come from Pittsburgh, probably the largest portion comes from the great fruit and vegetable markets of Baltimore.

ously burned. When he arrived he found that the bystanders had covered the burned parts up with debris, which itself would have no doubt caused blood poison even if the patient had not expired.

HEALTH HINTS

What of the health of the 8,000,000 women workers in the United States? It is important not alone from a standpoint of business efficiency but because of its bearing, mayhap, upon the future welfare of the race.

Eight hours sleep in a bedroom well supplied with fresh air.

Regular exercise both morning and night.

Sensible clothing chosen with due regard for the seasons.

Without these women, nor man for that matter, cannot maintain their proper health and physical well being for any length of time.

No woman should try working "on her nerves." This practice may be kept up for quite a while, when pleasure or the demands of business tempt one to rob herself of the necessary amount of rest.

Because of the war more women than ever are working under conditions which produce physical strain.

They should recognize this and outside of working hours devote themselves to getting sufficient rest, even though certain pleasures have to be cut out.

HEALTH QUESTIONS ANSWERED.

Mrs. H. W.: "Would you recommend shoulder braces to keep a growing boy from becoming stooped?"

No. See that he goes through setting up exercises every day and there will be no need of resorting to shoulder braces or other mechanical means for doing what Nature intended exercise to do.

They are all potential mothers.

Because of this double responsibility the women in business should remember that there are four essentials to good health. They are:

Regular exercise both morning and night.

Sensible clothing chosen with due regard for the seasons.

Our Hudsons Are About All Gone

Number of Super-Sixes at present prices limited. Practically all makers have already increased prices.

We now see the last of the Hudson Super Six cars we will be able to sell at the present prices. The factory has given us definite allotments. On at least two models they have notified us that final shipments will be completed within two weeks.

When those cars are sold it means that the last Hudson Super-Six to be had at the present base price of \$1,650 for the seven-passenger phaeton has gone. Then a new price will become effective. That price will be based upon material costs that are much higher than were those of the present production.

As a single example of the greater cost of an automobile today as compared to the cost of a year ago consider the item of iron. Its low price for the years of 1915-1917 was \$12.27 a ton. Today it sells at \$52.90 a ton. Iron is used in making the finest steels, the frame, the motor, the body, etc. Its use in a fine automobile constitutes a large item. You can get from this some idea of the tremendous need for automobile price increases.

Then when you think of the number of cars that have gone up in price in the last few months you get a further understanding of the great opportunity

you have in buying a Hudson Super-Six now. More than fifty makers have advanced prices within the past two months. Cars which formerly sold at \$1,200 and \$1,300 now cost about as much as a Super-Six. There was no question as to which was the preferred car then, though because of the lower price many such cars were sold. Now that there is no price advantage, Hudson sales are at their highest. People realize more than ever before that a Hudson offers the greatest value on the market. They are taking advantage of the opportunity that the present market condition offers. You, too, can save as they are saving, if you act promptly. We know how many cars we are to get, but we do not know how much longer we can accept orders at present prices.

Be guided by the experience of the past as it affects the Super-Six. Buy now. It is like buying any other staple on which you have positive knowledge that there is soon to be a price increase.

Surely there need be nothing said in this connection to persuade you to a Super-Six. It has already established its reputation on every speedway, in every endurance test, in the most difficult mountain climbs, in the most arduous road trips, and most of all in the minds of more than forty thousand users.
