NEW JAIL

The legislative committee having under consideration the advisability of erecting a new jail for Chittenden county met here Monday, holding sessions in the county clerk's office both morning and afternoon. The committee consists of the senators and members of the House of Representatives from Chittenden county. There were present Senator W. P. Van Tatten of Burlington, Senator Curtis A. Fletcher of Essex and Representative Claude D. Graton of Burlington, J. W. Lavigne of Colchester, L. C. Ray of Shelburne, William F. Foote of Charlotte, S. H. Reed of Minerva, W. H. Tupper of South Burlington, C. D. Caswell of Williston, N. A. Carpenter of Huntington, F. D. Nichols of Richmond, W. W. Howe of Bolton and M. Leddy of Underhill.

The present jail property was examined and sites other than the present one were discussed. The Davis property opposite the court house was mentioned but it was quite generally agreed that the price necessary to obtain it, \$15,000, is too much. The site now temporarily occupied by the postoffice building was also mentioned.

The law enabling the county to erect the jail will be so framed that the building can be erected on the present site or elsewhere. A plan was outlined calling for the removal of the present cage and the erection in its stead of a brick addition on the same site, the addition to contain the cells, and other jail offices and rooms and to correspond in architecture to the present residence of the sheriff.

LEVANWAY FINED.

Case against Former Colchester Man Settled in City Court.

The case of Albert Levanway, who was convicted last June in city court of carrying a revolver and threatening Frank Villamir, was Monday disposed of by Judge Mower. At the time Levanway was convicted he was sentenced to not less than eight nor more than ten months in the House of Correction at Rutland. He appealed the case.

Monday morning he appeared in court and asked that the case be brought forward and that the sentence be withdrawn. The motion was granted, sentence was vacated and the respondent was ordered to pay the town of Colchester \$5 and costs of \$30.35. He settled at once.

There were extenuating circumstances in Levanway's case. He had not been on his terms with Villamir when the trouble occurred but had been drinking. His reputation before and since the occurrence was found to be good and no meeting Villamir came into court to interfere in his behalf. Levanway was living in Colchester at the time but has since moved to Burlington.

ANOTHER SLANDER SUIT.

Papers Served Tuesday on a Fairfax Constable.

Papers were served Tuesday by Deputy Sheriff Quinn in a suit brought by R. W. Taft of this city against C. C. Gillette, a constable in Fairfax. The suit is an action of libel and slander for damages of \$5,000 and is similar to the one brought last week by Mr. Taft against E. C. Gillette, a brother of the defendant in the present action. C. C. Gillette made the arrangements whereby his brother, E. C., was employed to watch Mr. Taft's actions. The suit, like the one brought last week, is based upon statements made in court by the defendant about Mr. Taft and Miss Jessie Cilley, the respondent in the case, and repeated outside. Mr. Taft claims that the testimony of both the Gillettes was false.

GOOD ROADS IN ENGLAND.

What Two Vermonters Saw As the Result of Improved Highways.

The above picture, which we produce in the interest of our good roads movement, was taken by C. C. Warren of Waterbury and L. Bart Cross of Montpelier, on their European tour last year, in a thinly settled rural district in England. It shows a farmer with a load of produce, weighing 4,000 pounds which he is taking to market, with one horse over an ordinary country road. These roads are so hard and smooth that a load of this kind is easily drawn by one horse, up very steep grades. When told of the kind of roads that predominate in Vermont the farmer said: "That is a rich man's road. I could not live there, it would take too many horses and oats to do my freighting."

THANKSGIVING NOVEMBER 29 BY THE PRESIDENT A PROCLAMATION.

The time of year has come when, in accordance with the wise custom of our forefathers, it becomes my duty to set aside a special day of Thanksgiving and praise to the Almighty because of the blessings we have received, and of prayer that these blessings may be continued.

Yet another year of widespread well-being has passed. Never before in our history, or in the history of any other nation, has a people enjoyed more abundant material prosperity than is ours; a prosperity so general that it should arouse in us no spirit of reckless pride, and least of all, a spirit of heedless disregard of our responsibilities, but rather a sober sense of our many blessings, and a resolve, under Providence, not to forfeit them by any action of our own. Material well-being is indispensable, though it is, can never be anything but the foundation of true national greatness and happiness. If we build nothing upon this foundation, then our national life will be as meaningless and empty as a house where only the foundation has been laid. Upon our material well-being must be built a superstructure of individual and national life, lived in accordance with laws of the highest morality, or else our prosperity itself will in the long run turn out a curse instead of a blessing. We should be both reverent and grateful for what we have received, and earnestly bent upon turning it into a means of grace and not of destruction.

Accordingly, I hereby set apart Thursday, the twenty-ninth day of November next, as a day of Thanksgiving and supplication, on which the people shall meet in their homes or their churches, devoutly acknowledge all that has been given them, and to pray that they may in addition receive the power to use these gifts aright.

In witness, whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this 25th day of October, in the year of our Lord one thousand nine hundred and six, and of the independence of the United States, the one hundred and thirty-first.

NO PLACE FOR POSTMASTERS

Four Declared Ineligible to Seat in House of Representatives Tuesday.

HAPGOOD'S CASE LATER

A Railroad Junket Seems Probable—Bill Introduced to Provide a Permanent School Fund—House Passes Resolution Authorizing Celebration.

Montpelier, Oct. 30.—The House this afternoon devoted an hour and a half in debating whether or not the member from Highgate, Mr. Felton, should retain his seat. The committee on elections reported last week against seating Mr. Felton, and accompanied its report with a resolution that Mr. Felton was not entitled to a seat because at the time of his election he was a fourth class postmaster in Highgate. The House has, from time to time, put off deciding this unpleasant matter, but it tackled it this afternoon and finally by a vote of 123 to 73 voted to sustain the report of the committee. An abstract of the debate may be found in the official report of the House proceedings. On the case before the House the remaining fourth class postmasters who were elected representatives this year, and in their cases the committee on elections made a similar report. These were Mr. Slade of Rutland town, Mr. Burnham of Woodbury and Mr. Spaulding of Sherburne. The report of the committee on elections was sustained in each case, and the seats of the gentlemen named were declared vacant.

The case of Mr. Hapgood of Peru, which is understood to be similar to those disposed of, will be considered later. The committee on elections has had this case under consideration, but is not yet ready to report on it.

Speaker Cheney announced this afternoon an invitation from F. W. Stanyan, superintendent of the Barre railway, to the members of the Legislature to accept the courtesy of a special train to Barre, Vermont, the date of this trip to be at the pleasure of the Legislature. On motion of Mr. Jackson of Barre city the thanks of the House were extended to Mr. Stanyan for his invitation and the speaker was authorized to appoint a committee of three to make arrangements for the trip. The chair appointed Mr. Jackson of Barre, Mr. Hunter of Montpelier and Mr. Hatten of Stratford and followed these appointments with the suggestion that if the House takes a half day off for this purpose it should, on the evening of the day the trip is made, put in a good long session to make up for the time lost.

The bill introduced in the House today by Mr. Mead of Rutland provides for a permanent school fund. An abstract of its provisions may be found in the official report of the House proceedings.

If the bill introduced in the Senate this morning by Senator Howland should become a law without being amended, except in the State House, for instance, would be a casus belli, but it says nothing about casus belli, but it says a fine of not more than \$10 for any person who expectorates on public side walks or in public buildings.

Senator Chase of Essex introduced a joint resolution which was referred to the committee on State and court expenses, which provides that the joint standing committee on the House of Correction shall visit and examine that institution and report by bill or otherwise.

Without a dissenting voice the House passed this morning the joint resolution relating to the celebration of the 30th anniversary of the discovery of Lake Champlain, which was introduced by Mr. McCuen of Vergennes and printed in full in the Free Press elsewhere. The resolution was amended so that the commission appointed to serve without compensation, and after an explanatory talk by Mr. McCuen, no opposition developed. This joint resolution was taken up as a special order.

Among the 21 bills introduced in the House this morning were several of general interest. Mr. Adams of Windham introduced another measure to equalize taxation.

Another bill introduced by Mr. Carr of St. Johnsbury, also by request, makes the open season for trout, land locked salmon, salmon trout or longnose from April 1 to August 1 of each year.
