

# WERE YOU EVER ROBBED?

Ever had your pocket book taken out of your pocket or had somebody go through your house and carry off the silver? Did you ever buy a suit or overcoat and pay \$15 or \$20 and afterwards find out you could have bought them at from \$5 to \$10? How did you feel then? We want to call your attention to the best stock of clothing for men and boys made for this PRESENT SEASON'S TRADE IN VERMONT. Our goods are marked in plain figures and sold at one price. Our object in making prices remarkably close and in advertising our stock and methods of business as we do, is to largely increase the amount of sales of the kind of clothing we sell--THE BEST KIND--rather than to increase the per cent profit. Another reason why we mark our clothes at such low prices is because we believe that the only reason why we should have anybody's trade is because they can do better in our stock than they can anywhere else. If you should buy of us and afterwards decide that you could have done better with your money, or for any reason you wish you had not bought the clothes, bring them back in good shape and we will pay you back your money and no questions asked. Right here we want to ask you if there is anything unfair about this proposition, either to you as a customer or to the houses that are in competition with us for your business? You can, we suppose, find any sort of a price in this city--the asking price. The price you get because you are such a good fellow, and bye and bye the price you are able to beat somebody down to. Now our statement is this: if the price we give you the first time you ask, or the price you can find for yourself on the ticket, is not the very best you can do anywhere we will give you back your money if you want it, even after you have had the clothes in your possession three days or a week. Which way is the safe--to try and beat somebody down or to buy of us? Competing stocks can have their opportunity either before you look or after you have bought; it's all the same to us. If you can place your trade more to suit you we give you back your money.

## Boys' Suits and Overcoats BIG REDUCTIONS.

We have besides this our entire stock of boys' and young men's suits and overcoats on which the prices have been sharply reduced, and we ask you also to consider them as part of this same offering. Our fine high-priced suits have felt the knife and are offered at such prices as we have felt no call to make before. However fine and stylish you want your clothes no one here can equal our stock of the very best goods.

In looking over these items of our stock which we offer for your consideration, don't be misled by the fact that our former prices were not so great as those of many other stores. The quality of our stock is at the head. We never ask too much for our suits, so we don't have to fall so far to close them out. A suit must be a mighty mean one if it needs a ten-dollar drop to sell it. Nothing in our stock anywhere near so bad as that.

The rules and regulations which govern this sale govern every transaction of our business, viz: any necessary alterations without charge. One price, plain figures, and your money back if you want it. Goods delivered anywhere in any quantity at our expense, or sent for examination.

We invite you to prove up our stock. No one has lost money doing that. Men's and Boys' Clothing.
