HON. O. S. MCKINNEY IS OFF THE TICKET

Withdrew as Candidate for House of Delegates—Other Withdrawals.

Several withdrawals were allowed from the ticket just before it went to the printer's hands this morning, when the ballot commissioners, Circuit Court Clerk Clarence Curry, and Attorneys Charles Powell and Ernest R. Bell met in the office of the circuit clerk in the court house. No doubt the biggest surprise is the withdrawal of Hon. Owen S. McKinney, former speaker of the house, of delegates of West Virginia, and an active political luminary and former newspaper editor. It is understood that at the time of filing his nomination that Mr. McKinney was not positive that he would remain in the field. With Mr. McKinney's withdrawal from the Democratic ticket the nominees will be Deputy Sheriff Judson R. Miller, M. F. Hamilton, mayor of Mannington, and City Clerk Albert J. Kern.

John C. Finch has withdrawn as a candidate for president of the board of education in Winfield district on the Democratic ticket, which leaves Carl Dawson as the party nominee. L. L. Rogers, of Fairmont 6, has withdrawn as a candidate for the nomination of the Republican party for the office of president of the Lincoln district schools. Accordingly none of the foregoing names will appear on the ballot.

DELINQUENTS OF CITY DRAFT BOARD

Sheriff and Deputies on the Job Today Looking for the Men.

Swamped with work Sheriff A. M. Glover and his deputies are hard at work today rounding up all of the delinquents who are wanted by the local draft board.

On the heels of the list of 250 delinquents given by George W. Bowers, of Mannington, chairman of the county board, comes a list of forty-nine delinquents submitted by Captain Kemble White, chairman of the city draft board. In the list submitted by Captain White the men listed are termed "list of delinquents registered for local board 1, who have not been apprehended." On the list is the name of Willie Jones, who died several weeks ago, and the name of a lad already in France, which reduces the original list of fifty-one to forty-nine.

Superintendents of railroad shops, manufacturing plants and mines and the public in general are urged by the officers to assist in the work. It is their patriotic duty.

Deputy Sheriff Carl Beatty yesterday afternoon succeeded in rounding up a number of men on the list of county draft delinquent list. John Polate, a Russian, of Ida May, was apprehended and today he was sent to the county draft board headquarters at Mannington. It is understood that he will be sent south with dispatch. He claimed that his name is Palate while the draft authorities had it Polate.

Mike Kubish of Four States, was notified through the mine officers to appear here. He was at work in the mine when Deputy Sheriff Beatty called. Mike Radish, of Four States, was seen and will report. He claims he did not receive his mail because the draft authorities called the name Mike Bratish.

Officers found that Forney D. Donelson, of Worthington, has been in the service for some time. Unfortunately the draft authorities were not notified and had the young man on the delinquent list. Deputy Sheriff Beatty in the course of his travel about the county yesterday afternoon found that two men on the list died some time ago. They are L. A. Parish, and Alex. Brown, both of Worthington.

UNION MINERS

(Continued on page four.)

posing it. "They argue that a day's production will be lost. I say that you can work a Sunday or extra hours for several days—that labor is entitled to one big day all its own."

"Civilization never advances beyond the women," declared "Mother" Jones in her address to the scale convention. The great danger is when the hog is developed in the woman instead of the human.

"Mother" Jones, introduced as the most beloved labor leader in the world by Frank Keney, president of District No. 17, was discussing the duty that lay before the coal miner delegates assembled for this convention.

"You have only entered the kindergarten of the labor movement as yet," he told the miners' delegates. "You are going to have a full course of school. You will graduate from one class to another. I want you to study hard, to read, or think. The labor movement is the most instructive school in this country. It has done more than anything else to advance the nation. The world is indebted to the labor movement for what has been accomplished in the last few months. It is the labor movement that has gotten food for the children, playgrounds for the young; it is the labor movement that is keeping the child out of jail and out of other capitalistic institutions. You have many things to learn and many duties to perform. You want to put men in the legislature and in congress who will stand for labor and for the honor of the nation."

"Your most important duty at this minute is to educate your wives and children as to what is right. Civilization never advances beyond the woman. I have been all over the country and there is one thing that I particularly notice here. The women and children need education. I have noticed here more than in any other part of the country the deficiency in good mothers. I have been down in Mexico among the greasers, clear down as far as Vera Cruz but I never saw a place where they did not get up on street cars and give seats to old men and women with children till I came here. The high sense of womanhood has not been properly developed in this section. I have seen awful things happen on the street cars between here and Clarksburg. A crippled old man with two crutches would win no consideration. And the worst offenders are the nips that some of our women's club is in the home. That is where she belongs. That is where she can accomplish most."

"Don't be always stabbing the superintendent," she said at another time. "I wouldn't take the job of a superintendent for all the money in the world. The job is not a desirable one boys, so make his life run just as smoothly as you can. Remember he has troubles enough. These men who are appointed superintendents are not all wrong."

"If the government wants you to work ten, twelve or fifteen hours a day, I saw do it. I claim that you should do anything you can to help the boys over there. If the government says it
