HEADACHE STOPPED WHILE YOU WAIT

Druggist Refunds Your Money While You Wait at Counter if Aspirinal Does Not Relieve in Two Minutes. Absolutely Safe.

Why suffer half an hour of headache pain waiting for your stomach to digest solid tablets and powders, when Aspirinal, the new Elixir, gives relief right now. Your Doctor prefers Aspirinal for the reason that it is not dangerous to the heart and does not upset the stomach.
The next time you have a headache go to your nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonful in a little water. With your watch in your hand count off two minutes and call for your money back as per manufacturer's guarantee, if you can't feel your headache fading away within the time limit. Your druggist writes and expects you to try Aspirinal, so don't be bashful. Everybody is doing it. Same guarantee applies to colds, coughs and neuralgia.—Adv.
