

CHINESE ASK RELIEF FROM JAP DEMANDS

Declares That Treaties of 1915 Were Forced Upon Her.

(By Associated Press.) PARIS, April 8—Nullification of the twenty-one demands made by Japan early in 1915, is urged by the Chinese government in an official statement...

The Peking statement declares that the Japanese treaties and notes forced upon China in 1915 should be abrogated because their terms are incompatible with the principles upon which the League of Nations is founded.

The statement is largely a reply to a recent statement made by Baron Makino of the Japanese delegation on the position of Japan.

Since the Japanese delegate in Paris, the Chinese statement says, has pointed reference to the 21 demands it is incumbent upon the Chinese government to draw attention to the fact that Chinese acquiescence of terms subsequent to her own interests were secured by means of an ultimatum to which she was forced to surrender because of the rest of the world in the European war.

In a subsequent agreement secured by Japan under the former cabinet the principles followed have been equally dangerous not only to China's liberty of action but to her very independence.

The statement says that the claim of Japan to special privileges because the Japanese expelled the Germans from Shantung province contrasts oddly with the failure of the Americans to claim the railroads and mines of France although the Germans were expelled from Alsace and Lorraine by the cooperation of the American army.

Improved modern news distribution in China, the statement continued, keep the Chinese fully advised of daily happenings throughout the world.
