METZ.

The Simon Moore well has come down to about a 15-barrel well.

The Martha Rowand well came in a fair gasser.

The Eastern Petroleum Oil company located a well on the Will Laughlin farm in our town. One on the Simon Moore farm, near his No. 1 oil well and one on Miss Wilson's farm near the head of Measers run, near the county line between Monongalia county and Marion. These are wild cat locations.

Isaac Campbell and family were visiting Mr. and Mrs. Virgil Thomas.

of Campbell's run, Sunday last.

The Ladies' Aid had a very nice entertainment at the Campbell and Martin hall Saturday night last. They served cake, chicken, weinies, coffee, ice cream, pies, sold boxes, and had a general good time. All young and old enjoyed the occasion.

Ervin Myers is real poorly at this time.

Web Johnson, our blacksmith, is still going around and still sells his hardware at his shop.

The salt water in the Freeland gas well has drowned out the gas. They have rigged up and will drill it deeper. It may be an oil well yet.

WEAK, SICKLY, RUN DOWN WOMEN

Must Look to Their Blood if They Wish to Regain Their Health and Happiness.

Many symptoms peculiar to women, such as dizziness, fainting spells, backaches, headaches, kidney and bladder troubles, jaundice and nervousness are in a large part due to impurities in the blood—or worse still, anemia, which means that the blood is thin, watery and lacking in nourishment.

If you are run down, if your energy or strength are below normal, if you have to force yourself to do your daily tasks, you should enrich your blood supply at once. In this way you start a sure foundation on which to build your health and happiness.

You may easily and quickly renew both the quantity and quality of your blood by taking a short course of Novo San.

Novo San, the new Red Blood Builder, has already won a place in the hearts of scores of women by restoring their youthful health and vigor. It not only rises your blood of poisonous impurities, but actually makes new blood, in this way vitalizing your whole body, charging you with new powers of endurance and energy, stimulating the action of the kidneys, liver and bowels, promoting regularity, health and comfort. Your jaded nerves are steadied and your overworked, undermined, weakened system is quickly nourished back to health and strength.

MAKE THIS TEST TODAY. Go to Fairmont Pharmacy, Fairmont, W. Va.; Windsor Drug Co., Monongalia, W. Va.; W. P. Moran, Farmington, W. Va.; Frank J. Yost, Fairview, W. Va. and obtain a trial package of Novo San (12 days' treatment). Take two tablets three times a day after meals regularly for 12 days and if you do not feel at least 50 per cent. better, return the empty package to the druggist and get your money.

You Owe Your Children a Home of Their Own

It is your duty, Mr. Family Man, to provide your little ones with a home of their own! A house is not enough. No matter how fine or beautiful or expensive a rented house may be, it can never mean to your children what a home of their own will mean.

It is in the home that your children first base their concept of life—of duty and industry and responsibility. Denying them a home of their own now robs them of its precious memories in after years and withholds from them the higher ideals, the saving influences which would help carry them safely through life.

A home that you own, by its very stability and permanency, will impress your family with the self-respect and responsibility which comes of being an approved, established part of a community. Children who live here today and elsewhere next year never acquire the home idea of steadfastness and constancy. Instead, they receive impulses to float and drift which may follow them all through life.

You owe your children a chance to make good—an opportunity to face life fully equipped with deep-rooted ideas of honor and integrity. You owe them your help, your support, your guidance. You owe them the safety and protection of a home, because it is in the owned home, in the home that is theirs, that the cardinal principles of life are most indelibly stamped.

You not only owe your little ones the present joy and comfort and happiness of Home but it is your duty to provide them with a safe and secure shelter for the years to come.

adult population leave no estate whatever at death. Stop a minute and think what would happen to your family if accident or death should overtake you and your earnings should suddenly cease. Would your little ones be homeless, or safe beneath the shelter of their own roof?

It is your business to face these problems today! It is only right and fair and just to your family to provide them with the protection of their own home. And the most satisfactory way to secure that home is to build it!

And build now! Nothing can be gained by waiting. Authorities concede that building costs are somewhat higher today than they were five years ago, but they also state that costs cannot be lower until some unforeseen time in the future. As against this, rents are enormously above normal, so you are actually losing money each day you delay building.
