HERE'S A KING WHO IS NOT GUN SHY

Steadiness of Albert and Premier Clemenceau Amazes Soldiers.

LONDON, Sept. 25. — (Correspondence of The Associated Press.)—King Albert of Belgium and Premier Clemenceau of France were apparently so indifferent to shell fire to which they were exposed while the Premier was visiting the Belgian front recently as to arouse the admiration of the Belgian soldiers.

One of them describes the incident thus: "The scene is laid among the ruins of a part of the Belgian front daily shattered by shells, bombs, or aerial torpedoes. In the street parallel to the church a little group of persons are walking. A tall khaki figure seems to be guiding a civilian and some French officers. It is a Belgian general wandering leisurely up and down answering questions and giving explanations to his guests. From our dug-out we soldiers watch with curiosity."

"Suddenly a whistle, an explosion and a burst of smoke but thirty yards from the visitors. Not one of them took any notice! Another falls quite near. The Belgian general, the civilian and their suite have not turned their heads, merely continue their walk as slowly as before. While the fire continues, the visitors are getting nearer our dug-out and we stand at attention."

"The Belgian General is King Albert, the civilian M. Clemenceau."

POET AVIATOR IS WORLD FIGURE

"D" Annunzio Has Become A Dashing Squadron Leader.

LONDON, Sept. 25.—(Correspondence of The Associated Press.)—The exploits of Gabriele d'Annunzio, Italian poet, novelist and dramatist, have taken a strong hold on the public imagination, and he is now being held up as one of the world's most famous figures in aerial warfare. The papers, which recently have been devoting considerable space to the daring Italian, express surprise that a man of his age and temperament was able to make so remarkable a success as an aviator. Few expected the Daily Express says, that the "famous Roman poet" would become an air fighter after passing his fiftieth birthday.

Above all, it is pointed out, he is an inspiration to his people. His deeds during the war are known to all the world, but few outside Italy realize that he has been the greatest public orator of his country since the war began. His speeches are full of promise, and the message which he dropped over Vienna was written as only a poet and a soldier could write. D'Annunzio as a squadron leader is said to be not only fearless, but unflinching. Routine bombing and chasing have no attractions for him. His fertile brain is constantly at work devising new methods for harrying the enemy in unexpected directions. That is why the Austrians hate him so intensely. It is believed here that his fate would be dire if he fell into the enemy's hands, and London is quite ready to credit the story that he carries in his tunic pocket a little phial of poison.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly... Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then... it would last... two weeks, and was so weakening, and my health was awful. My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui. I am married now and have 3 children... Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others." If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.
