

GENERAL FOREIGN NEWS.

THE OPPOSITION TO GLADSTONE.

A Conference to be Held of the Liberals who are Opposed to Continuing the War—Denial of the Fall of Khartoum—Another French Victory.

LONDON, Feb. 15.—Gen. Graham with his staff will leave London next Saturday for Cairo. The expectation of the war officials is that the forces which are to start from Suez will reach Berber, if the march proves successful, by April 25. Messrs. Leonard H. Courtney and John Morley, members of parliament are making arrangements to hold a conference of all Liberal members who are opposed to the continuance of the war in the Soudan. They have already been assured of the adherence of forty members. The radical members are taking an independent line of action against the government. These movements may imperil the existence of the government if the Tories propose a vote of censure.

The Standard has a despatch from its correspondent at Korti, stating that a messenger who has just arrived at Korti declares that Khartoum has not been captured by the Mahdi. Government officials do not believe the messenger's story.

New York, Feb. 15.—A telegram was received at the war office today from Gen. Wolseley, in which that officer sends an account of the fall of Khartoum as given by a native who was an eye witness to the entrance of the rebels in the town. Korti, thus, this informant says, was taken on Feb. 13. It adds: "Gordon was killed by a bullet from the mouth of January 26. Gen. Gordon was killed by a bullet from the mouth while he was on his way from his headquarters to the Austrian consulate. The Austrian consul was killed in his residence and the Greek consul is held a prisoner by the Mahdi."

It is reported that the British government is considering a scheme to create Ismael viceroy of Nubia and to retain Tewfik as viceroy of Upper and Lower Egypt.

Three Thousand Unemployed Men Parade the Streets of London and Insist on Being Employed—They Become a Howling Mob and Surround Mr. Gladstone's Residence.

LONDON, Feb. 15.—Great excitement was occasioned here today by the riotous conduct of a large number of unemployed workmen. Three thousand paraded the streets with banners bearing mottoes of their grievances. Several bands of music accompanied the procession, which marched to the building occupied by the local government board. A committee from the ranks entered the office and demanded relief for the people they represented. They wanted immediate employment on the construction of municipal works which they said were needed for the public good. The officials of the board repulsed the committee and the crowd became a howling mob. The police attempted to interfere but were soon overpowered. The paraders then invaded Downing street and stopped in front of the official residence of Mr. Gladstone. They howled and hissed invectives against the government. A cabinet council was being held in the time and the mob attempted to force their way into the room where the council was sitting. The police at this point received reinforcements and ejected the intruders. The mob then attempted to storm the admiralty and home office, but were driven off and finally dispersed by the police.

The Scene of Tuesday's Battle.

LONDON, Feb. 13.—A despatch from Kerbakan says: A visit to the scene of Tuesday's battle shows that the enemy's position was strongly fortified and carefully protected by screens of stones and rocks. The South Staffordshire regiment were only able to capture the high ridge by climbing on their hands and feet. The ridge is about 400 feet high. Prisoners say they were greatly surprised at the ap-

pearance of the British in their rear, as they thought the British came from Berber. A spy reports that he found the enemy encamped at Beshiem. Small parties of Arabs have again reappeared to menace the garrisons.

He had me sit in it eight or ten days. I was at my best, and now I am completely cured. It was certainly a miracle." All druggists keep Dr. Thomas' lamp which is put up both liquid and dry form.
