## WOMAN AND HOME,

DOINGS OF THE FAIR SEX AT HOME AND IN SOCIETY.

n the Drawing Room, Beside the Sick Bed and in the Nursery-Looking Neat when at Home - Mrs. Cash's Unhappy Victim-A Woman who has a Useful Husband-Advice to Little Bousekeepers,

Every little while one finds in feminine journals a pertment word to wives and mothers regarding dressing for bome eyes. And wisely. One cannot afford to look less well in one's children's eyes than in those of ger, and if Arthur and Stephen's approval was worth dressing for when they were sweethearts, why not when they are hus-bands? But about undress. Do you remember David Copperfield's concern over the ficms of Dora's curl papers! Well, the most unobserving man is quite as quick to notice if not to remark the details of feminine attire. Because a man is too good natured to comment upon what he sees, do not take it for granted that he is blind. Sterling worth in character may be relied upon to secure a goodly amount of love, but we are all agreed -is it not sof-that personal appearance has a decided influence in our friendships and loves. Our friends and Icos are, in a measure, what they look to be. Inherited features are pretty much, though not altogether, beall largely the reflection of her surroundings, and these depend much upon herself.

In the matter of garments, one may have silk or cott ar ones, but the agreeable effects of one or the other hinges not upon shekels, but upon the tact with which the goods are arranged and set off. That is, one may be "a picture" in a print dress or a fright in the same dress, with the differences of its hanging "at loose heels" and being worn with untidy person, and so on. The average woman, divested of the various accessions that buoy her up in dress toilet, is pretty apt to be un-levely to look upon. But how few women think about it. Men are fastidious beyond their own avowal, wives, and one needs to think twice to think wisely before she makes herself a nightly fright. Curl papers, oil besmeared face, bands in untidy gloves, and robed in ugly-and it must be confessed, not always neat-underelothing, and what is there in the portrait to remind one of the patent curier that takes but two or three inoments in the morning. Only spinsters not afraid of their own shadows can afford to sleep in curl papers. Appearing in them in public should be a capital offense.

one is at liberty to "seek the seclusion that the dangeon grants." It would seem almost superfluous to say, however, that the fairest skin and most elaborate confure do not require that one shall sleep in the plight so many women appear to think necessary. The European custom that gives to each individual a room-if no bigger than a closetwhere he or she is sole monarch, is a wholemust in most cases do duty as a dressing room as well, one surely cannot afford to make her sleeping toilette less becoming than her proffiest day aftire, to say nothing of the artistic reason of wishing for one's own sake to be fair and sweet.

And the means, supposing silken bed gowns are forbidden by the state of one's pursewell it is forbidden to no one to brush her teeth and hair before retiring, and to make her face and hands clean and very often to take a hot tub bata, and to wear a fair, white night dress, be it ever so simple. If high priced tollet perfumes are not to be had—and fine odors are always high priced—one may,
