

IN HUB MARKETS.

Quotations on the Leading Products in Demand.

Boston, June 21.—The butter market was quiet. While it is the general opinion of dealers here that the outlook for a healthy trade, there is no indication that June creamery will be bought at any lower rate. A good demand is reported in the west for all the butter offered, and most of this month's milk here and in other dairy sections is consigned for at present ruling prices. Under these circumstances, nobody can blame creamery men for holding up the price as long as they can.

The market so far as selling prices are concerned is about the same as in the week since. The ruling rate is 13 1/2 cents for all extra creamery, western and northern, in tubs.

The high prices paid in the country for those have strengthened the market for an advanced rate. The rate is asked in the lots. Buyers are not prepared to respond, and sales from stock on hand were made at 8 1/2 to 8 3/4 cents, but it was generally understood that it is to be raised to 10 cents for the lots in time to come.

UTICA CHEESE MARKETS. Utica, N. Y., June 19.—At the Utica market, the following quotations were given: 40 boxes large white at 84¢; 40 boxes large white at 84¢; 40 boxes large white at 84¢.

The new market received have been large and have sold at 100¢ per barrel. The market is quiet. The price of cheese is 100¢ per barrel.

The high prices paid in the country for those have strengthened the market for an advanced rate. The rate is asked in the lots. Buyers are not prepared to respond, and sales from stock on hand were made at 8 1/2 to 8 3/4 cents, but it was generally understood that it is to be raised to 10 cents for the lots in time to come.

There has been a better movement in flour for several days, with agents representing the manufacturers, and a better fitting an excellent week's business. Here the market is firmer, with quotations better sustained.

Cornmeal is firmer, with good demand. Oatmeal and the cereals are steady. Corn and rye are quiet, but generally well sold. Chicago advanced nearly 10.

Hay is reported very firm. Farmers are holding on to old hay that they had intended to sell, and the market is especially severe in New England, and the rains have not come in season to save the hay crop from being a remarkably small one. Straw is steady. Millfeed has an advanced rate. The price is held up by some reason of the increased demand, caused by the dry weather. Hay, 210/12; rye straw, 10/30/3
