ization were tied up under restraining orders.
Last Thursday attorneys for the miners filed a motion to dismiss the restraining orders and then at the hearing proposed a postponement in the hope it was said that the strike could be settled out of the court but the government objected and the court erred the motion to dismiss. On the governments showing Judge Anderson issued the temporary injunction with the order for the calling off of the strike.

LOCAL MINERS WILL

(Continued from page one.)
are 1221 cars filled with coal on the Monongahela Railway.
Miners Peaceful.
Miners at all of the villages are well behaved and nothing has occurred any time since the strike that has reflected detrimentally upon them.
Many of the coal companies have been making improvements in the mining towns and in this way the men wear at work and busy most of the time.
Local Railroadings.
No great change has occurred in local railroadings conditions. Very few crews have been at work recently although the movement of lake coal from off the M. R. branch and the Fairmont yards brought about some improvement in conditions.

CONSOL BUILDING CONCRETE WALKS IN SEVERAL TOWNS

Taking Advantage of Lull in Production to Do the Work.

Taking advantage of the lull in coal production due to the general strike the Consolidation Coal Company is using this opportunity to make some improvements at Carolina, Ida May and Wyatt where mines 86, 87, and 88 respectively of the company are located.
Cement pavements are being built in all of these towns and work is being given to the miners who desire to work. The streets in these towns are also being graded. After the improvements are completed they will greatly add to the general welfare of the towns.

Monday's Production.
Mine along the Monongahela division of the Baltimore and Ohio railroad produced 31 cars on Monday. The Morgantown & Kingwood railroad loaded 27 cars of coal on Monday and the West Virginia Northern railroad 5 cars. This is a total of 63 cars of coal produced in Northern West Virginia yesterday.

No coal was mined at any of the 20 operations in the West Virginia district of the Monongahela Railway on Monday, but five cars of coal were loaded from a stock pile. Mines on the Pennsylvania division of the Monongahela Railway loaded 341 cars of coal. In the vicinity of Brownsville, Pa. there are 1221 cars loaded with coal.

Coal Movement.
There were 25 cars of coal loaded east and 6 cars west on the Monongahela division of the Baltimore and Ohio railroad on Monday.

Shipments on Monday were as follows: St. George's 1 car; Michigan points, 1 car; Ohio points, 1 car; miscellaneous points, 4 cars.

Today there are 35 empties ordered by mines along the Monongahela division of the Baltimore and Ohio railroad. The cars in the region number 2515. They are classified as follows today: Open 2510; coke, 5; the placement today is 1671. Cars left over from previous day number 1653.

Lake Situation.
With the release of coal loads on the eastern regions loading at the lake ports is expected to take a spurt during the early part of this week. Allegheny region authorities permit the loading of coal for public utilities and for domestic use, also vessel fuel and coal for fueling docks in the rivers up to 35,000 tons.

A cut has been made in the supply of fuel for Canadian steamers and boats of that class will only be given enough bunker coal to take them to their home ports to lay up. There is a good supply of tonnage for prompt loading and the coal can be dumped as rapidly as it is ready.

Ore carrying is delayed somewhat. The ore is badly frozen and handling is consequently slow.
Cleveland's Coal Committee.
It is estimated by Cleveland, O., coal committee, which is again on the job as a result of the recalling of the federal fuel administration, that 25,000 tons of coal a day is consumed at that place. Of this 5,000 tons is used by public utilities, hotels, hospitals and other places.

A Year Ago in Coal.
Of the 174 mines reporting there were 122 men idle and 1175 tons of coal lost in production.
There were 980 cars of coal and coke loaded. Of this 18 cars were coke.

The supply of cars on the Monongahela division of the B. & O. railroad today was 1446. The placement was 1226.

clerks and a general drop in being noticed. It is regretted that in a land of plenty like the United States that a difference like this should ever have occurred between Employer and employees and everybody here hopes that we have enough real life in our country to adjourn this difference before suffering and want and want is felt. Better join the live and let live club.
