NEXT HIGH GAME ON THE 'Y' FLOOR

Contest With Huntington Saturday Will be Staged There.

The high school basketball team is now preparing for their engagement with the Huntington high five in this city on Saturday evening.

The locals were defeated on Friday evening by the Huntington team by a 22-12 score. They played on a skating rink floor which was four times the size of that at the Y. M. C. A.

Members of the high school team are more confident of victory on Saturday night than any other game they have played this year.

According to the schedule Fairmont was supposed to meet Buckhannon high school this evening at the Valley View school.

BITS OF STATE NEWS

Wheeling has a new traffic ordinance which among other things prohibits walking across the streets at any point except at intersections.

J. H. Thornton, recently principal of the Sistersville High school, and for five years a teacher of history and political science in Wheeling, has assumed his new duties in the office of state superintendent of schools.

The Fayette Tribune prints the following more than ordinary interesting fire story: "The Thorndom hotel had a little fire scare last week when a small blaze was discovered.

For the following the West Union Record is responsible: "The Clarksburg papers are blowing a great deal about the fact that no arrests were made in that town for the first four days of the new year.

Thirty-seven high schools in West Virginia conducted evening classes in one or more subjects last year, an increase of twelve over the previous year.

Discussing recent changes in high school courses of study, Mr. Friend points out to a veritable revolution which has taken place in West Virginia standards in the last few years.

DOYLE AS BALANCE WHEEL TO TEMPERAMENTAL IN FIELD SHOULD BE BIG HELP TO MCGRAW

LARRY DOYLE

A change from one city to another often has a great effect on a ballplayer's play. The influences brought to bear by the manager, the associates, on the club very often will show their effect on the player's form.

McGraw needs a veteran second baseman to take the place of the temperamental Herzog. A player of the Doyle type would help balance an infield made up of Zimmerman and the fiery Fletcher.

And Doyle should play better ball for McGraw than he was able to play for the Cubs. Doyle was not satisfied in Chicago and that undoubtedly had a great deal to do with the character of his play.

McGraw is evidently counting on this and hopes Doyle will be able to come back with his big war club and set the league afire again in the batting department.

RED BLOODED MEN WIN OUT

THEY ARE ALWAYS ON TOP.

It is a fact that red blooded men and women are at the head of every parade. Men and women with the driving force of red blood, rich in iron and phosphates do things, they get results.

Red blooded women are the heads of the happiest and most contented homes, they have the will and the desire to be real companions and helpmates.

Leadership and happiness is only for the men and women who are willing to keep their blood and nerves strengthened and nourished with Iron and Phosphates.

A prominent doctor says, "It is a crime that so many men and women lack the rich, red blood and strong steady nerve to achieve their ambitions. It is all the more so because thin, watery blood is unnecessary, as rich, red blood and strong nerves are within the grasp of everyone. Phosphated Iron makes pure blood by making new blood. It gives strength, brings color to the cheeks, increases the weight and appetite, drives away the blues and those sleepless nights, steadies and renews your nervous energy, makes you feel like a live one once again."

There must be something to it. Everyone who tries it is loud in praise of Phosphated Iron, and you have got to show people these days.

To insure physicians and their patients receiving the genuine Phosphated Iron it has been put up in capsules. Do not allow dealers to give you pills or tablets. Insist on capsules.
